Egypt in the Twenty First Century M. Riad El-Ghonemy,2003-07-03 An overview of the political economy and development of contemporary Egypt focusing on the

nature and extent of economic reform and restructuring in the last twenty years Routledge Handbook on Contemporary Egypt Robert Springborg, Amr Adly, Anthony Gorman, Tamir Moustafa, Aisha Saad, Naomi Sakr, Sarah Smierciak, 2021-03-30 Investigating key features of contemporary Egypt this volume includes Egypt's modern history politics economics the legal system environment and its media and modes of cultural expression It examines Egypt's capacities to meet developmental challenges ranging from responding to globalization and regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook The chapters revolve around political economy it is shaped by the people and their abilities political and legal institutions organization of the economy natural and built environments and culture and communication Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952 consequently the contributions address both the causes and consequences of unbalanced civil military relations military rule and persisting authoritarianism in the political society This multidisciplinary handbook serves a dual purpose of introducing readers to Egypt's history and contemporary political economy and as a comprehensive key resource for postgraduate students and academics interested in modern Egypt *Reconstructions in Middle East Economic History* Don Babai, 2024-10-24 This volume explores major theoretical and empirical themes in the study of the economic history of the Middle East Despite the relative neglect of economic history in Middle Eastern studies this book makes a case for its importance as a discipline of study On the one hand it shows promise in illuminating the economic base of historical trends and events on the other it can elucidate the historical foundations of economic continuity and change The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history along with political economy complement each other in studying the Middle East Among the substantive topics explored are the trajectories of the Arab Spring institutional change and economic development in the early Ottoman Empire the destructive effects of the reordering property rights in Iraq by the American led occupation authority the evolution of the political economy of the Islamic Republic of Iran and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries The book will be of interest to scholars and students of economic history political economy and the Middle East **The Economics of Middle East Peace** Stanley Fischer, Dani Rodrik, Elias H. Tuma, 1993 This landmark collection of essays addresses the question Given peace in the Middle East then what Focusing on the countries most immediately affected by the Arab Israeli conflict economists representing Egypt Israel Jordan Lebanon and the Occupied Territories offer differing perspectives on potential opportunities and difficulties and on the actions that would be required to redirect rejuvenate and sustain the economies of the region The book opens with case studies of Egypt Syria Lebanon Israel Jordan and the West Bank and Gaza Strip It then examines overall regional issues such as the economic consequences of

peace and the economic reforms needed to maximize peace dividends. Essays in the last part focus on the transition to peace and the future economic development of the Palestinian, Israeli, Jordanian, and other regional economies. Topics addressed include the relation of defense spending to the economy, the implications of a peace for trade across borders, the benefits of economic cooperation between Israelis and Palestinians, and the role of foreign aid in economic reconstruction in the Middle East. Stanley Fischer is Professor of Economics at the Massachusetts Institute of Technology. Dani Rodrik is Associate Professor of Public Policy at the Kennedy School, Harvard University. Elias Tuma is Professor of Economics at the University of California, Davis.

The Power Triangle Hazem Kandil, 2016-08-12

Revolution, reform, and resilience comprise the respective fortunes of modern Iran, Turkey, and Egypt. Although the countries all experienced coups with remarkably similar ambitions, each followed a very different trajectory. Iran became an absolutist monarchy that was overthrown from below. Turkey evolved into a limited democracy, and Egypt turned into a police state. In *The Power Triangle*, Hazem Kandil attributes the different outcomes to the power struggle between the political, military, and security institutions. Coups establish a division of labor with one group of officers running government, another overseeing the military, and a third handling security. But their interests begin to vary as each group identifies with its own institution. Politicians wish to rule indefinitely; military officers prefer to return to barracks after implementing the needed reforms; and security men scramble to maintain the privileges they acquired in the post-coup emergency. Driven by conflicting agendas, these partners in domination struggle over regime control. Using comparative historical sociology, Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle. *The Power Triangle's* realist approach to regime change shows that a clear explanation of pivotal events in Iran, Turkey, and Egypt is impossible without a firm grasp of the power relations within each country's ruling bloc.

Egypt's Lost Spring Sherif Khalifa, 2015-07-20

An Egyptian diplomat turned scholar provides a detailed analysis of events from the fall of Mubarak through the aftermath of the 2013 military move to oust Egypt's first democratically elected president. The Arab Spring caught the world by surprise and was truly inspiring. Then many watched with bewilderment as the process unfolded in unforeseen directions. This lively and well-documented book tells the story of events in Egypt from the end of the Mubarak era in 2010 through the revolution in 2011 and the military interference in the summer of 2013. Written from an insider's perspective, it discusses what occurred and analyzes the motives of the parties involved, putting each incident in context so the reader can see and understand the big picture. The author's background as an Egyptian diplomat provides insights that fuel a nuanced and richly detailed study. Among other topics, the book sheds light on the Egyptian military and economy, the life and written opinions of the military leader Al Sisi, and ties between the United States and the Egyptian armed forces. It reveals evidence of a conspiracy against the first elected civilian administration in Egypt, details the conflict between the Islamists and the deep state, and examines the rise

