

AN ECONOMIC INTERPRETATION OF THE CONSTITUTION OF THE UNITED STATES

Charles A. Beard

With a new introduction by Louis Filler

In his piercing introduction to *An Economic Interpretation* the author wrote that "whenever human economic pressures cut of history or cut of discussion of public questions is in mortal peril of substituting mythology for reality." It was Beard's view that the founding fathers, especially Madison, Jay, and Hamilton, never made such a misstatement. Indeed, these statements placed themselves among the great practitioners of all ages and gave instructions to succeeding generations in the art of government by their vigorous deployment of classical political economy.

330 pages 1986 ISBN: 0-7656-0457-3 (paper)

WE THE PEOPLE

The Economic Origins of the Constitution

Forrest McDonald

With a new introduction by the author and
a foreword by Russell Kirk

Charles A. Beard's *An Economic Interpretation of the United States Constitution* was a work of such powerful persuasiveness as to alter the course of American historiography. No historian who followed in studying the making of the Constitution was entirely free from Beard's radical interpretation of the document as serving the economic interests of the Propertied as members of the propertied class. Forrest McDonald's *We the People* was the first major challenge to Beard's thesis. This expertly researched and documented volume restored the Constitution as the work of principled and prudent men. It did much to revitalize the crude economic determinism that had become endemic to the writing of American history.

400 pages 1991 ISBN: 1-56000-574-2 (paper)

PROGRESSIVE DEMOCRACY

Herbert Croly

With a new introduction by Louis Filler

In *Progressive Democracy*, Herbert Croly explains the requirements for a genuinely popular system of representative government. He provides progressive liberalism with both a philosophical critique of the founding fathers' political outlook, and a political strategy for replacing it with something new in keeping with a new epoch. Although written in 1914, the intellectual structure of *Progressive Democracy* remains largely intact within the liberal-progressive tradition. It represents the continuation of Croly's pioneering work begun with *The Promise of American Life*.

434 pages 1996 ISBN: 1-56000-905-2 (paper)

Political And Social Thought Of Charles A Beard

Steven Hurst

Political And Social Thought Of Charles A Beard:

The Political and Social Thought of Charles A. Beard Bernard C. Borning, 1984 **More than a Historian** Clyde Barrow, 2018-04-17 Charles A Beard 1874 1948 was one of America's most influential historians and political scientists. He played a major role in founding the disciplines of history and political science, helped shape the teaching of social studies in the nation's public schools, and was one of the nation's most popular public intellectuals. Yet in the second half of the twentieth century, Beard's reputation has been eroded by relentless criticism. Clyde W Barrow argues that Beard's work has renewed relevance in light of recent theoretical debates about the new institutionalism, the crisis of the welfare state, and American foreign policy messianism. Barrow takes Beard seriously as a political theorist while challenging many misconceptions. For example, Beard's method of economic interpretation has been dismissed as Marxist, but Barrow carefully reconstructs the sources of Beard's thinking to demonstrate that his method owes more to historical and institutional economics and that his concept of state-society relations was in fact derived from Madison's Tenth Federalist. Barrow reconstructs Beard's theory of American political development using his concept of realistic dialectics, which viewed the clash between democracy, Jeffersonianism, and capitalism, Hamiltonianism as the engine of American political development. During the 1930s, Beard suggested that the United States was making the transition to a higher form of social and industrial democracy that would supersede the contradiction of American political development. Notably, Beard was a critic of the New Deal and the liberal welfare state because they failed to reconstruct the economic relations that reproduce inequalities of income, status, and power. Beard went on to voice his concern that at crucial junctures in American history, class struggle is diverted into international conflicts as popular leaders back down from a direct confrontation with the dominant capitalist elite. He analyzes American foreign policy as an extension of domestic economic policy and, in particular, a result of the failures of domestic economic policy. Beard's conception of American history plays itself out in a tragic cycle of imperialism and diversion that left him a disenchanted realist. This incisive study will be of interest to those interested in the evolution of historical thinking. **American Progressive History** Ernst Breisach, 1993-06-15 American Progressive History is the first book to relate the story of Progressive history through all its transformations from its emergence in the early 1900s to its demise in the 1940s. Focusing his account on the work of the movement's most important representatives, including Charles Beard, James Harvey Robinson, and Carl Becker, Ernst Breisach demonstrates that Progressive history is distinguished by its unique combination of beliefs in the objective reality of historical facts and its faith in the inevitability of the progress of the human race. And though he discusses at length Frederick Jackson Turner's contributions to the creation of a modern American historiography, Breisach sets him apart from the scholars who shaped Progressive history. While Progressive history is usually treated in isolation from simultaneous movements in European historiography, Breisach shows how it was formulated in the face of the same cultural pressures confronting European historians. Indeed, it becomes clear that until the

