Cultural Heritage of East Central Europe Wojciech Roszkowski, 2015-01-02 The concept of culture is a relatively modern invention It stems from the Latin term *cultura* meaning cultivation Cicero was the first to use this word in a non agricultural context In his *Tusculanae Disputationes* he reflected on the cultivation of the soul *cultura animi* Later this term was rarely used in this sense but as of the 17th century more and more authors considered culture an intellectual and not an agricultural phenomenon Samuel Pufendorf 1632 1694 described culture as a vehicle overcoming natural barbarism He was followed by German philosophers of culture Johann Gottfried Herder 1744 1803 argued that human creativity was as important as human rationality and called attention to national cultures The works of German romantic philosophers were mainly focused on the specificity of the German culture a factor that was to unite divided German statehoods At the same time however Herder and his followers noticed other national cultures including first of all those of East and Central Europe It is therefore noteworthy that the early philosophical reflection on culture was closely connected with the specific traditions of East and Central Europeans

and music making and how they navigate a regional mountain defined identity while participating in global music culture Vivid descriptions of musical performances at weddings funerals and festivals and the collaboration of G rale fiddlers with the Jamaican reggae group Twinkle Brothers are framed by discussions of currently influential theories relating to identity and ethnicity and to anthropological and sociological studies of ritual tourism festivals globalism and globalization The book includes a 46 track CD illustrating the rich variety of G rale music including examples of its fusion with Jamaican reggae