and fall of political Islam A final chapter speculates about possible scenarios for the future of Egypt Soldiers, Spies, and Statesmen Hazem Kandil, 2014-01-07 One of the most momentous events in the Arab uprisings that swept across the Middle East in 2011 was the overthrow of President Hosni Mubarak As dramatic and sudden as this seemed it was only one further episode in an ongoing power struggle between the three components of Egypt's authoritarian regime the military the security services and the government A detailed study of the interactions within this invidious triangle over six decades of war conspiracy and sociopolitical transformation *Soldiers Spies and Statesmen* is the first systematic analysis of recent Egyptian history This paperback edition updated to incorporate events in 2013 provides the background necessary to understanding how the military rebranded itself as the defender of democracy and ousted Mubarak's successor Muhammad Morsi Impeccably researched and filled with intrigue *Soldiers Spies and Statesmen* is an indispensable guide for anyone trying to fathom what this latest development means for Egypt's future Development Centre Studies The Economics and Politics of Transition to an Open Market Economy Egypt Weiss Dieter, Wurzel Ulrich, 1998-09-30 This book explains why Egypt is lagging behind other countries in the Mediterranean region in reforming its economy Statecraft in the Middle East Imad Mansour, 2016-09-27 What role do ideas play in state building and state activity This book argues that government policies in both foreign relations and domestic politics must always be situated within a broader ideational and societal context Imad Mansour analyses how governments in the contemporary Middle East have governed internally and acted externally based on societal narratives which bring together a variety of ideas about a society's history and place in the world He argues that there is a dominant societal narrative that acts as a primary building block of statecraft where statecraft is understood as an ongoing set of local regional and global state building processes Mansour investigates the ways in which statecraft in the Middle East has been guided by narratives through a close historical reading and comparative discussion of the political activity of six states Egypt Israel Syria Turkey Saudi Arabia and Iran in the second half of the twentieth century and the early twenty first century His book demonstrates the analytical power of narratives in understanding statecraft and explains why governments' decisions need to be understood in complex ways *Lumbering State, Restless Society* Nathan J. Brown, Shimaa Hatab, Amr Adly, 2021-10-12 *Lumbering State Restless Society* offers a comprehensive and compelling understanding of modern Egypt Nathan J Brown Shimaa Hatab and Amr Adly guide readers through crucial developments in Egyptian politics society and economics from the middle of the twentieth century through the present Integrating diverse perspectives and areas of expertise including the tools of comparative politics the book provides an accessible and clear introduction to the Egypt of today alongside an innovative and rigorous analysis of the country's history and governance Brown Hatab and Adly highlight ways in which Egypt resembles other societies around the world drawing from and contributing to broader debates in political science They trace the emergence of a powerful and intrusive state alongside a society that is increasingly politicized and they emphasize how the rulers and regimes who have built and steered the state

apparatus have also had to retreat and recalibrate The authors also examine why authoritarianism corporatism and socialism have decayed without resulting in a liberal democratic order and they show why Egyptian politics should not be understood in terms of a single dominant force but rather an interplay among many actors At once current insightful and engaging

Lumbering State Restless Society delivers a powerful and distinctive account of modern Egypt in the modern world **The Political Economy Of Public Sector Reform And Privatization** Ezra Suleiman, John Waterbury, 2019-07-09 This book suggests some of the ways in which levels of development shape public sector reform and privatization in developed and developing countries showing that conservative as well as socialist governments were committed to increasing the state's guiding role in the political economy

Development, Change, and Gender in Cairo Diane Singerman, Homa Hoodfar, 1996-06-22 the quality of each of these essays is excellent and the book warrants extensive reading by political scientists sociologists and all scholars of the contemporary Middle East American Journal of Sociology This book's ethnographic material offers much to surprise and challenge assumptions about gender Islam and social change in Egypt MESA Bulletin Taken together these articles leave the reader with an excellent understanding of the realities of contemporary Egypt and a sense of the vitality and energy that permeates Cairo Digest of Middle East Studies The essays presented here based on extensive ethnographic research focus on the Egyptian household as the key institution for understanding the dynamics of political economic and social change Economic liberalization has had particular often ambivalent consequences for low income groups especially women and for gender relations

The Politics of Egypt Ninette S. Fahmy, 2012-10-12 This book addresses two important matters of current concern to Middle East scholars firstly the nature of the Egyptian state and society and the interactive process between them and secondly how change which would finally lead to development can be initiated The book argues that the Egyptian case represents a weak authoritarian state which through its coercive and repressive policies towards various societal forces political parties professional associations and organisations and individuals creates a weak society Individual behaviour in urban and rural communities sometimes viewed as signs of the strength of societal forces is seen here as a symptom of a weak and fragmented society The existence of a weak society in turn impedes government objectives and hinders the implementation of developmental policies and programmes further weakening the state This being the case change has to be initiated externally in both the political and economic spheres

A Grand Delusion Eberhard Kienle, 2001-04-12 The author argues in this text that the much vaunted reform and liberalisation of Egypt's economy has been partial and selective far from beneficial to all Egyptians While the encouragement of the private sector has indeed benefited some it has failed to improve the standard of living of others in particular the lower middle classes and a large part of the landless rural population Most importantly economic reform and liberalisation have failed to produce a greater degree of political democracy notions of political accountability clean elections a genuinely free press the containment of police powers have turned out to be a great delusion which masks restrictions on

political participation and civil liberties **Mipes;Econ Lib Democ Civil Soci** NA NA,2016-04-30 This 12 country comparative volume examines the impact of economic structural adjustment programs upon grassroots civil associations and the implications for political liberalization and democratization in the developing countries of Latin America Africa Asia and the Middle East The authors take an in depth look at the impact of economic reform upon women s groups human rights organizations social welfare non governmental organizations unions and business associations They challenge the prevailing assumption that economic reform will automatically lead to greater democratization