1930s the Progressive historians confidence in the validity of historical investigation and the progress of civilization shielded American historians from the skepticism and cultural pessimism which characterized many of their European contemporaries Breisach's exceptionally broad and subtle analysis reveals American Progressive history to be an important and innovative experiment in the international quest for a New History as well as a coherent school of thought in its own right

Why War? Ideology, Theory, and History Keith L. Nelson, Spencer C. Olin, 2023-09-01 Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories about which they are not always conscious or consistent and 3 we can better understand compare and evaluate what historians are saying when we comprehend their ideological and theoretical perspectives They attempt then to classify historical interpretations of war according to their ideological theoretical orientations however covert Perspective Nelson and Olin are concerned with enhancing history's social utility by advancing its capacity to produce generalizations that can explain or predict events and are subject to empirical testing Their exploration of historical generalization focuses on an issue itself of the highest importance the causes of war but their aim is also to create a model for historical generalization applicable to other issues They argue that to understand generalizations in history one must recognize their roots in theory and that historians theories in turn proceed from their own ideologies To demonstrate they survey theories about the causes of war that have come out of conservative liberal and radical ideologies any historian will profit from this rigorous approach to the problem Choice Learned and suggestive this book clarifies much of what is already known and points toward new ways of understanding Library Journal Instead of proposing another theory of war their goal is a more modest one of raising the theoretical consciousness of historians Specifically they argue that 1 ideology does influence theory 2 historians do have ideologies as well as theories

The Growth of the American Thought Merle Eugene Curti, Hailed as a pioneer achievement upon its original publication and awarded the Pulitzer Prize in history in 1944 The Growth of American Thought has won appreciative reviews and earned the highest regard among historians of the national experience With his elaboration of the complex interrelationships between the growth of American thought and the whole American social milieu Curti creates not only an intellectual history but a social history of American thought

Cold War US Foreign Policy Steven Hurst, 2019-07-31 This book provides the first comprehensive description and critique of the six most important historical interpretations of US Cold War foreign policy Traditionalism Revisionism Post Revisionism Corporatism World Systems Theory and Post Structuralism The author uses the levels of analysis approach to demonstrate how each of these perspectives can be understood as an explanatory framework combining different types of factors located at different levels of the international system This original way of explaining the work of the historians discussed helps the reader to see past the narrative and empirical elements of their writings and to grasp more clearly the underlying theoretical assumptions In each chapter a description of the perspective's

underlying theoretical framework and how it explains US foreign policy is followed by a critique of that theory and explanation A central theme developed throughout the book is the difficulty of managing the constant tension between the explanatory power of theory and the historian's desire to encompass the complex totality of historical events This critical companion can be read alongside the works of the historians themselves showing how they have sought to explain US Cold War foreign policy and the key differences between their perspectives Key Features 1st complete discussion of the 6 schools of thought in one volume Discusses current issues such as corporatism world systems theory and post structuralism in an accessible manner original use of the levels of analysis framework in studying this subject demonstrates in practical terms how each theory explains US Cold War foreign policy

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Memoirs of an Obscure Professor Paul F. Boller, 2013-05-31 During the heyday of McCarthyism the Chicago Tribune offended by something he had written contemptuously dismissed Paul Boller as an obscure professor he was then teaching at Southern Methodist University in Dallas Texas Some forty five years later reflecting on the incident Boller wrote an essay on what it was like to be an obscure professor at one of America's less publicized campuses in a conservative community during the late 1950s and early 1960s That essay became the foundation for this collection of autobiographical selections reflecting the interests and pursuits of a man who gained national recognition both inside the academic community and beyond but still values his obscurity Whether it is a study of the much maligned Calvin Coolidge or an account of his Navy service as a translator of Japanese during World War II Boller brings to his writing a fresh approach and a lively and wry wit

American Political Scientists Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries focus on the main ideas and major works by each scholar listing the most important publications by and about the

individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research **The 20th Century A-GI** Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

American Intellectual Histories and Historians Robert Allen Skotheim, 2015-03-08 This study of American intellectual histories sketches their development from colonial chronicles to today's professional scholarship It concentrates upon the writings of a dozen or more major historians between the late 1800's and the middle 1900's who have contributed to the study of the history of ideas in America including Moses Coit Tyler Edward Eggleston Charles Beard Carl Becker Vernon Farrington Merle Curti Perry Miller and Ralph Gabriel The various histories are analyzed partly from the perspective of a developing scholarly discipline and partly from the perspective of the climate of opinion in which the histories were written The methods employed by the historians in studying ideas as well as the substantive interpretations expressed in the histories are analyzed in relation to the world views or ideological positions of the historians themselves Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

