**The Polish Economic Crisis** Batara Simatupang,1993-11-11 In order to understand the dramatic events of 1989 it is necessary to examine the circumstances leading up to them The Polish Economic Crisis examines the primary factor The author analyses how the severe recession of the late 1970s and early 1980s intensified the need for economic reform and resulted in the economic slump of the 1980s Batara Si

**Poland's New Capitalism** Jane Hardy,2009-07-20 This book explores the way that neoliberal policies have formed the basis of political transformation in Poland championed by both post communist and post Solidarity governments Poland was central to the historic changes that took place across Eastern Europe at the end of the Cold War It is the largest economy in the region and was at the forefront of opposition to communism Since then neoliberal policies have controlled the country This book assesses the impact of these policies the role of capital in the form of transnational corporations and foreign direct investment The revival of trade unions and growth of new social movements are also explored as they challenge Poland s new capitalism

*Transitions and Non-Transitions from Communism* Steven Saxonberg,2013-02-14 Since the fall of the Berlin Wall many scholars have sought to explain the collapse of communism Yet more than two decades on communist regimes continue to rule in a diverse set of countries including China Cuba North Korea and Vietnam In a unique study of fourteen countries Steven Saxonberg explores the reasons for the survival of some communist regimes while others fell He also shows why the process of collapse differed among communist led regimes in Europe Africa and Latin America Based on the analysis of the different processes of collapse that has already taken place and taking into account the special characteristics of the remaining communist regimes *Transitions and Non Transitions from Communism* discusses the future prospects for the survival of the regimes in China Cuba North Korea and Vietnam

**The American Bibliography of Slavic and East European Studies for 1994** Patt Leonard,Rebecca Routh,1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs

Poland and European East-West Cooperation in the 1970s Aleksandra Komornicka,2023-09-20 This book offers an international reading of the Polish socialist regime s history in the 1970s and its opening up to the West It bridges Poland s socialist domestic history with critical developments of the global and European 1970s including d tente in the Cold War western European

integration and globalisation In this period of international transformations socialist Poland under Edward Gierek's leadership multiplied its economic and political contacts with capitalist countries especially western Europe and became a leader of East West cooperation among Council for Mutual Economic Assistance and Warsaw Pact members Relying on sources from public and corporate archives in five different European states the book demonstrates both that the global political and economic transformations of that period were critical for the decision making process in Poland and moreover that the national socialist elites participated in shaping these transformations By looking at the goals and expectations of the Polish socialist elites and their practices of political and economic exchanges with western Europe the book explains the logic which drove the socialist regime into entanglement with the West As is shown here this entanglement proved inextricable and critical for the socialist regime's failure and Poland's political and economic future This book will be of much interest to students of European history cold war studies socialism studies and International Relations *The Fall* Steven

Saxonberg, 2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USA The Fall examines one of the twentieth century's great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes *Transitions to Democracy* Kathryn Stoner, Michael McFaul, 2013-04-15 Fifteen case studies by scholars and practitioners demonstrate the synergy between domestic and international influences that can precipitate democratic transitions As demonstrated by current events in Tunisia and Egypt oppressive regimes are rarely immune to their citizens' desire for democratic government Of course desire is always tempered by reality therefore how democratic demands are made manifest is a critical source of study for both political scientists and foreign policy makers What issues and consequences surround the fall of a government what type of regime replaces it and to what extent are these efforts successful Kathryn Stoner and Michael McFaul have created an accessible book of fifteen case studies from around the world that will help students understand these complex issues Their model builds upon Guillermo O'Donnell Philippe C. Schmitter and Laurence Whitehead's classic work *Transitions from Authoritarian Rule* using a rubric of four identifying factors that can be applied to each case study making comparison relatively easy *Transitions to Democracy* yields strong comparisons and insights For instance the study reveals that efforts led by the elite and involving the military are generally unsuccessful whereas mass mobilization civic groups and new media have become significant factors in supporting and sustaining democratic actors This collection of writings by scholars and practitioners is organized into three parts successful transitions incremental transitions and failed transitions Extensive primary research and a rubric that can be applied to burgeoning democracies offer readers valuable tools and information *The Cambridge History of Communism: Volume 3, Endgames? Late Communism in Global Perspective, 1968 to the Present* Juliane

Fürst, Silvio Pons, Mark Selden, 2017-09-21 The third volume of The Cambridge History of Communism spans the period from the 1960s to the present documenting the last two decades of the global Cold War and the collapse of Soviet socialism An international team of scholars analyze the rise of China as a global power continuing to proclaim its Maoist allegiance and the transformation of the geopolitics and political economy of Cold War conflict in an era of increasing economic interpenetration Beneath the surface profound political social economic and cultural changes were occurring in the socialist and former socialist countries resulting in the collapse and transformations of the existing socialist order and the changing parameters of world Marxism This volume draws on innovative research to bring together history from above and below including social cultural gender and transnational history to transcend the old separation between Communist studies and the broader field of contemporary history *Institutions, Human Development and Economic Growth in Transition*

Tridico, 2011-07-19 This book analyses the development path of transition economies in European Countries and former Soviet Republics that have experienced the transformation from planned economies to market economies since the fall of the Berlin wall in 1989 It examines economic growth institutional change and human development performance

Presidency in the Age of Political Spectacle takes a multi disciplinary approach to analyze the Clinton impeachment from political perspectives across the spectrum The authors attempt to tease out the meanings of the scandal from the vantage point of law religion public opinion and politics both public and personal Further the impeachment itself is situated broadly within the contemporary American liberal state and mined for the contradictory possibilities for reconciliation it reveals in our culture Contributors David T Canon John Cooper Drucilla Cornell Jean Bethke Elshtain Robert W Gordon Lawrence Joseph Leonard V Kaplan David Kennedy Kenneth R Mayer Beverly I Moran Father Richard John Neuhaus David Novak Linda Denise Oakley Elizabeth Rapaport Lawrence Rosen Eric Rothstein Aviam Soifer Lawrence M Solan Cass R Sunstein Stephen Toulmin Leon Trakman Frank Tuerkheimer Mark V Tushnet Andrew D Weiner Robin L West

**The Effects of the Eurozone Sovereign Debt Crisis** Christian Schweiger, Jose Magone, 2017-10-02 The book analyses the emerging centre periphery divisions within the European Union which result from the unprecedented conditions created by the 2008 09 global financial crisis and the subsequent Eurozone sovereign debt crisis The multiple layers of policy coordination which emerged in response to the crisis have initiated a process by which the EU is increasingly divided in terms of the level of vertical integration between the Eurozone core group and differentiated peripheries amongst the outsiders At the same time the sovereign debt crisis has created a periphery of predominantly Southern European countries within the Eurozone that became dependent on external financial support from the other member states The contributions in this book critically examine various aspects of the emerging internal post crisis constellation of the EU The main focus lies on national and supranational governance issues national dynamics and dynamics in the Eurozone core as well as in the periphery This book was originally published as a special issue of Perspectives on European Politics and Society
