Policing The Rainbow:

Queer Histories and the Politics of Policing Emma K. Russell, 2019-08-13 Despite ongoing challenges to the criminalisation and surveillance of queer lives police leaders are now promoted as allies and defenders of LGBT rights However in this book Emma K Russell argues that the surface inclusion of select LGBT identities in the protective aspirations of the law is deeply tenuous and conditional and that police recognition is both premised upon and reproductive of an imaginary of good queer citizens those who are respectable responsible and just like their heterosexual counterparts Based on original empirical research Russell presents a detailed analysis of the political complexities compromises and investments that underpin LGBT efforts to achieve sexual rights and protections With a historical trajectory that spans the so called decriminalisation era to the present day she shows how LGBT activists have both resisted and embraced police incursions into queer space and how with LGBT support police leaders have re crafted histories of violence as stories of institutional progress Queer Histories and the Politics of Policing advances broader understandings of the nature of police power and the shifting terrain of sexual citizenship It will be of interest to students and researchers of criminology sociology and law engaged in studies of policing social justice and gender and sexuality At the Rainbow's Edge Kenny Anthony, 2004

Rethinking Policing and Justice Luis Fernandez, Laura Huey, 2014-07-16 It has become somewhat axiomatic to refer to the police as the gatekeepers of the criminal justice system and thus as a mechanism for the provision of justice And yet when we conceptualize the police in this way what is often taken for granted is the exact nature of that role and its larger social meaning Indeed we know that police deliver justice more efficiently to some and injustice to others Rethinking Policing and Justice critically examines the role of policing both state and non state forms in the provision of justice and injustice In essence it presents work that highlights how different communities and groups have sought alternatives to policing sometimes taking over the functions of policing It also shows a variety of theoretical methodology and other approaches for the critical evaluation of law enforcement highlighting different insights into alternative modes of policing as we seek to understand and redraft the relationship between policing and justice This book was originally published as a special issue of Contemporary Justice Review

The Policing of Transnational Protest Abby Peterson, 2016-02-24 Having long been a neglected issue the policing of protest began to attract considerable attention in the 1990s climaxing in the events in Seattle of 1999 These protests and the changing political climate since September 11 2001 mean that a new cycle of protest is challenging the concept of law and order and civil liberties This book examines how new policing styles are developing using case studies from North America and Europe The volume brings together researchers from a number of disciplines sociology criminology political science and mass communication who focus on new forms of political protest policing and public order

Policing Developing Democracies Mercedes S. Hinton, Tim Newburn, 2008-09-25 There are enormous challenges in establishing policing systems in young democracies Such societies typically have a host of unresolved pressing social economic and political questions that impinge on policing and the prospects for reform There are a series of hugely important questions arising in this context to do with the emergence of the new security agenda the problems of transnational crime and international terrorism the rule of law and the role of the police security services and the military This is a field that is not only of growing academic interest but is now the focus of a very significant police reform industry Development agencies and entrepreneurs are involved around the globe in attempts to establish democratic police reforms in countries with little or no history of such activity Consequently there is a growing literature in this field but as yet no single volume that brings together the central developments This book gathers together scholars from political science international relations and criminology to focus on the issues raised by policing within developing democracies examining countries in Eastern Europe Asia South America and Africa

Queering Criminology Matthew Ball, Thomas Crofts, Angela Dwyer, 2016-01-26 Queer criminological work is at the forefront of critical academic criminology responding to the exclusion of queer communities from criminology and the injustices that they experience through the criminal justice system This volume draws together both theoretical and empirical contributions that develop the growing scholarship being produced at the intersection of queer and criminology Reflecting the diversity of research that is undertaken at this intersection the contributions to this volume offer a deeper theoretical and conceptual development of this

field alongside empirical research that illustrates the continued relevance and urgency of such scholarship The contributions consider what it means to be queering criminology in the current political social and criminological climate and chart directions along which this field might develop in order to ensure that greater social and criminal justice for LGBTIQ communities is achieved

Women in Policing Emma Cunningham, 2021-08-11 Women in Policing provides an insight into women's role within policing their emergence and development offering a theoretical underpinning to explore this role as well as incorporating two empirical studies one which reassesses the lived experiences of female officers and one based on FOI requests to examine police officer disciplinary offences in three police force areas The book begins by exploring some of the history of ideas in relation to ideas about women and their supposed nature Cunningham shows how a variety of feminist ideas and critique are of vital importance in illuminating and critiquing the place of women within this field and provides a feminist lens with which to explore these themes critically The book also examines the re-emergence of these ideas about women in current women and policing literature Together exploration of these sources using a feminist conceptual framework facilitates a new rich analysis that is both reflective and reflexive culminating in a novel snapshot of the place of women in policing in England She argues that accepting both institutional racism and institutional misogyny are vital in approaching transformational change in policing practice The book concludes with a discussion around how these findings can help with police confidence and legitimacy in the future A fundamental examination of the ideas underpinning how women's integration and continuation in policing has happened where it is currently and where it may go Women in Policing will be of great interest to police practitioners and students as well as Criminology Sociology and Law and Policing scholars

