**Peter Gibbon**

## **Policy Factor Agricultural Performance In Kenya And Tanzania:**

*Beyond Capitalism Vs. Socialism in Kenya and Tanzania* Joel D. Barkan, 1994 Explores how Tanzania and Kenya often regarded as paradigms of capitalist and socialist development in Africa have responded to the challenges they face such as population growth mounting external debt and structural adjustment by modifying their original approach to development

**The Policy Factor** Michael F. Lofchie, 2023      **The Impact of Policy in African Agriculture** William Kenneth Jaeger, 1991 Policy in Sub Saharan African countries is linked with the region's agricultural performance Exchange rate policies high taxes on agriculture and government control of export marketing are associated with the deterioration in agricultural export performance in 1970-87 And the policy reforms of the late 1980s where sustained and effective are linked with increased agricultural productivity

**Food Security Policy in Africa Between Disaster Relief and Structural Adjustment** Gabriele Geier, 2014-04-08 According to the FAO one person in three in sub Saharan Africa suffers from malnutrition and one in seven is in danger of dying Most African countries no longer seem capable of ensuring that their people have access to sufficient food Given the failure of past efforts the objectives of food security policies and their effectiveness have to be reconsidered This book shows that the debate on food security policies has changed with the passage of time The entitlement debate triggered by A Sen had a major influence on this change but the bearing of socio economic structures on the food security of African households and their individual members are still not fully recognised

**Beyond Capitalism versus Socialism in Kenya and Tanzania** Joel D. Barkan, 1994      **Transforming Agrarian Economies** Thomas P. Tomich, Peter Kilby, Bruce F. Johnston, 2018-05-31 The world's 58 poorest countries are diverse in many respects but they share the characteristic of a labor force overwhelmingly dependent on agriculture Challenging the assumption that mass poverty and chronic hunger are insoluble problems this book systematically explores the multiple aspects of economic development in these countries which are home to 60 percent of the world's population The authors offer a broad based development strategy to raise incomes through agricultural productivity growth and expanded rural employment They present rich new information on the rural informal sector and on agriculture industry interactions and they analyze the impact of macroeconomic and social policies on the rural economy Policy instruments aimed at bringing about broad based development are carefully assessed from fiscal policy to development of new seeds and farm implements The book includes detailed case studies of countries that have seized or missed development opportunities Comparison of the successful economic transformations of Japan and the United States shows how key ideas which the authors call strategic notions have enabled policymakers to act with foresight Analyses of strategic choices in China the Soviet Union Taiwan Mexico Kenya and Tanzania also show how development strategies that emerge from the real world political economy reflect a mix of individual interests and strategic notions

**Economic Policy and Household Welfare During Crisis and Adjustment in Tanzania** Alexander H. Sarris, Roger Van Den Brink, 1993-09-01 Tanzania is now the fourth poorest country

in the world Its economic development since independence in 1961 has been characterized by a series of internal and external shocks that have tested the resilience of the economy the stability of its institutions and the tolerance and inventiveness of its people This book presents information that will have profound implications for economic policy in Tanzania Questioning earlier reports and conclusions the authors reject official economic statistics as failing to give even a moderately accurate picture of economic developments This study outlines the structure of the Tanzanian economy and considers the impact of previous policies and current stabilization and adjustment measures on the poorer segments of the Tanzanian population      *The Political Economy of Africa* Vishnu Padayachee,2010-06-10 The Political Economy of Africa aims to fill a major gap in the existing literature by exploring the economy and economics of Africa The book has a critical approach from the perspective of political economy rather than mainstream economics This book addresses the seemingly intractable economic problems of the African continent and trace their origins but also always to bring out the instances of successful economic change and the possibilities for economic revival and renewal      **Markets, Civil Society and Democracy in Kenya** Peter Gibbon,1995 Focuses on three of the most important dimensions of grassroots development and change in the country over the last decade and a half continuity and transformation in the cereals marketing chain the centrepiece of World Bank European Community and USAID efforts during the 1980s and early 1990s to liberalize Kenyan economic institutions on the basis of aid conditionality the nature and political role of local level development institutions before and after the re emergence of multi party politics in 1991 92 and the complex relation between recent political developments and religious organizations      *Economic Growth and Measurement Reconsidered in Botswana, Kenya, Tanzania, and Zambia, 1965-1995* Morten Jerven,2014-03-27 How do we measure African economic performance This volume studies how growth is measured in Botswana Kenya Tanzania and Zambia and challenges commonly held beliefs of African economic performance The volume offers a reconsideration of economic growth in Africa in three respects First it shows that the focus has been on average economic growth and that there has been no failure of economic growth In particular the gains made in the 1960s and 1970s have been neglected Second it emphasizes that for many countries the decline in economic growth in the 1980s was overstated as was the improvement in economic growth in the 1990s The coverage of economic activities in GDP measures is incomplete In the 1980s many economic activities were increasingly missed in the official records thus the decline in the 1980s was overestimated resulting from declining coverage and the increase in the 1990s was overestimated resulting from increasing coverage The third important reconsideration is that there is no clear association between economic growth and orthodox economic policies This is counter to the mainstream interpretation and suggests that the importance of sound economic policies has been overstated and that the importance of the external economic conditions have been understated in the prevailing explanation of African economic performance      Global Geopolitical Power and African Political and Economic Institutions John James Quinn,2015-12-30 Global Geopolitical Power

