A Manifesto on the Constitution, Social Contract, and Certain Inalienable Rights Iras DuBard, MSW, 2011-02-01 Our founding fathers rebelled against England because the American Colonies were not being represented While at the same time they enslaved a whole race of people Our Constitution guarantees us the right to pursue our happiness but it does not guarantee us the right to obtain our happiness All of the social ills and terrorism that have taken place in America can be traced back to parenting or the lack thereof *Democratic Theory and Practice in Africa* W. O. Oyugi, 1995

Consuming Schools Trevor Norris, 2011-01-01 The increasing prevalence of consumerism in contemporary society often equates happiness with the acquisition of material objects Consuming Schools describes the impact of consumerism on politics and education and charts the increasing presence of commercialism in the educational sphere through an examination of issues such as school business partnerships advertising in schools and corporate sponsored curriculum First linking the origins of consumerism to important political and philosophical thinkers Trevor Norris goes on to closely examine the distinction between the public and the private sphere through the lens of twentieth century intellectuals Hannah Arendt and Jean Baudrillard Through Arendt's account of the human activities of labour work and action and the ensuing eclipse of the public realm and Baudrillard's consideration of the visual character of consumerism Norris examines how school commercialism has been critically engaged by in class activities such as media literacy programs and educational policies regulating school business partnerships

Neo-Stoicism and Skepticism in Part One of Don Quijote Daniel Lorca, 2016-07-15 This book explains how Cervantes took advantage of neo stoicism and skepticism to remove the authority of the Romances of Chivalry which was a popular genre during his time It also explains why his strategy which would have been instantly recognizable during the period is no longer effective our current moral systems are significantly different from the moral systems that were influential during Cervantes time and consequently what used to be self evident is no longer the case Therefore this book may be useful to the literary critic interested in the philosophical foundations of Don Quijote to the moral philosopher interested in the differences between pre enlightenment virtue ethics and current moral systems and also in the field of the history of ideas Don Quijote offers a unique opportunity to observe changes in moral thinking throughout time because it is a universal book discussed extensively throughout the centuries and therefore the on going discussion offers strong evidence to discover how morality has changed and continues to change through time

Jules Steinberg, 1988 This book is organized around the claim that if we wish to have a coherent and accurate understanding of the meaning of the political philosophy of Thomas Hobbes we must reject the truth of the conventional scholarly assertion that Hobbes did not write about the English Civil War Professor Steinberg argues that Hobbes writes as a traditional political philosopher engaged in developing a polemical attack intended to ridicule and condemn the ideological doctrines of the men who caused the English Civil War The author explains how the meaning of Hobbes's political writings emerges in connection with the manner in which Hobbes writes about the major issues associated directly with the English Civil War