What America Owes the World H. W. Brands, 1998-09-13 This book first published in 1998 is an intellectual and moral history of US foreign policy **History** John Higham, Leonard Krieger, Felix Gilbert, 2016-04-14 This book originally published in 1977 is a survey of European historiography from its origins in the historians of Greece and Rome through the annalists and chroniclers of the middle ages to the historians of the late eighteenth century The author concentrates on those writers whose works fit into a specific category of writing or who have influence the course of later historical writing though he does deal with some of the more specialist forms of medieval historiography such as the crusading writers and chivalrous historians like Froissart He maintains that modern history did not develop until the 18th Century **The Masterless** Wilfred M. McClay, 2000-11-09 In this provocative book Wilfred McClay considers the long standing tension between individualism and social cohesion in conceptions of American culture

Exploring ideas of unity and diversity as they have evolved since the Civil War he illuminates the historical background to our ongoing search for social connectedness and sources of authority in a society increasingly dominated by the premises of individualism McClay borrows D H Lawrence s term masterless men extending its meaning to women as well and argues that it is expressive of both the promise and the peril inherent in the modern American social order Drawing upon a wide range of disciplines including literature sociology political science philosophy psychology and feminist theory McClay identifies a competition between visions of dispersion on the one hand and coalescence on the other as modes of social organization In addition he employs intellectual biography to illuminate the intersection of these ideas with the personal experiences of the thinkers articulating them and shows how these shifting visions are manifestations of a more general ambivalence about the process of national integration and centralization that has characterized modern American economic political and cultural life

Progressive Historians Richard Hofstadter, 2012-02-29 Richard Hofstadter the distinguished historian and twice winner of the Pulitzer Prize brilliantly assesses the ideas and contributions of the three major American interpretive historians of the twentieth century Frederick Jackson Turner Charles A Beard and V L Parrington These men whose views of history were shaped in large part by the political battles of the Progressive era provided the Progressive movement with a usable past and the American liberal mind with a historical tradition The Progressive Historians is at once a critique of historical thought during this decisive period of American development and an account of how these three writers led American historians into the controversial political world of the twentieth century Turner in developing his idea that American democracy is the outcome of the experience of frontier expansion and the settlement of the West introduced his fellow historians to a set of new concepts and methods and in doing so drew the guidelines of American historiography Beard insisted upon the elitist origins of the Constitution crusaded for the economic interpretation of history and ultimately staked his historical reputation on an isolationist view of recent American foreign policy Parrington emphasized the moral and social functions of literature and read the history of literature as a history of the national political mind In recent years the tide has run against the Progressive historians as one specialist after another has taken issue with their interpretations The movement of contemporary historical thought has led to a rediscovery of the complexity of the American past Although he cannot share the faith of the Progressive historians in the sufficiency of American liberalism as a guide to the modern world Richard Hofstadter believes we have much to learn about ourselves from a reconsideration of their insights

Ministers of Reform Robert M. Crunden, 1984 Ministers of Reform vividly depicts the spiritual odyssey of an entire generation and shows how Protestant roots and a common climate of creativity nurtured a host of Progressive leaders from all walks of life Crunden demonstrates that the same spirit of innovation and moral rectitude so typical of the era s politics also characterized its artistic endeavors

Disenchanted Realists Raymond Seidelman, 1985-06-30 Disenchanted Realists explores the intertwined fate of American political science and nineteenth and twentieth century liberal reforms

Beginning with the pre history of political science in the 1880s Seidelman and Harpham trace the development of political science in the Progressive period the 1920s the New Deal the Cold War the tumultuous sixties and the crisis ridden presidencies of Carter and Reagan

American Empire Andrew J. BACEVICH, 2009-06-30 In a challenging provocative book Andrew Bacevich reconsiders the assumptions and purposes governing the exercise of American global power Examining the presidencies of George H W Bush and Bill Clinton as well as George W Bush s first year in office he demolishes the view that the United States has failed to devise a replacement for containment as a basis for foreign policy He finds instead that successive post Cold War administrations have adhered to a well defined strategy of openness Motivated by the imperative of economic expansionism that strategy aims to foster an open and integrated international order thereby perpetuating the undisputed primacy of the world s sole remaining superpower Moreover openness is not a new strategy but has been an abiding preoccupation of policymakers as far back as Woodrow Wilson Although based on expectations that eliminating barriers to the movement of trade capital and ideas nurtures not only affluence but also democracy the aggressive pursuit of openness has met considerable resistance To overcome that resistance U S policymakers have with increasing frequency resorted to force and military power has emerged as never before as the preferred instrument of American statecraft resulting in the progressive militarization of U S foreign policy Neither indictment nor celebration American Empire sees the drive for openness for what it is a breathtakingly ambitious project aimed at erecting a global imperium Large questions remain about that project s feasibility and about the human financial and moral costs that it will entail By penetrating the illusions obscuring the reality of U S policy this book marks an essential first step toward finding the answers

