Polish Romantic Literature Michael J. Mikoś, 2002 *The Oxford Handbook of European Romanticism* Paul Hamilton, 2016-01-14

The Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism

Polish, Hybrid, and Otherwise George Z. Gasyna, 2011-05-05 Polish Hybrid and Otherwise examines the triple compact made by displaced authors with language their host country and the homeland left behind It considers the entwined phenomena of expatriation and homelessness and the artistic responses to these conditions including reconstructions of identity and the creation of idealized new homelands Conrad and Gombrowicz writers who lived with the condition of exile were in the vanguard of what today has become a thriving intellectual community of transnationals whose calling card is precisely their hybridity and fluency in multiple cultural traditions Conrad and Gombrowicz's Polish childhoods emerge as cultural touchstones against

which they formulated their writing philosophies Gasyna claims that in both cases negotiating exile involved processes of working through a traumatic past through the construction of narrative personae that served as strategic doubles Both authors engaged in extensive manipulation of their public image Above all Conrad and Gombrowicz's narratives are united by a desire for a linguistic refuge a proposed home in language and a set of techniques deployed in the representation of their predicament as subjects caught in between Queer Transgressions in Twentieth-Century Polish Fiction Jack J. B.

Hutchens,2020-07-22 Throughout the twentieth century in Poland various ideologies attempted to keep queer voices silent whether those ideologies were fascist communist Catholic or neo liberal Despite these pressures there existed a vibrant transgressive trend within Polish literature that subverted such silencing This book provides in depth textual analyses of several of those texts covering nearly every decade of the last century and includes authors such as Witold Gombrowicz Marian Pankowski and Olga Tokarczuk winner of the 2018 Nobel Prize in Literature Jack J B Hutchens demonstrates the subversive power of each work showing that through their transgressions they help to undermine nationalist and homophobic ideologies that are still at play in Poland today Hutchens argues that the transgressive reading of Polish literature can challenge the many binaries on which conservative heteronormative ideology depends in order to maintain its cultural hegemony

Przekładaniec, 2 (2010) vol 24 - English Version , Taking Liberties Halina Filipowicz,2015-01-01 As narrow nationalist views of patriotic allegiance have become widespread and are routinely invoked to justify everything from flag waving triumphalism to xenophobic bigotry the concept of a nonnationalist patriotism has vanished from public conversation Taking Liberties is a study of what may be called patriotism without borders a nonnational form of loyalty compatible with the universal principles and practices of democracy and human rights respectful of ethnic and cultural diversity and overall open minded and inclusive Moving beyond a traditional study of Polish dramatic literature Halina Filipowicz turns to the plays themselves and to archival materials ranging from parliamentary speeches to polemical pamphlets and verse broadsides to explore the cultural phenomenon of transgressive patriotism and its implications for society in the twenty first century In addition to recovering lost or forgotten materials the author builds an innovative conceptual and methodological framework to make sense of those materials The result is not only a significant contribution to the debate over the meaning and practice of patriotism but a masterful intellectual history **The Post-traumatic**

Theatre of Grotowski and Kantor Magda Romanska,2014-10-01 Despite its international influence Polish theatre remains a mystery to many Westerners This volume attempts to fill in current gaps in English language scholarship by offering a historical and critical analysis of two of the most influential works of Polish theatre Jerzy Grotowski's Akropolis and Tadeusz Kantor's Dead Class By examining each director's representation of Auschwitz this study provides a new understanding of how translating national trauma through the prism of performance can alter and deflect the meaning and reception of theatrical works both inside and outside of their cultural and historical contexts **The History of Polish Literature,**

European Romanticism Stephen Prickett,2014-04-14 Romanticism was always culturally diverse Though English language anthologies have previously tended to see Romanticism as predominantly British the term itself actually originated in Germany where it became the banner of a Europe wide movement involving the profound intellectual and aesthetic changes which we now associate with modernity This anthology is the first to place British Romanticism within a comprehensive and multi lingual European context showing how ideas and writers interconnected across national and linguistic boundaries By reprinting everything in the original languages together with an English translation of all non English material in parallel on the opposite page it offers a new intellectual map of Romanticism Material is thematically arranged as follows Art Aesthetics The Self History Language Hermeneutics Theology Nature The Exotic Science While focusing on European texts the inclusion of essays on their North American and Japanese reception means that Romanticism can be seen as a global phenomenon influencing a surprising number of the ways in which the modern world sees itself

(Re)Visions of History in Language and Fiction Dorota Gutfeld,Monika Linke,Agnieszka Sowińska,2013-02-21 In imagining history one must inevitably rely on its textual representations whether fictitious or supposedly objective yet always subject to the constraints and conventions of textuality Still it is precisely by exploiting and consciously relying on the textual in the presentation of the past that contemporary authors including politicians and makers of history strive to provide it with current significance emotional impact and universal meaning The study of such attempts benefits from a variety of perspectives encompassing not only classical but also popular texts and media An interdisciplinary collection of papers devoted to the issues of retelling rewriting and representation of the past in fiction and various text types

this volume juxtaposes modern and post modern understanding of collective versus personal history The contributors are scholars specializing in literary studies e g postcolonialism and popular fiction linguistics e g critical discourse analysis and cultural studies e g media studies bringing a wide spectrum of theoretical insights into the field The collection opens with papers on the general changes in viewing history that have occurred since the 19th century Further papers discuss postcolonial feminist and gender related perspectives on history reflected in postmodern fiction revealing the power struggle around the depiction of the past The next part of the volume is devoted to the presentation of historical breakthroughs in political and media discourse Finally the collection draws attention to some unorthodox visions of history involving alternative worlds and fantastic elements encountered in the genre of speculative fiction

Philosophy in Science Michael Heller, 2011-03-19 The traditional topics of the philosophy of nature space time causality the structure of the universe are overwhelmingly present in our modern scientific theories This book traces the complex paths that discussion of these topics has followed from Plato and Aristotle through Descartes Leibniz Kant and other great thinkers right up to the relativistic cosmologies and the grand unified theories of contemporary science In the light of this historical development it becomes clear that modern science gives us not only a technological power over the world but also a deeper understanding of physical reality In this sense science could be regarded as an heir to the traditional philosophy of nature Moreover the reader will learn why science itself deserves to be the subject of philosophical reflection
