**Learning in the Plural** David D. Cooper,2014-04-01 Can civic engagement rescue the humanities from a prolonged identity crisis How can the practices and methods the conventions and innovations of humanities teaching and scholarship yield knowledge that contributes to the public good These are just two of the vexing questions David D Cooper tackles in his essays on the humanities literacy and public life As insightful as they are provocative these essays address important issues head on and raise questions about the relevance and roles of humanities teaching and scholarship the moral footings and public purposes of the humanities engaged teaching practices institutional and disciplinary reform academic professionalism and public scholarship in a democracy Destined to stir discussion about the purposes of the humanities and the problems we face during an era of declining institutional support public alienation and misunderstanding student ambivalence and diminishing resources the questions Cooper raises in this book are uncomfortable and in his view necessary for reflection renewal and reform With frank deft assessments Cooper reports on active learning initiatives that reenergized his own teaching life while reshaping the teaching mission of the humanities including service learning collaborative learning the learning community movement and student centered and deliberative pedagogy Flannery O'Connor and the Perils of Governing by Tenderness Jerome C. Foss,2019-01-03 Flannery O'Connor's fiction continues to haunt American readers in part because of its uncanny ability to remind us who we are and what we need Foss's book reveals the extent to which O'Connor was a serious reader of the history of political philosophy She understood the ideas upon which the American regime rests and she evaluated those ideas from the standpoint of both faith and reason Foss's book explains why O'Connor feared that the modern habit to govern by tenderness would lead to terror After a thorough account of her familiarity with the history of political philosophy Foss shows how the works of Plato Aristotle Saint Augustine Saint Thomas Aquinas Machiavelli Locke Rousseau and Nietzsche inform O'Connor's stories This does not mean that O'Connor was writing about politics in the narrow sense Her vision was deeply theological and she carefully avoided topical stories that promote social agendas Her concern was with the health of the American regime more broadly insofar as the manners of a regime affect citizens attitudes

toward religion O Connor does not present a political theory of her own but as Foss argues she was a political philosopher in the original sense of the word Her stories give clear accounts of her political wisdom Foss further shows the continued relevance of her wisdom in age dominated by abstract modern theories such as that of John Rawls *The National Union Catalogs*, 1963- ,1964 *Books in Print* ,1982 **El-Hi Textbooks in Print** ,1982 Library of Congress Catalogs Library of Congress,1976 **The Week** ,1894 J.F.K. COLD WAR ASSASSINATION Marc Birnbaum,2025-08-28 This book explores John Fitzgerald Kennedy during the Cold War and his much too brief Presidency Decades after the assassination as the public largely disbelieved many of the conclusions of the Warren Commission Congress passed the President John F Kennedy Assassination Records Collection Act of 1992 directing the assembly and release of secret files from the National Archives and Records Administration no later than twenty five years after enactment or October 26 2017 As some of these documents became publicly available my interest was drawn as I began to recall my emotions at the time of the assassination One particular document was written on November 24 1963 by J Edgar Hoover the Director of the FBI two days after the assassination It was a two page memo to file written within a few hours of Lee Harvey Oswald being shot by Jack Ruby in the garage of the Dallas Police Department and a week before the establishment of the Warren Commission Referring to the investigation that would come Hoover dictated The thing I am concerned about is having something issued so we can convince the public that Oswald is the real assassin This tells us how before the Warren Commission was announced the Director of the FBI was not interested in the truth but rather to convince America and the world of a narrative allowing a cover up of critical facts Looking at some of that history the writing began and I wanted to know more about the world realities of the Cold War and JFK s experiences and contributions with three terms in the House of Representatives from 1947 to 1953 United States Senator from 1953 to 1960 and President from 1961 to 1963 The book explores JFK and his contributions and confrontations through the Cold War the defeat of Richard Nixon for President the space race the Bay of Pigs summit meeting with Khrushchev in Vienna the Berlin Wall construction the Cuban Missile Crisis Nuclear Test Ban Treaty and the reassessment of Vietnam The loss of John Fitzgerald Kennedy is a loss to history and what could have been We can only imagine *Catalog of Copyright Entries.
