Policing Pollution A Study Of Regulation And Enforcement

Michael Harris, Martin Partington

Policing Pollution A Study Of Regulation And Enforcement:

Policing Pollution Genevra Richardson, A. I. Ogus, Paul Burrows, 1982 Based on first hand observation this book analyzes various approaches to government intervention in the field of environmental control and presents the findings of an empirical project designed to examine the implementation of one such control instrument in the water industry Particular emphasis is placed on the discretion exercised by enforcement officers and the role played by the criminal sanction

Environmental Law Stuart Bell, Donald McGillivray, Ole Pedersen, 2013-05-09 This edition includes material on environmentalism and the law international environmental law access to environmental justice noise pollution and new legislation on pollution prevention and new case law

Regulation, Enforcement and Governance in Environmental Law Richard Macrory Hon KC, 2014-10-09 Regulation Enforcement and Governance in Environmental Law is an updated edition of Richard Macrory's most influential writings Spanning his entire career these are all works which have helped shape contemporary environmental law and policy The book includes the full text of his 2006 Cabinet Office Review on Regulatory Sanctions new chapters on the Climate Change Act 2008 the Environment Tribunal and analysis of recent leading cases The book is divided into five thematic sections Regulatory reform Institutional Reform and Change the Dynamics of Environmental Law the Courts and the Environment and Europe and the Environment Reviews of the first edition This book is surely destined to become a must read for anyone academic practitioner or student interested in the development of regulation enforcement and environmental governance P Bishop IUCN Academy of Environmental Law Journal An excellent reference work on environmental law an extremely important and valuable edition to the environmental lawyer's bookshelf C Abbot Journal of Environmental Law It is a rare to find a volume which consumes one's attention for 765 pages and rarer still that such a blockbuster be a law book This book is not solely for environmental enthusiasts it should be essential reading for anyone concerned with the institutional reform transparency and accountability in the UK and EU C MacKenzie Cambridge Law Journal

The Encyclopedia of Police Science William G. Bailey, 1995 The first edition 1989 is cited in ARBA 1990 and the Supplement to Sheehy A reference that contains signed alphabetical entries which examine all major aspects of American policing and police science including history current practices new initiatives social pressures and political factors The second edition considerably expands its scope with 70 new entries and revisions and updates of others In this edition greater emphasis is placed on the coverage of drug abuse suppression new types of crime federal mandates for action and international developments that affect American police Annotation copyright Book News Inc Portland OR

Law and Administration Carol Harlow, Richard Rawlings, 2006

The Structure of Regulation Williamson, David, Lynch-Wood, Gary, 2021-09-23 This timely and original book provides an exploration of the factors that combine to determine the form of regulatory problems and the overall success or failure of regulation Using environmental regulation as a basis for analysis this book puts forward a theoretical framework for the design of effective regulation and demonstrates how businesses

compliance with environmental regulation in particular could be improved [Legal Competence in Environmental Health](#) Terence Moran,1997-11-27 *Legal Competence in Environmental Health* assists the environmental health professional in understanding the operation of English law and navigating through some of its complexities It covers those aspects of the work which are regulated by legal principles but not found in a single statute [Wolf and Stanley on Environmental Law](#) Susan Wolf,Neil Stanley,2013-10-23 Written with real clarity by authors teaching and researching in the field *Wolf and Stanley on Environmental Law* offers an excellent starting point for both law and non law students encountering this diverse and rapidly developing subject for the first time The focus of the book is on the regulation and control of pollution and includes chapters on environmental permitting waste management air and water pollution and contaminated land The book also includes the administration and enforcement of environmental law EU environmental law the environmental torts and the private regulation of environmental law The book is supported by a range of learning features designed to help students Consolidate your learning Chapter learning objectives and detailed summaries clarify and highlight key points Understand how the law works in practice Law in Action features demonstrate the application of pollution control law Plan your research Detailed end of chapter further reading sections outline articles books and online resources that provide next steps for your research This sixth edition has been updated and revised to take into account recent developments in the subject including coverage of the Environmental Permitting England and Wales Regulations 2010 developments in the Environment Agency enforcement and sanctions policy documents updates relating to the defence of statutory authority in the tort of private nuisance and current issue relating to compliance with the Aarhus Convention Suitable for students of environmental law and the wider environmental studies *Wolf and Stanley on Environmental Law* is a valuable guide to this wide ranging subject

