Policing In Canada:

Urban Policing in Canada Maurice A. Martin, 1995 In *Urban Policing in Canada* Maurice Martin identifies a variety of factors that exert enormous influence on contemporary police practice including traditional organization and personnel practices management by government public attitudes and the changing urban landscape In doing so he makes a compelling case for the professionalization of Canada's urban police

Policing in Canada William Kelly, Nora Hickson Kelly, 1976
Introduction to Policing in Canada Jayne Seagrave, 1997
Police Powers in Canada University of Alberta. Centre for Constitutional Studies, 1994-01-01 The television spectacles of Oka and the Rodney King affair served to focus public disaffection with the police a disaffection that has been growing for several years In Canada confidence in the police is at an all time low At the same time crime rates continue to rise Canada now has the dubious distinction of having the second highest crime rate in the Western world How did this state of affairs come about What do we want from our police How do we achieve policing that is consistent with the Charter of Rights and Freedoms The essays in this volume set out to explore these questions In their introduction the editors point out that constitutional order is tied to the exercise of power by law enforcement agencies and that if relations between the police and civil society continue to erode the exercise of force will rise a dangerous prospect for democratic societies

Crisis in Canada's Policing John Sewell, Christopher J. Williams, 2021-09-07 In the summer of 2020 as the COVID 19 pandemic surged millions gathered across Canada and the United States to protest violence and racism in policing sparked by the murder of George Floyd at the hands of Minneapolis police officers In the days and weeks following the deaths of Regis Korchinski Paquet in Toronto and Chantel Moore in New Brunswick showed that police violence is also a Canadian reality Although BIPOC communities and activists had been calling for action for years these events sparked unprecedented public outrage and drew crowds in the thousands across Canada calling for the defunding of Canada's police Many authoritative reports have identified big problems in Canada's law enforcement system and have concluded that police are more likely to create or escalate violent situations than promote safety and security Why How has an institution tasked with keeping citizens safe become so dangerous to so many Canadians John Sewell has been studying the problems facing Canadian policing since the 1980s In *Crisis in Canada's Policing* he shines light on the origins of police culture synthesizes dozens of reports that reveal the failures of the police system in Canada and offers solutions that put power back into the hands of community leaders while reining in and reforming police organizations

A Vision of the Future of Policing in Canada André Normandeau, 1990 Presents background information on policing in Canada It examines demographic technological economic political social and cultural trends in order to make a projection concerning the environment of policing by the year 2000 It also discusses the notion of community policing Finally it suggests ways to implement changes

The Wicked Problems of Police Reform in Canada Laura Huey, Lorna Ferguson, Jennifer L. Schulenberg, 2022-08-12 This book looks at police reform in Canada arguing that no significant and

sustainable reform can occur until steps are taken to answer the question of What exactly do we want police to do Adding challenge to this is that setting boundaries on what we expect the police to do requires grappling with the complex social problems we ask them to resolve In public policy language these are wicked problems social or cultural issues frequently seen as intractable Authors Huey Ferguson and Schulenberg all policing scholars draw on a unique collection of data to explore these issues over 20 years of research 2000-2021 ranging from in depth interviews surveys and field observations to document analysis and systematic social observation Pooling this data generates a national level picture of changes in the policing operational environment over these decades This book focuses on four particular wicked problems mental health substance misuse homelessness missing persons with causes and potential preventative treatments that lie primarily outside the criminal justice system and yet continue to be treated as policing problems Bringing about changes in public policing requires changes in public policy and these are precisely the types of wicked problems that need innovative policy solutions This book is suitable for a wide range of audiences within and outside Canada including law enforcement and community leaders scholars and policy experts who specialize in policing students of criminal justice organizations and management and citizen consumers of information about policing

Policing Canada in the 21st Century: New Policing for New Challenges The Expert Panel on the Future of Canadian Policing Models, 2014-11-25 Police services around the world are embarking on a major period of change that has seen few parallels since the founding of modern policing in the 19th century A conflation of factors some long standing others of more recent origin but all significant are now coalescing with implications for the traditional ways in which police services have been providing safety and security for the public Today there are many actors who help ensure a safe and secure environment including technical specialists public and private security providers and first responders As such police have begun to work within a safety and security web that requires new and dynamic partnerships flexibility and adaptability In addition police are addressing increasingly complex and global crimes such as terrorism identity theft and cybercrime These challenges along with increasing costs have led many around the world and in Canada to re-examine the traditional policing model and consider what modern approaches are required to ensure effective and efficient policing for the future

The Rise of Comparative Policing Jacques de Maillard, Sebastian Roché, 2021-08-26 This book argues that policing should be studied in a truly comparative manner as a way of identifying more accurately the diverse features of police organisations and the trends which affect contemporary policing Studying policing comparatively is also a way to develop more sophisticated theories on the relations between police state and society aiming at higher degree of generalization In particular broadening the empirical basis often limited to Western countries favours the formulation of more encompassing theories The comparative analysis then is used to refine meso or macro theories on various aspects of policing The book covers the challenges of comparative research in diverse areas of policing studies with innovative tools and approaches to allow for the development of that subfield of policing It is a significant new

contribution to policing studies and will be a great resource for academics researchers and advanced students of Public Policy Sociology Political Science and Law The chapters in this book were originally published in Policing and Society

Policing Integration Chris Giacomantonio,2015-07-20 This book critically examines coordination work between police officers and agencies Police work requires constant interaction between police forces and units within those forces yet the process by which police work with one another is not well understood by sociologists or practitioners At the same time the increasing inter dependence between police forces raises a wide set of questions about how police should act and how they can be held accountable when locally based police officers work in or with multiple jurisdictions This rearrangement of resources creates important issues of governance which this book addresses through an inductive account of policing in practice *Policing Integration* builds on extensive fieldwork in a multi jurisdictional environment in Canada alongside a detailed review of ongoing research and debates In doing so this book presents important theoretical principles and empirical evidence on how and why police choose to work across boundaries or create barriers between one another