Table of Contents Preface Introduction 1 The Myth of the Reluctant Superpower 2 Globalization and Its Conceits 3 Policy by Default 4 Strategy of Openness 5 Full Spectrum Dominance 6 Gunboats and Gurkhas 7 Rise of the Proconsuls 8 Different Drummers Same Drum 9 War for the Imperium Notes Acknowledgments Index

Reviews of this book A straightforward critical interpretation of American statecraft in the 1990s he is straightforward too in establishing where he stands on the political spectrum about US foreign policy Bacevich insists that there are no differences in the key assumptions governing the foreign policy of the administrations of Bush I Clinton and Bush II and this will certainly be the subject of passionate debate Bacevich s argument persuades by means of engaging prose as well as the compelling and relentless accumulation of detail Bring s badly needed perspective to troubled times James A Miller Boston Globe

Reviews of this book For everyone there s Andrew Bacevich s American Empire an intelligent elegantly written highly convincing polemic that demonstrates how the motor of US foreign policy since independence has been the need to guarantee economic growth Dominick Donald The Guardian

Reviews of this book Andrew Bacevich s remarkably clear cool headed and enlightening book is an expression of the United States unadmitted imperial primacy It s as bracing as a plunge into a clear mountain lake after exposure to the soporific internationalist conventional wisdom Bacevich performs an invaluable service by restoring missing

historical context and perspective to today's shallow hand-wringing discussion of Sept 11. Bacevich's brave intelligent book restores our vocabulary to debate anew the United States purpose in the world. Richard J Whalen Across the Board Reviews of this book To say that Andrew Bacevich's American Empire is a truly realistic work of realism is therefore to declare it not only a very good book but also a pretty rare one. The author, a distinguished former soldier, combines a tough-minded approach to the uses of military force with a grasp of American history that is both extremely knowledgeable and exceptionally clear-sighted. This book is indispensable for anyone who wants to understand the background to U.S. world hegemony at the start of the 21st century and it is also a most valuable warning about the dangers into which the pursuit and maintenance of this hegemony may lead America. Anatol Levin Washington Monthly Reviews of this book American Empire is an immensely thoughtful book. Its reflections go beyond the narrow realm of U.S. security policy and demonstrate a deep understanding of American history and culture. David Hastings Dunn Political Studies Review I have long suspected our nation's triumphs and trials owed much to the American genius for solipsism and self-deception. Bacevich has convinced me of it by holding up a mirror to self-styled idealists and realists alike. Read all the books you want about the post-Cold War post-9/11 world just be sure American Empire is one of them. Walter A McDougall Pulitzer Prize-winning historian University of Pennsylvania This deeply informed impressive polemical book is precisely what Americans in and outside of the academy needed before 9/11 and need now even more. Crisp lively biting prose will help them enjoy it. Among its many themes are hubris, hegemony and the fatuousness of claims by the American military that they can now achieve transparency in war-making. Michael S Sherry Northwestern University The United States could not possibly have an empire, Americans think. But we do. And with verve and telling insight, Andrew Bacevich shows how it works and what it means. Ronald Steel author of Temptations of a Superpower America's Foreign Policy after the Cold War

World Order in History Paul Dukes, 2022-12-28 World Order in History 1996 argues that historians' ideas about world order have been influential in transforming nations' sense of themselves and it pursues these arguments with particular reference to Russia and the Soviet Union and the Western world

The Yale Biographical Dictionary of American Law Roger K. Newman, 2009-01-01 This book is the first to gather in a single volume concise biographies of the most eminent men and women in the history of American law. Political And Social Thought Of Charles A Beard Introduction

In the digital age, access to information has become easier than ever before. The ability to download Political And Social Thought Of Charles A Beard has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Political And Social Thought Of Charles A Beard has opened up a world of possibilities. Downloading Political And Social Thought Of Charles A Beard provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Political And Social Thought Of Charles A Beard has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Political And Social Thought Of Charles A Beard. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Political And Social Thought Of Charles A Beard. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Political And Social Thought Of Charles A Beard, users should also consider the potential security risks associated with online platforms.

Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Political And Social Thought Of Charles A Beard has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Political And Social Thought Of Charles A Beard Books

1. Where can I buy Political And Social Thought Of Charles A Beard books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
