Outside Lobbying Kenneth Kollman, 2020-11-10 In Outside Lobbying Ken Kollman explores why and when interest group leaders in Washington seek to mobilize the public in order to influence policy decisions in Congress In the past political scientists have argued that lobbying groups make outside appeals primarily because of their own internal dynamics to recruit new members for example Kollman however grants a more important role to the need for interest group leaders to demonstrate popular support on particular issues He interviewed more than ninety interest group leaders and policy makers active on issues ranging from NAFTA to housing for the poor While he concludes that group leaders most often appeal to the public when they perceive that their stand has widespread popular support he also shows that there are many important and revealing exceptions to this pattern Kollman develops his theory of outside lobbying through a combination of rational choice modeling and statistical tests that compare public opinion data with data from his interviews about interest groups policy positions and activities The tests reveal that group leaders use outside lobbying to take advantage of pre existing public preferences not to recruit members or to try to generate the mere appearance of grass roots support Kollman s innovative book will clarify the complex relationship among lobbying public opinion and public policy and will set a new standard for interest group research

Prime Witness: Change and Policy Challenges in Buhari's Nigeria Obaze, Oseloka H., 2017-09-26 This volume of essays on public policy challenges in the Buhari led Nigeria is a child of necessity In 2015 and sixteen years after the PDP assumed the leadership reins in Nigeria it was evident to all that Nigeria was not enjoying the best form of governance and purposeful leadership The strength of government was absolutely lacking Enter 2015 and the grand alliance and vision of the All Progressives Congress

APC which claimed to be the only credible alternative capable of upending the PDP and providing Nigeria the much leadership change it desired Hope about Nigeria's prospects soared with the election of President Muhammadu Buhari The hope was well founded it reflected the high expectations generated both by the smooth transfer of power from the Jonathan administration itself a sign of a maturing democracy and by the scintillating campaign by candidate Buhari It did not take long before the Buhari administration confronted the political reality of governance The governance reality that the Buhari administration faced on assuming the reins of power consisted of his own campaign promises tackling insecurity combating corruption and growing the economy with emphasis on reducing unemployment and diversifying the economy unanticipated crises resurgence of militancy in the Niger Delta and onset of recession and self inflicted injuries delayed appointment of his cabinet policy somersaults on foreign exchange policy and poor management of the recession Prime Witness Change and Policy Challenges in Buhari's Nigeria is essentially a product of the author's observations exchanges with his various interlocutors in and out of government and Nigerians and non Nigerians alike during the first year of the Buhari administration 2015 2016 The decision to put this volume together and indeed the compelling reason for articulating the policy recommendations critiques and views herein derived in his personal belief that as a member of the Nigerian attentive public we owed it as a civic duty to our posterity to speak up regardless of whether anyone is listening Such undertaking will no doubt enrich our national conversation of critical issues and in the long run vindicate us in the eyes of our posterity