, [**Routledge Handbook of Water Law and Policy**](#) Alistair Rieu-Clarke,Andrew Allan,Sarah Hendry,2017-02-24 Water plays a key role in addressing the most pressing global challenges of our time including climate change adaptation food and energy security environmental sustainability and the promotion of peace and stability This comprehensive handbook explores the pivotal place of law and policy in efforts to ensure that water enables positive responses to these challenges and provides a basis for sound governance The book reveals that significant progress has been made in recent decades to strengthen the governance of water resource management at different scales including helping to address international and sub national conflicts over transboundary water resources It demonstrates that effective laws and policies are fundamental drivers for the safe equitable and sustainable utilization of water However it is also shown that what might constitute an effective law or policy related to water resources management is still hotly debated As such the handbook provides an important and definitive reference text for all studying water governance and management [Routledge Library Editions: Social & Cultural Geography](#) Various Authors,2022-07-30 Re issuing books originally published between 1969 and 1990 this set of 15 volumes gives a 20 year perspective on the development of the discipline of social geography The books emphasize

the increasingly important contribution of geographical theory to the understanding of social change values economic and political organization and ethical imperatives The volumes are authored by well known international geographers and discuss the philosophy and sociology of geography as well as key themes such as the geography of health crime space They also examine the cross over of geography with other disciplines such as literature and history

Law and Ecology Andreas Philippopoulos-Mihalopoulos, 2011-03-03 Law and Ecology New Environmental Foundations contains a series of theoretical and applied perspectives on the connection between law and ecology which together offer a radical and socially responsive foundation for environmental law While its legal corpus grows daily environmental law has not enjoyed the kind of jurisprudential underpinning generally found in other branches of law This book forges a new ecological jurisprudential foundation for environmental law where ecological is understood both in the narrow sense of a more ecosystemic perspective on law and in the broad sense of critical self reflection of the mechanisms of environmental law as they operate in a context where boundaries between the human and the non human are collapsing and where the traditional distinction between ecocentrism and anthropocentrism is recast Addressing current debates including the intellectual property of bioresources the protection of biodiversity in view of tribal land demands the ethics of genetically modified organisms the redefinition of the human through feminist and technological research the spatial geographical boundaries of environmental jurisdiction and the postcolonial geographies of pollution Law and Ecology redefines the way environmental law is perceived theorised and applied It also constitutes a radical challenge to the traditionally human centred frameworks and concerns of legal theory

Introduction to the Law and Economics of Environmental Policy T. Swanson, 2002-08-15 Three important issues concerning institutional design are policies instruments and enforcement This volume surveys each of the issues and emphasises the common themes arising in optimal institutional design It looks at the importance of institutional design in addressing social problems

Administrative Justice in the 21st Century Michael Harris, Martin Partington, 1999-04-01 The idea of administrative justice is central to the British system of public law more embracing than judicial review or even administrative law itself It embraces all the mechanisms designed to achieve a proper balance between the exercise of public and quasi public power and those affected by the exercise of that power This book contains revised versions of the papers given at the International Conference on Administrative Justice held in Bristol in 1997 Forty years after the publication of the Franks Committee report on Tribunals and Inquiries the conference reflected on developments since then and sought to provoke debate about how the future might unfold Participants included policy makers tribunal chairs and ombudsmen other decision takers as well as academics a formidable combination of expertise in the operation of the administrative justice system Among the themes addressed in the papers are the following the effect of the changing nature of the state on current institutions human rights and administrative justice the relationship between decision taking reviews of decisions and the adjudication of appeals and the overview of administrative justice taking into account lessons from abroad The new

millennium provides an opportunity for the reappraisal of the British system of administrative justice this volume presents an indispensable repository of the ideas needed to understand how that system should develop over the coming years

