Direct rule and the governance of Northern Ireland Derek Birrell, 2013-07-19 This is the first comprehensive study of direct rule as the system of governance which operated in Northern Ireland for most of the period between 1972 and 2007 The major institutions of governance are described and examined in detail including the often neglected sectors of the role of the Westminster parliament the civil service local government quangos ombudsmen offices cross border structures and the public expenditure process The book explains how the complex system covering transferred reserved and excepted functions worked and provided viable governance despite political violence constitutional conflict and political party disagreements In addition a comparison is drawn between direct rule and devolution analysing both the positive and negative impact of direct rule as well as identifying where there has been minimal divergence in processes and outcomes It will prove an invaluable reference source on direct rule and provide a comparative basis for assessing devolution for students of public administration government politics public policy and devolution

Decentralizing The Civil Service Rhodes, R.A. W., Carmichael, P., McMillan, J, 2003-02-01 The authors also explore two controversial propositions First they ask whether Britain is moving from the unitary strong executive of the Westminster model to a differentiated polity characterized by institutional fragmentation Second they consider whether an unintended consequence of recent changes is a hollowing out of the state Is the British executive losing functions downwards to devolved governments and special purpose bodies and outwards to regional offices and agencies with a resulting loss of central capacity Substantial empirical data both quantitative and qualitative has been amassed here in order to give answers to these questions

Northern Ireland at the Crossroads M. Mulholland,2015-12-22 Centred on the dramatic premiership of Terence O Neill Northern Ireland at the Crossroads examines the most hopeful decade for Ulster Unionism this century O Neill s bold ambition to reach out to Catholics inspired optimism but also massive political instability Though concerned with the drama and personalities of

high politics this book has much to say on popular attitudes in one of the world's most politicised societies New light is shed on Paisleyism discrimination and the civil rights movement *QUANGOs and Local Government* Howard Davis, 2019-07-23

There is now an appointed world of local governance sitting alongside elected government this publication seeks to develop understanding of the changing world of local governance and thus contribute to wider debates The impact of these changes will continue to be felt for many years to come whoever is in government **Politics in Ireland** Maura Adshead, Jonathan Tonge, 2009-04-21

Politics in Ireland is the first major text to provide an accessible and systematic analysis of the politics of Ireland North as well as South With the development of a new Northern Irish political system and increasing links across the island the authors argue that the time is ripe to study together the two polities which share so much of a common history but which have had very different evolutions through the 20th century Drawing upon an exceptionally wide range of sources and their own original research the authors deploy a thematic approach to the study of political institutions political behaviour and public policy in both the Republic and Northern Ireland in order to produce a detailed but highly readable assessment of governance and politics in both political systems This approach enables them both to outline the differences and similarities between the polities and to explain how they relate to the wider world in particular to the UK and to Europe **Belfast** Peter Shirlow, Brendan Murtagh, 2006-05-20

Paris Jerusalem and Belfast are cities that are shaped by political violence death and the injustices caused by segregated living But divided cities are becoming places within which policy makers and politicians project an image of normality despite the facts of social injustice victimhood and harm It is a commonly held view that the city of Belfast is emerging out of conflict and into a new era of tolerance and transformation This book challenges this viewpoint The authors pinpoint how international peace accords such as the Belfast Agreement are gradually eroded as conflict shifts into a stale and repetitive pattern of ethnically divided competition over resources This book is a vivid portrait of how segregation lived experience and fear are linked in a manner that undermines democratic accountability It argues that the control of place remains the most important weapon in the politicisation of communities and the reproduction of political violence Segregation provides the laboratory within which sectarianism continues to grow Discrimination in Northern Ireland, 1920-1939 John O'Brien, 2009-12-14

Throughout the period of devolved government in Northern Ireland between 1921 and 1972 allegations of discrimination by the Ulster Unionist government against the Catholic and nationalist minority have been constant These accusations of discrimination were regularly made concerning education employment public housing and representation This book aims to examine these nationalist allegations and assess whether or not discrimination did occur and if so the extent to which the minority became disadvantaged as a result This volume focuses on the inter war period 1920-39 and evaluates the policies and practices of successive Unionist governments In essence it attempts to ascertain whether or not the charges of overt discrimination levelled against the government were warranted Previous literature on the topic has tended to be biased in favour of one side of the political divide be it Ulster unionism or

Irish nationalism Drawing from a wide range of primary and secondary sources this book has found that the need for mutual understanding is paramount The Stormont administration s need to concentrate all power in its own hands was most likely born out of a longing for security and self preservation and motivated by siege mentality and internal threat Is there a state in the world where there would not exist a bias justified or unjustified against those who refused to be loyal to or even recognise that state Discriminatory practices engaged in as a means to an end may have become a way of life for some Protestants and unionists It definitely came to be seen as such by the Catholic and nationalist minority whether justified or not
