Max Weber Alan Sica, The most profound and enduring social theorist of sociology's classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In *Max Weber and the New Century* Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern *Max Weber A Comprehensive Bibliography* is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought Sica's work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber's works in English translation The second lists reviews of Weber's major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history Alan Sica is professor of sociology and director of the Social Thought Program at Pennsylvania State University

Genealogy as Critique Colin Koopman, 2013

Shows that philosophical genealogy involves not only the critique of modernity but also its transformation **The Idea of Governance and the Spirit of Chinese Neoliberalism** Quan Li, 2017-07-19 This book offers a critical assessment of governance ideas in the context of Chinese neoliberalism It argues that the Chinese version of governance has emerged as an important discursive practice in the articulation of the neoliberal spirit of the national reform agenda The book first examines the institutional and intellectual background of governance ideas capturing the key features of neoliberalization in transitional China The main body of investigation is an interpretive analysis of governance in terms of its normative principles and technical skills which effectively package the mature neoliberal vision and reality so that it indicates the dominant ruling structure of Chinese neoliberalism The subsequent analysis presents a genealogical review of governance discourse and traces its adaptation to local neoliberal experiments The book concludes with reflections on possible ways of critical engagement with governance ideas and with the intellectual aspects of neoliberalism **Social Theory in the Real World** Steven Miles, 2001-05-18 Social Theory in the Real World is concerned with illustrating the practical benefits of social theory Many students find it hard to relate the real insights provided by social theory to their real life experiences and many lecturers struggle to demonstrate the relevance of social theory to everyday life This book offers an accessible non patronizing solution to the problem demonstrating that social theory need not be remote and obscure but if used in imaginative ways it can be indispensable in challenging our common sense perceptions and understandings The book identifies the key themes of contemporary social theory mass society postindustrialism consumerism postmodernism McDonaldization risk and global *Reflexivity And The Crisis of Western Reason* Barry Sandywell, 2013-06-17 This groundbreaking work explores the genealogical analysis of the discourses of reflection Barry Sandywell traces the differences between the traditional discourses of reflection and the experiences of reflexivity in everyday social and philosophical thought Brilliantly organised and abounding with astonishing insights Reflexivity and the Crisis of Western Reason offers a fundamental challenge to our normal ways of viewing social thought **Crime, Enlightenment, and Punishment** Stephan Sander-Faes, 2025-05-01 This book studies the social consequences of bureaucratic and scientific change during the transition to modern states and societies in the Age of Enlightenment as it explores how the Habsburg Empire deployed new ways and means to integrate existing structures into supra regional systems of order Exemplarily focused on Lower Austria the book ties together the bustling imperial capital of Vienna and its hinterlands where there was little economic political and social change before 1850 Previously unused archival materials such as administrative paperwork and printed wanted notes in combination with published educational and legal texts allow for the analysis of how bureaucratic procedures social norms and scientific change contributed to increasing exchange between Vienna regional hubs such as Krems and Zwettl and individual seigneurial holdings Conceiving of these dynamics as a patchwork in progress this study investigates state making dynamics by transposing centralising norms and practices into everyday administration It looks carefully at the intersections

of local central authority offering a way beyond binary centre periphery assumptions This volume will be of interest to scholars of the history of state making in and beyond Europe Its up to date discussion of the pertinent historiography will also be useful for undergraduate and graduate students and teachers of comparative politics

Critical Perspectives on Colonialism Fiona Paisley, Kirsty Reid, 2013-11-20 This collection brings much needed focus to the vibrancy and vitality of minority and marginal writing about empire and to their implications as expressions of embodied contact between imperial power and those negotiating its consequences from below The chapters explore how less powerful and less privileged actors in metropolitan and colonial societies within the British Empire have made use of the written word and of the power of speech public performance and street politics This book breaks new ground by combining work about marginalized figures from within Britain as well as counterparts in the colonies ranging from published sources such as indigenous newspapers to ordinary and everyday writings including diaries letters petitions ballads suicide notes and more Each chapter engages with the methodological implications of working with everyday scribbles and asks what these alternate modernities and histories mean for the larger critique of the imperial archive that has shaped much of the most interesting writing on empire in the past decade

