Education Policy Implementation Allan Odden,1991-01-01 A supplemental text for courses in education policy administration and program evaluation Analyzes to what extent state and federal education policy has actually been implemented over the past 25 years and to what degree the implementation has led to effectiveness Annotation copyrighted by Book News Inc Portland OR Advances in Sociological Knowledge Nikolai Genov,2013-06-29 Das englischsprachige Buch zieht eine Bilanz der widersprüchlichen intellektuellen Entwicklung der Soziologie über ein halbes Jahrhundert Die Disziplin braucht diese Aufarbeitung der eigenen Erfahrung um mit den neuen sozialen und kognitiven Herausforderungen fertig zu werden **American Political Scientists** Glenn H. Utter,Charles Lockhart,2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries focus on the main ideas and major works by each scholar listing list the most important publications by and about the individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research Organizational Report Cards William T. Gormley Jr.,David L. Weimer,1999-03 In recent years consumers professional organizations government officials and third party payers have become increasingly concerned about how to assess the quality of the services provided by organizations in both the private and the public sectors One new approach is the organizational report card which compares the performance of organizations such as public schools colleges hospitals and HMOs This book offers the first comprehensive study of such instruments It discusses the circumstances under which they are desirable alternatives to other policy instruments such as regulation how they should be designed who is likely to use them and for what purpose and what role if any government should have in their creation Informed by cases drawn from education health and other policy areas this book develops a conceptual framework for analyzing these issues It explores the tradeoffs in measuring performance the methods of communicating results effectively to mass and elite audiences and the ways in which organizations respond to the data gathered Morbidity and Mortality Weekly Report ,1999 **The Experimenting Society** William N. Dunn,2024-11-01 An experimenting society is one in which policy relevant knowledge is created It is then critically assessed and communicated in real life or natural settings with the aim of

discovering new forms of public action to improve the problem solving capacities of society This latest volume of the distinguished Policy Studies Review Annual series probes evaluates and augments the work of Donald T Campbell on an experimental societies A basic assumption of this volume is that Campbell s perspective supplies a useful way to address increasingly complex and seemingly unmanageable problems facing the United States and other postindustrial societies This volume is also the fourteenth festschrift to be issued by Transaction The focus is on theoretical as well as practical options for creating an experimenting society The rationale for this focus is the belief increasingly shared in the social science and policy making communities alike that researchers are essentially ignorant about how to solve many of the most pressing larger problems of this epoch This frank recognition of ignorance is a prerequisite of genuine scientific and professional curiosity without which knowledge gains are next to impossible to achieve and a precondition of an experimenting society Contributors to this original volume include Steve Fuller Duncan MacRae Jr Anthony S Bryk Robert A Beauregard Rita Mae Kelly Peter Gregware Burkart Holzner B Guy Peters C West Churchman and Ian I Mitroff Their multidisciplinary competencies are at once philosophical methodological and substantive They address such questions as What new or bold policies are available in domains such as education science and urban development In what ways can theoretical knowledge and practical action be fused so as to illuminate or alleviate policy problems What should be done Included are excerpts from Campbell s foundational paper The Experimenting Society as well as a recent article entitled Methods for the Experimenting Society which circulated in unpublished form for many years An unusual feature of the book is Campbell s responses to those who have addressed his work with candor and intelligence It will be of interest to policy studies scholars sociologists and social scientists

Political Science American Political Science Association. Meeting, 1986 If at one time we thought that the movement to science would yield unification of the discipline it is now apparent that there are many roads to science Still it is important for us to consider yet again what the appropriate goals are for our scientific enterprise What works in theory building induction and deduction prediction and control the search for useful principles to guide us examining these questions we can build a better science Political science has come so far as a discipline that different schools and scholars have different interpretations of science in the study of pol

International Poverty Law Lucy Williams, 2013-07-04 This book seeks to advance the emerging field of international poverty law While law and development discourse has dealt with international poverty advocates of poverty reduction customarily operate within a nation state context The contributors to this volume while largely although not exclusively relying on human rights discourse and United Nations International Labour Organization and World Trade Organization initiatives as their primary legal sources begin to position international poverty law as a legitimate field for transnational multidisciplinary legal research and dialogue While critiquing both legal theory and current policy they nevertheless open up a constructive prospect of specific arenas in which the development of international poverty law can contribute to addressing poverty reduction The opening chapters of this volume provide a

framework within which to position the future theoretical development of international poverty law The rest of the book explores specific human rights initiatives that address particular aspects of poverty These include an overview of human rights conventions and how they can be connected to international poverty law measures required to counter the tendency of intellectual property law as applied to biological products and processes to undermine food security the right to food as framed in United Nations development documents the potential role that voluntary codes of conduct currently being adopted by some transnational corporations might play in poverty reduction and the startlingly important development in the new South Africa of an alternative vision of constitutional law that takes account of international human rights instruments in moving towards rendering social and economic rights justifiable **The Policy Analyst's Handbook** Lewis G.