Contributors Michael Adler Margaret Allars Dame Elizabeth Anson Lord Archer of Sandwell Michael Barnes Julia Black Christa Christensen David Clark Gwynn Davis Godfrey Cole Suzanne Day Julian Farrand Tamara Goriely Michael Harris Ed Neville Harris Tony Holland Terence Ison Christine Lally Douglas Lewis Rosemary Lyster Aileen McHarg Walter Merricks Linda Mulcahy Stephen Oliver Alan Page Martin Partington Ed David Pearl Jane Pearson Pauly Marrinan Quinn John Raine Andrew Rein Alan Robertson Roy Sainsbury John Scampion Chris Shepley Caroline Sheppard Patricia Thomas Brian Thompson Nick Wikeley Tom Williams Jane Worthington Richard Young

The Power of Geography (RLE Social & Cultural Geography) Jennifer Wolch, Michael Dear, 2014-01-23 This book illuminates the profound influence of geography on everyday life Concentrating on the realm of social reproduction gender family education culture and tradition race ethnicity the contributors provide both an articulation of a theory of territory and reproduction and concrete empirical analyses of the evolution of social practices in particular places At the core of the book's contribution is the concept of society as a time space fabric upon which are engraved the processes of political economic and socio cultural life A second distinctive feature of the book is its substantive focus on the relation between territory and social practice Thirdly it represents a significant step in the redefinition of the research agenda in human geography

Exercising Discretion Loraine Gelsthorpe, Nicola Padfield, 2012-12-06 Although the exercise of discretion often plays a key part in decisions which are made within the criminal justice system definitions of discretion are not clear and despite widespread recognition of its importance there is much controversy on its nature and legitimacy This book focuses on the core elements and contexts of discretion looking at the power ability authority and duties of individuals officials and organisations to decide select or interpret vague standards requirements or statutory uncertainties

International Law for Energy and the Environment Patricia Park, 2013-03-01 This completely revised edition of Energy Law and the Environment has greatly expanded its scope to explore how international law engages with multinational companies regarding energy sources ownership of those resources and state sovereignty Written for all the players in the energy sector lawyers and non lawyers alike this second edition has

Environmental Regulation Through Financial Organisations: Comparative Perspectives on the Industrialised Nations Benjamin Richardson, 2002-02-13 This book takes a comparative perspective of practice in the European Union North America Japan and Australasia arguing that existing legal reforms to promote sustainable development are unlikely to be successful unless environmental policy can be diffused and embedded in the financial services sector This sector plays a crucial role in creating the financial conditions that allow much economic development to proceed Financial markets are already highly regulated in pursuance of various public policy objectives and there is scope to adapt existing regulation to incorporate environmental aspects into the financial services sector In terms of specific reforms the book focuses on the role

of corporate environmental reporting economic instruments and liability rules to provide a proper context for engaging financial organisations with the environment as well as reforms to the system of prudential regulation that currently governs this sector Beyond the focus on the financial services sector the book raises complex questions regarding the relationship between the state and market institutions in environmental policy and will appeal to scholars from a wide range of disciplines interested in problems of environmental governance

Waste and Environmental Policy Massimiliano Mazzanti, Anna Montini, 2009-03-23 This research deals with the increasingly complex issues of waste generation waste management and waste disposal that in less developed industrialised countries present diverse but critical concerns It takes a socio economic and policy oriented perspective and provides empirical evidence at EU and regional level The EU and Italy are taken as relevant case studies given the disparities in environmental performances between less and more developed areas The rich and various empirical evidence shows that a robust delinking between waste generation and economic growth is still not present thus future policies should directly address the problem at the source by targeting waste generation in EU countries Some structural factors like population density and urbanisation present themselves as relevant drivers of both waste management and landfill diversion Nevertheless economic and structural factors alone are not sufficient to improve waste performances Though waste policies are to be redesigned by covering the entire area of waste management some first signals of policy effectiveness are arising This work will be of most interest to those students of environmental economics and environmental sciences as well as policy makers waste utility managers and companies in the waste management sector

US Environmental Policy in Action S. Rinfret, M. Pautz, 2014-12-04 US Environmental Policy A Practical Approach to Understanding Implementation provides a comprehensive look at the creation implementation and evaluation of environmental policy which is of particular importance in an era of congressional gridlock With a focus grounded in the front lines of environmental policy readers are afforded examples of how environmental policy works through case studies and voices sections thereby enriching the text s practical approach to understanding contemporary American environmental policy