Classical Social Theory and Modern Society Edward Royce, 2015-01-22 Karl Marx mile Durkheim and Max Weber are indispensable for understanding the sociological enterprise They are among the chief founders of the discipline and among the foremost theorists of modernity and their work can stimulate readers to reflect on their own identities and worldviews Classical Social Theory and Modern Society introduces students to these three thinkers and shows their continued relevance today The first chapter sets the stage by situating the work of Marx Durkheim and Weber in the context of three modernizing revolutions the Enlightenment the French Revolution of 1789 and the Industrial Revolution Three overview chapters follow that summarize the key ideas of each thinker focusing on their contributions to the development of sociology and their conceptions of modern society The last portion of the book explores the thinking of Marx Durkheim and Weber on four themes the pathologies of modern society the predicament of the modern individual the state and democracy and socialism versus capitalism These thematic chapters place Marx Durkheim and Weber in dialogue with one another offering students the opportunity to wrestle with conflicting ideas on issues that are still significant today Classical sociology is essential to the teaching of sociology and also an invaluable tool in the education of citizens

Visions of Paradise Robert Stephen Haskett, 2005 Cuernavaca often called the Mexican Paradise or Land of Eternal Spring has a deep rich history Few visitors to this modern resort city near Mexico City would guess from its Spanish architecture and landmarks that it was governed by its Tlaluic residents until the early nineteenth century Formerly called Cuauhnahuac the city was renamed by the Spanish in the sixteenth century when Hernando Cort s built his stone palacio on its main square and thrust Cuernavaca into the colonial age In Visions of Paradise Robert Haskett presents a history of Cuernavaca basing his account on an important body of late seventeenth century historical records known as primordial titles written by

still unknown members of the Native population Until comparatively recently these indigenous language documents have been dismissed as false or forged land records Haskett however uses these Nahuatl texts to present a colorful portrait of how the Tlaluicas of Cuernavaca and its environs made intellectual sense of their place in the colonial scheme conceived of their relationship to the sacred worlds of both their native religion and Christianity and defined their own history Surveying the local history of Cuernavaca from precontact observations by the Aztecs through postclassic times to the present with a concentration on early colonial times Haskett finds that the Native authors of the primordial titles crafted a celebratory history proclaiming themselves to be an enduringly autonomous essentially unconquered people who triumphed over the rigors of the Spanish colonial system

The Reconstruction of the Juridico-Political Ian Bryan, Peter Langford, John McGarry, 2015-12-22 Hans Kelsen and Max Weber are conventionally understood as the original proponents of two distinct and opposed processes of concept formation generating two separate and contrasting theoretical frameworks for the study of law The Reconstruction of the Juridico Political Affinity and Divergence in Hans Kelsen and Max Weber contests the conventional understanding of the theoretical relationship between Kelsen's legal positivism and Weber's sociology of law Utilising the conceptual frame of the juridico political the contributors to this interdisciplinary volume analyse central points of affinity and divergence in the work of these two influential figures Thus the chapters collected in The Reconstruction of the Juridico Political offer a comprehensive reconsideration of these affinities and divergences through a comparison of their respective reconstruction of the notions of democracy the State legal rights and the character of law From this reconsideration a more complex understanding of their theoretical relationship emerges combined with a renewed emphasis upon the continued contemporary relevance of the work of Kelsen and Weber

Dialogue as a Trans-disciplinary Concept Paul Mendes-Flohr, 2015-06-16 This volume of essays constitutes a critical evaluation of Martin Buber's concept of dialogue as a trans disciplinary hermeneutic method So conceived dialogue has two distinct but ultimately convergent vectors The first is directed to the subject of one's investigation one is to listen to the voice of the Other and to suspend all predetermined categories and notions that one may have of the Other dialogue is first and foremost the art of unmediated listening One must allow the voice of the Other to question one's pre established positions fortified by professional emotional intellectual and ideological commitments Dialogue is also to be conducted between various disciplinary perspectives despite the regnant tendency to academic specialization In recent decades an increasing number of scholars have come to share Buber's position to foster cross disciplinary conversation if but to garner as Max Weber argued useful questions upon which he would not so easily hit upon from his own specialized point of view Accordingly the objective of this volume is to explore the reception of Buber's philosophy of dialogue in some of the disciplines that fell within the purview of his own writings Anthropology Hasidism Religious Studies Psychology and Psychiatry