Irwin,2015-02-12 This rigorous but very accessible guide to the main concepts and techniques of policy analysis is intended for students and in service professionals who want to become more efficient and effective in their work The book equips readers with a structured and disciplined step by step approach to decision making defining issues and applying the powerful techniques of policy analysis always in the context of uncertainty and limited discretion Each chapter concludes with notes and a list of supplementary sources for further reading **Evaluating Urban and Regional Plans** Mark

Seasons,2021-03-01 Effective practitioners in any field understand that lessons from the past underlie successes in the future Which practices have worked before and which haven't What went wrong and what does that teach us Too often however urban and regional planners simply don't know whether or how well planning policies were carried out *Evaluating Urban and Regional Plans* blends theory and practice to delineate the questions that planners need to ask as they shape the future of Canadian communities Mark Seasons offers a wealth of pragmatic guidance on comprehensive plan evaluation processes and methods Monitoring the outputs and outcomes generated by a plan and gauging their impact ensures that the planning function remains relevant and that resources are used effectively efficiently and equitably As both a primer on plan evaluation practice and an original contribution to theory *Evaluating Urban and Regional Plans* is an invaluable resource not only for the Canadian planning community but for planners everywhere *Handbook of Quality-of-Life Research* M. Joseph

Sirgy,2013-04-18 This handbook provides students of quality of life QOL research with an understanding of how QOL research can be conducted from an ethical marketing perspective a perspective based on positive social change The handbook covers theoretical philosophical and measurement issues in QOL research The handbook also approaches selected QOL studies in relation to various populations in various life domains The marketing approach is highly pragmatic because it allows social and behavioral scientists from any discipline to apply marketing concepts to plan social change and assess the impact of intervention strategies on the QOL of targeted populations *Fostering Accountability* Mark F. Testa,John Poertner,2010-02-08 *Fostering Accountability* presents a model of child welfare decision making that holds public officials answerable for the integrity and validity of the actions they take on behalf of the children and families in their care It

operationalizes the concept of results oriented accountability which demands that administrators and practitioners show valid evidence of their success in improving child and family outcomes not merely demonstrate mechanical procedural compliance Drawing on the experiences of directors staff and evaluators this timely and practical book describes the emergence of results oriented accountability in child welfare with a special focus on the editors role in establishing a university agency research partnership under a federal consent decree Chapters elaborate on the five successive stages of the results oriented accountability framework outcomes monitoring data analysis research review evaluation and quality improvement and provide examples of applications of each stage for agency managers By refocusing the emphasis on developing policies based on agency data instead of purely reactive approaches that grasp at solutions and often fall short *Fostering Accountability* guides administrators in monitoring outcomes using evidence to select interventions to enhance results and applying management strategies to evaluate and improve these efforts The result is a pragmatic implementation guide for administrators seeking to bring safety stability continuity permanence and well being to the lives of abused and neglected children in the United States

Policy Analysis David L. Weimer, Aidan R. Vining, 2015-07-02 Updated in a new 5th edition this book lays a strong conceptual foundation to understanding the rationales of and limitations to public policy It gives practical advice about how to do policy analysis while demonstrating the application of advanced analytical techniques through case study examples *Policy Analysis Concepts and Practices* is a comprehensive accessible and rich introduction to policy analysis for readers in public policy public administration and business programs

Measuring Quality: Education Indicators Kathryn A. Riley, Desmond L. Nuttall, 2017-09-29 Moves to develop indicators about school effectiveness and performance have been driven by national trends and debates about performance and accountability Nationally set indicators such as the standard assessment tasks or the publication of performance in public examinations have increasingly become part of the new education currency a medium for exercising choice and decision making in the new education market place As contributors to this book suggest such a framework is not unproblematic Originally published in 1994 this book offers a number of insights into the general debate about performance indicators at the time It explores the background to the debate the differing perspectives of policy makers and practitioners and the purpose audiences and values of education indicators both in the UK and elsewhere

The Boomerang Age Barbara Mitchell, 2017-07-05 *The Boomerang Age* was named an Outstanding Academic Title of

2007 by Choice Magazine Domestic changes are taking place in the lives of young adults in Western industrialized societies Today s young people often experience less permanency and more movement in a variety of family related roles statuses and living arrangements Among the most prominent changes is the phenomenon of boomerang kids young adults returning to the parental home after their initial entrance into the adult world The Boomerang Age explores the implications of this development in a changing sociocultural economic and demographic landscape Mitchell begins by addressing definitional conceptual and measurement issues relevant to the boomerang age She then places the issues in historical perspective by considering trends in family organization the nuclear family marriage and divorce rates and fertility over the past hundred years with emphasis on the 1950s family as a cultural benchmark The book then turns to the contemporary trajectory of home leaving and returning analyzing the launch and return phases with regard to economic factors regional differences and racial and ethnic backgrounds Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership marriage divorce cohabitation homosexuality and parenthood among young couples Moving outside the home she looks at how public issues such as globalization the decline of the welfare state and various forms of social inequality affect the circumstances of young adulthood Here Mitchell offers specific social policy recommendations pertaining to education housing and dependency issues childcare and gender and racial equality The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios increased individualization in the pursuit of social g

Sociology and Its Publics Terence C. Halliday, Morris Janowitz, 1992-10-15 Sociology faces troubling developments as it enters its second century in the United States A loss of theoretical coherence and a sense of disciplinary fragmentation a decline in the quality of its recruits the cooptation of its clients a muted public voice and sinking prestige in governmental circles these are only a few of the trends signalling a need for renewed debate about how sociology is organized In this volume some of the most authoritative voices in the field confront these conditions offering a variety of perspectives as they challenge sociologists to self examination
