Political Assassination Legal Background:

Military Law Review ,1989 **Special Warfare** ,1989 *Targeted Killing* Markus Gunneflo,2016-05-12 Explores the emergence of targeted killing in Israeli and US statecraft and in the international law of force **Bibliography On Soviet Intelligence And Security Services** Raymond G Rocca,2019-03-08 This annotated bibliography is a valuable tool for research and teaching on Soviet intelligence and security services and its role in the country s domestic and international affairs It categorizes nearly 500 books articles and government documents pertaining to Soviet intelligence **Impact of Organized Crime on Murder of Law Enforcement Personnel at the U.S.-Mexican Border** Sara Schatz,2014-07-14 This brief fills a gap in the studies of organized crime in Mexico Kan 2012 R os 2011 Dell 2011 by documenting and mapping the post 2008 assassination of Mexican border police chiefs It traces out a systematic of law enforcement assassination in Northern Tier Mexico showing how the selective often sequential hits by cartels on chiefs in border towns and along key drug trafficking corridors has proven an effective strategy by organized crime elements to serve several goals 1 to retaliate for federal state and local prosecution 2 to try and neutralize police chiefs 3 to achieve intermittent local governance and or to seed corrupt police chiefs at the municipal level and 4 to reduce local governmental capacity to obtain greater freedom for movement of goods It is argued that the tactical advantage of organized crime elements gives them relatively easy physical access to law enforcement targets and thus is thus one prime element facilitating the use of assassination as a strategy U S and Mexican legal political and judicial institutions have not been able to adequately restrict opportunity for law enforcement assassinations The inability to reduce access to weapons and officials to increase security for police personnel to reduce corruption and punish offenders sets the stage for the assassination of local law enforcement Yet it is the goals of organized crime elements to clear drug smuggling routes and to try and gain more pliant governance at the municipal level that ultimately motivate such killings *The Man with the Poison Gun* Serhii Ploky,2016-12-06 In the fall of 1961 KGB assassin Bogdan Stashinsky defected to West Germany After spilling his secrets to the CIA Stashinsky was put on trial in what would be the most publicized assassination case of the entire Cold War The publicity stirred up by the Stashinsky case forced the KGB to change its modus operandi abroad and helped end the career of Aleksandr Shelepin one of the most ambitious and dangerous Soviet leaders Stashinsky s testimony implicating the Kremlin rulers in political assassinations carried out abroad shook the world of international politics Stashinsky s story would inspire films plays and books including Ian Fleming s last James Bond novel *The Man with the Golden Gun* A thrilling tale of Soviet spy craft complete with exploding parcels elaborately staged coverups double agents and double crosses *The Man with the Poison Gun* offers unparalleled insight into the shadowy world of Cold War espionage **Soviet Defectors** Riehle Kevin Riehle,2020-07-31 An analysis of the insider information and insights that over eighty Soviet intelligence officer defectors revealed during the first half of the Soviet period Identifies 88 Soviet intelligence officer defectors for the period 1917 to 1954 representing a variety of specializations

the most comprehensive list of Soviet intelligence officer defectors compiled to date Shows the evolution of Soviet threat perceptions and the development of the e main enemy concept in the Soviet national security system Shows fluctuations in the Soviet recruitment and vetting of personnel for sensitive national security positions corresponding with fluctuations in the stability of the Soviet government Compiles for the first time corroborative primary sources in English Russian French German Finnish Japanese Latvian Norwegian Portuguese Spanish and Swedish When intelligence officers defect they take with them privileged information and often communicate it to the receiving state This book identifies a group of those defectors from the Soviet elite intelligence officers and provides an aggregate analysis of their information to uncover Stalin s strategic priorities and concerns thus to open a window into Stalin s impenetrable national security decision making This book uses their information to define Soviet threat perceptions and national security anxieties during Stalin s time as Soviet leader

Historical Dictionary of Ukraine Ivan Katchanovski, Zenon E. Kohut, Bohdan Y. Nebesio, Myroslav Yurkevich, 2013-07-11 Although present day Ukraine has only been in existence for something over two decades its recorded history reaches much further back for more than a thousand years to Kyivan Rus Over that time it has usually been under control of invaders like the Turks and Tatars or neighbors like Russia and Poland and indeed it was part of the Soviet Union until it gained its independence in 1991 Today it is drawn between its huge neighbor to the east and the European Union and is still struggling to choose its own path although it remains uncertain of which way to turn Nonetheless as one of the largest European states with considerable economic potential it is not a place that can be readily overlooked The problem is or at least was where to find information on this huge modern Ukraine and since 2005 the answer has been the Historical Dictionary of Ukraine in its first edition and now even more so with this second edition It now boasts a dictionary section of about 725 entries these covering the thousand years of history but particularly the recent past and focusing on significant persons places and events political parties and institutions as well as more broadly international relations the economy society and culture The chronology permits readers to follow this history and the introduction is there

to make sense of it It also features the most extensive and up to date bibliography of English language writing on Ukraine