and African Political and Economic Institutions When Elephants Fight describes the emergence and nature of the prevailing African political and economic institutions in two periods In the first most countries adopted political and economic institutions that funneled significant levels of political and economic power to the political elites usually through one or no party military political systems inward oriented development policies and or state led and often state owned industrialization In the second period most countries adopted institutions that diluted the overarching political and economic power of ruling elites through the adoption of de jure multiparty electoral systems more outward oriented trade policies and the privatization of many state owned or controlled sectors though significant political and economic power remains in their hands The choices made in each period were consistent with prevailing ideas on governance and development the self interests of political elites and the perceived availability of support or autonomy vis vis domestic regional and international sources of power at the time This book illustrates how these two region wide shifts in prevailing political and economic institutions and practices of Africa can be linked to two prior global geopolitical realignments the end of WWII with the ensuing American and Soviet led bipolar system and the end of the Cold War with American primacy Each period featured changed or newly empowered international and regional leaders with competing national priorities within new intellectual and geopolitical climates altering the opportunities and constraints for African leaders in instituting or maintaining particular political and economic institutions or practices The economic and political institutions of Africa that emerged did so as a result of a complex mix of contending domestic regional and international forces material and intellectual all which were themselves greatly transformed in the wake of these two global geopolitical realignments Kenya Norman Miller,Rodger

Yeager,2018-03-09 First Published in 2018 This book captures the self confident spirit that characterizes Kenya and provides unique insights into how this nation of contemporary Africa is faring in its continuing quest for prosperity focusing on the contemporary period beginning with the rise to power of President Daniel arap Moi in 1978 **Government and Politics**

**in Africa** William Tordoff,2002 The author provides extra coverage of both North and South Africa and of such key issues as debt the AIDS epidemic the position of women and the politics of patronage BOOK JACKET The Fate of Africa Martin

Meredith,2005-07-05 Traces the history of Africa in the fifty years since the independence era began describing how the withdrawal of Europe s colonial powers influenced the African people and culture **Political Science** William J.

Crotty,1991 In this volume the study of legislatures has traditionally been a central preoccupation of political scientists Legislatures provide good laboratories for testing theories and methodologies of significance in the discipline and more broadly for contributing to an understanding of how representative government works *Majority State Ownership of Oil*

*and Mining Sectors in Africa* John James Quinn,2024-09-30 Majority State Ownership of Oil and Mining Sectors in Africa The Resource Curse Undermined shows that countries in sub Saharan Africa with majority state ownership of their major oil or mineral export sectors suffered from more severe versions of the natural resource curse than other similar countries

Examining natural resource exporting nations in sub Saharan Africa between 1966 to 2000 Quinn shows that on average states with majority state ownership of these sectors featured lower growth lower incomes declining alternative export sectors more debt lower levels of investment lower levels of political and civil rights and more domestic conflict than other similar countries These results remained fairly consistent across both cross country data as well as in paired case studies One surprise finding is that these countries either had depreciating currencies or did not feature high levels of currency appreciation on average which is inconsistent with resource curse literature predictions Rather most countries with majority state ownership had high levels of currency overvaluation which operated in a similar manner as currency appreciation This work should appeal to students and faculty interested in the political economy of development the natural resource curse and African development as well as politicians policy makers and NGO workers working in these areas The strong recommendation of the book is that governments should control 50% or less of these sectors Creative Marginality Mattei Dogan,2019-06-03 Tracing the nine formal social science disciplines political science sociology economics history anthropology philosophy geography psychology and linguistics through their cycles of growth specialization fragmentation and hybridization Dogan and Pahre reject the notion of catch all interdisciplinary research They set out to demon *The Comparative Political Economy of Development* Barbara Harriss-White,Judith Heyer,2009-12-21 Illustrates the enduring relevance and vitality of the comparative political economy of development approach and presents the relation between theory and empirical material in an interactive way This title offers an explanation of what is happening in the continent of Africa and the sub continent of South Asia *The Economic Roots of Conflict and Cooperation in Africa* W. Ascher,N. Mirovitskaya,2013-11-07 This book combines overviews of the nature and causes of inter group violence in North Africa and sub Saharan Africa with a collection of country case studies Both the overview chapter and the case studies trace how economic policy initiatives and consequent changes in the roles and statuses of various groups shape conflict or cooperation The Politics of Patronage in Africa Roger K. Tangri,1999 This is a survey of the influence of political factors on economic performance throughout Africa with case studies drawn from Ghana Zambia and Uganda It is a comparative study of the difficulties in developing a private enterprise economy

## **Policy Factor Agricultural Performance In Kenya And Tanzania** Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Policy Factor Agricultural Performance In Kenya And Tanzania**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
