Less than Nations Giuseppe Motta, 2014-03-25 Less than Nations Central Eastern European Minorities after WWI represents the result of research that the author has carried over recent years and was facilitated by the 2008 PRIN project Programmi di Ricerca di Rilevante Interesse Nazionale and the 2010 Sapienza Research funds The book analyses the conditions of national minorities after World War I when the geo political map of Central Eastern Europe was redefined by international diplomacy The new settlements were based on the principle of national self determination and were conditioned by the geographic reality of Central Eastern Europe where states and nations rarely coincided As a consequence the minority question emerged as one of the most troublesome issues during the interwar period and affected international relations and the internal conditions of many states The minority question was discussed by historiography and by international observers and became an integral part of the system which was centred around the League of Nations This work begins with the study of the relationships between the states and their minorities and of the international dimension of this question which animated the fight between revisionist and anti revisionist states The documents of the Italian Army's General Staff and of the League of Nations represent the main historical sources of this book which carries out a complete study of the difficult situation of 1918 1920 when the new states annexed many contested regions within their frontiers and of the numerous controversies concerning the application of international treaties and national regulations in relation to the protection of minorities The second volume of the book analyses some special aspects of this question and focuses on the interpretation of some particular cases which had an outstanding role in the definition of the international framework The massacres of the Armenians in the Ottoman Empire and of the Jews in Eastern Europe for example alarmed the international community and contributed to the 1919 emergency of minority rights The role of Kin States such as Germany and Hungary instead characterized the entire interwar period and conditioned the stability of Europe and the League of Nations Finally special cases like those of Slovakia and Bosnia are also helpful in understanding the ideas of nation and minority and how conceptualisations of the latter have changed throughout the last century

The Lost German East Andrew Demshuk, 2012-04-30 A fifth of West Germany's post 1945 population consisted of ethnic German refugees expelled from

Eastern Europe a quarter of whom came from Silesia As the richest territory lost inside Germany s interwar borders Silesia was a leading objective for territorial revisionists many of whom were themselves expellees The Lost German East examines how and why millions of Silesian expellees came to terms with the loss of their homeland Applying theories of memory and nostalgia as well as recent studies on ethnic cleansing Andrew Demshuk shows how over time most expellees came to recognize that the idealized world they mourned no longer existed Revising the traditional view that most of those expelled sought a restoration of prewar borders so they could return to the east Demshuk offers a new answer to the question of why after decades of violent upheaval peace and stability took root in West Germany during the tense early years of the Cold War

The Polish Wild West Beata Halicka,2020-05-12 The incorporation of German territories east of the Oder and Western Neisse rivers into Poland in 1945 was linked with the difficult process of an almost total exchange of population and involved the taking over of a region in which the Second World War had effected an enormous level of destruction The contemporary term Polish Wild West not only alluded to the reigning atmosphere of chaos and survival of the fittest in the Polish German borderland but was also associated with a new kind of freedom and the opportunity to start everything anew The arrival in this region of Polish settlers from different parts of Poland led to Poles Germans and Soviet soldiers temporarily coming into contact with one another Living together in this war damaged space was far from easy On the basis of ego documents the author recreates the beginnings of the shaping of this new society one affected by a repressive political system internal conflicts and human tragedy In distancing oneself from the until recently dominant narratives concerning expellees in Germany or pioneers of the Recovered Territories in Poland Beata Halicka tells the story of the disintegration of a previous cultural landscape and the establishment of one which was new in a colourful and vivid manner and encompassing different points of view The Proverbial Winston S.