Contradictions of Democracy Nicholas Rush Smith, 2019-01-17 Despite being one of the world's most vibrant democracies police estimate between five and ten percent of the murders in South Africa result from vigilante violence This is puzzling given the country's celebrated transition to democracy and massive reform of the state's legal institutions Where most studies explain vigilantism as a response to state or civic failure in Contradictions of Democracy Nicholas Rush Smith illustrates that vigilantism is actually a response to the processes of democratic state formation In the context of densely networked neighborhoods vigilante citizens often interpret the technical success of legal institutions for instance the arrest and subsequent release of suspects on bail as failure and work to correct such perceived failures on their own Smith also shows that vigilantism provides a new lens through which to understand democratic state formation Among young men of color in some parts of South Africa fear of extra-judicial police violence is common Amid such fear instead of the state seeming protective it can appear as something akin to a massive vigilante organization An insightful look into the high rates of vigilantism in South Africa and the general challenges of democratic state building Contradictions of Democracy explores fundamental questions about political order the rule of law and democratic citizenship

Police Files: The Spokane Experience 1853-1995 M. Kienholz, 1999

Issues and Controversies in Policing Today Johnny Nhan, 2025-03-18 Issues and

Controversies in Policing Today by Johnny Nhan is a thought provoking exploration of today's policing challenges. It delves into contemporary topics ranging from police misconduct and racial profiling to LGBTQ officers and policing technologies. These topics are grounded in theory, research, and practice. This second edition features two new chapters covering 1. the critical shortage of police officers and 2. the conflict and tensions between street cops and management cops. Since the first edition, the author has undergone the police academy and became a reserve police officer. This new and unique perspective, going from academic to practitioner, adds depth, bringing firsthand experience to the discussion and throughout this text. Whether you are a student, practitioner, or curious reader, the second edition of *Issues and Controversies in Policing Today* offers valuable insights into the evolving landscape of law enforcement.

Policing Las Vegas Dennis N. Griffin, 2005-05
Policing Las Vegas chronicles the evolution of law enforcement in Las Vegas and Clark County from the days of night watchmen and cops who carted drunks to jail on horseback to today's acclaimed Metropolitan Police Department. It's filled with stories about the colorful characters on both sides of the law, drawn from history, legend, and the personal accounts of many men and women who policed Las Vegas.

Police in a Multicultural Society David E. Barlow, Melissa Hickman Barlow, 2018-04-10
 Social, political, and economic relationships played key roles in the historical development of the police. The authors present policing strategies from the vantage points of marginalized communities and emphasize the intersection of attitudes about class, race, ethnicity, gender, and sexual orientation with policies. Police practices cannot be class neutral in a class society, nor can they be race neutral or gender neutral in a racist, sexist, and heterosexist society. The key to understanding the relationship between the police and society is to think critically about the role of power and interests. The second edition includes a new chapter in the section on the police and rebellion, covering recent events. There is also a new chapter on Latino police officers and an expanded chapter on LGBTQ police officers. Without meaningful social change toward greater justice, police reforms such as community policing and training in cultural diversity will fall short of creating an institution characterized by fairness and equality for all members of society. A clear view of history is essential for understanding the challenges a more diverse police force faces in today's multicultural environment.

After Black Lives Matter Cedric G. Johnson, 2024-02-20 After Black Lives Matter should be commended both for the clarity of its message and the bravery of its convictions Jay Caspian Kang New Yorker Why did a movement as powerful as the one inspired by the murder of George Floyd fall short of securing its most militant demands The murder of George Floyd prompted a historic uprising that transformed the way Americans and the world think about race and policing Why did that movement fall short of the most militant demands to defund and dismantle police departments After Black Lives Matter argues that the failure to make institutional changes was not a simple result of the mercurial and reactive character of the protests Rather the core of the movement itself failed to locate the central racial injustice that underpins the crisis of policing socioeconomic inequality The anticapitalist and downwardly redistributive politics of many Black Lives Matter activists has too often been drowned out in the flood of black wealth creation the fetishism of Jim Crow black entrepreneurship corporate diversity initiatives and a quixotic reparations demand Contemporary policing reflects the turn from welfare to domestic warfare as the chief means of controlling the most dispossessed elements of the working class The way forward lies in building popular democratic power to advance redistributive policies and social welfare
