Poland Patrice M. Dabrowski, 2014-10-01 Since its beginnings Poland has been a moving target geographically as well as demographically and the very definition of who is a Pole has been in flux In the late medieval and early modern periods the country grew to be the largest in continental Europe only to be later wiped off the map for more than a century The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi Soviet occupation that began with World War II The postwar entity known as Poland was shaped and controlled by the Soviet Union

Yet even under these constraints Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that Poland is a sweeping account designed to amplify major figures moments milestones and turning points in Polish history These include important battles and illustrious individuals alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland s demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke Patrice Dabrowski s work situates Poland and the Poles within a broader European framework that locates this multiethnic and multid denominational region squarely between East and West This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland s longstanding republican experiment *The Great Events by Famous Historians* Charles Francis Horne, Rossiter Johnson, 1905 **Our**

Polish Cities of Migration Anne White, 2024-11-18 Polish Cities of Migration analyses how Poland is transitioning to a new identity as a country of immigration although its country of emigration identity remains strong outside a handful of bigger cities The book explores two interconnected puzzles how Poland s migration transition is influenced by the fact that it is simultaneously a country of emigration and why migrants are spreading out beyond the metropolises often settling with their families in smaller cities with limited labour markets cities from which Poles themselves continue to migrate It argues that migrants feeling of comfort in such locations can be explained mostly by network and lifestyle considerations These link to impressions that local Poles who used to be migrants themselves and or have family and friends abroad possess pragmatic and accepting attitudes towards migration particularly from Ukraine The book is based on in depth interviews with 37 Polish return migrants 70 Ukrainians and 17 other foreigners living in Kalisz Pock and Pi a Key concepts include migration culture livelihood strategies and place attachment The analysis is situated within a wide range of existing secondary literature and contributes towards understanding the impact of migration on Poland Ukrainian labour migration and wider global migration processes in the twenty first century Praise for Polish Cities of Migration A nuanced portrait of a Central European country in an era of fundamental socio cultural transformations brought about by migration A valuable and original contribution to the field of European migration research based on impressive empirical material Katarzyna Andrejuk Polish Academy of Sciences
