**Policy and Planning As Public Choice** DAVID. WILLIAMS LEWIS (FRED LAURENCE.), Fred Laurence Williams, 2020-02-03 First published in 1999 this book applies formal economic measures to the passenger and taxpayer benefits of public transit service in the United States under a public choice analytical framework Approximately 400 local transit budgets have been renewed annually for more than 25 years These budgets epitomize Braybrooke and Linblom's concept of disjointed incrementalism and Buchanan's concept of Public Choice since local legislators funded transit despite constant academic criticism of transit performance On the other hand Braybrooke and Lindblom and Buchanan show that local budgets capture benefits that traditional planning analysis does not grasp This is borne out in analysis in the book Indeed far from draining society transit returns five dollars in benefits for each one dollar of public subsidy After explaining the analytical framework in Chapter 1 four chapters are devoted to measuring the value of transit benefits The concluding chapter draws out the implications of this approach and of benefit measurement for policy and planning **Public**

**Economics in the United States** Steven Payson, 2014-06-11 This comprehensive explanation of the U S government's role in economics will be an eye opener for anyone who wants to understand exactly what the government does and doesn't do in this most critical area Most people including many economists are not aware of the great variety of crucial tasks and invaluable analyses undertaken by government economists This three volume set will fill that gap with an all encompassing overview of the major economics related work the government performs across all of its agencies and offices With 45 chapters written by 61 leading experts the work covers every major topic in government economics including such diverse areas as monetary policy defense spending social assistance international trade antitrust and environmental protection In addition to entries by those who teach economics the compendium also features candid observations from government insiders to help readers grasp how things really work But readers will not only gain insight into specific fields and topics they will also be able to better understand the big picture and how its pieces fit together This unique and far reaching set often challenges conventional wisdom even as it presents a novel synthesis of the government's research analysis and actions

*Highway and Transit Investments* United States. Government Accountability Office, 2005 **Highway and transit investments options for improving information on projects' benefits and costs and increasing accountability for results : report to congressional committees.** , 2005 Projections of future passenger and freight travel suggest that increased levels of investment may be needed to maintain the current levels of mobility provided by the nation's highway and transit systems However calls for greater investment in transportation come amid growing concerns about fiscal imbalances at all levels of the government As a result careful decisions will need to be made to ensure that transportation investments maximize the benefits of each federal dollar invested In this report GAO identifies 1 the categories of benefits and costs that can be attributed to new highway and transit investments and the challenges in measuring them 2 how state local and

regional decision makers consider the benefits and costs of new highway and transit investments when comparing alternatives 3 the extent to which investments meet their projected outcomes and 4 options to improve the information available to decision makers To address these objectives we convened an expert panel surveyed state departments of transportation and transit agencies and conducted site visits to five metropolitan areas that had both a capacity adding highway project and transit project completed within the last 10 years DOT generally agreed with the report s findings and offered technical comments which were incorporated as appropriate
