Political Economy Of Poverty Equity And Growth Costa Rica And Uruguay:

The Political Economy of Poverty, Equity, and Growth Banco Mundial,1993 **The political economy of poverty, equity, and growth : Costa Rica and Uruguay** Banco Mundial,1993 *The Political Economy of Poverty, Equity and Growth: A Comparative Study* Deepak Lal,H. Myint,1998-10-08 This wide ranging and innovative book synthesises the findings of a major international study of the political economy of poverty equity and growth It is based primarily on analytical economic histories of 21 developing countries from 1950 to 1985 but also takes account of the wider literature on the subject The authors take an ambitious interdisciplinary approach to identify patterns in the interplay of initial conditions institutions interests and ideas which can help to explain the different growth and poverty alleviation outcomes in the Third World Three different types of poverty are distinguished based on their causes and a more nebulous idea of equity in contrast to egalitarianism is shown to have influenced policy Since growth is found to be the major means of alleviating mass structural poverty much of the book is concerned with discovering explanations for policies which are found to be the most important influences on the proximate causes of growth Lal and Myint also consider the available evidence on the role of direct transfers public and private in alleviating destitution and conjunctural poverty The Political Economy of Poverty Equity and Growth develops a novel framework for the comparative analysis of different growth outcomes This framework distinguishes between the different relative factor endowments of land labour and capital and between the different organizational structures of peasant versus plantation and mining economies It also differentiates between the politics of autonomous and factional states in the countries studied breaking the analysis down into further typological subdivisions and providing important new insights into the differing behaviour of economies that are rich in natural resources and those with abundant labour These insights constitute a richer explanation for the divergent developmental outcomes in East Asia compared with Latin America and Africa The evidence collated is used to argue for the continuing relevance of the classical liberal viewpoint on public policies for development and to show why even so nationalist ideologies are likely to be adopted and lead to cycles of interventionism and liberalism The evidence is also used to provide an explanation for the surprising current worldwide Age of Reform *Encyclopedia of Special Education* Cecil R. Reynolds, Elaine Fletcher-Janzen, 2007-02-26 The Third Edition of the highly acclaimed Encyclopedia of Special Education has been thoroughly updated to include the latest information about new legislation and guidelines In addition this comprehensive resource features school psychology neuropsychology reviews of new tests and curricula that have been developed since publication of the second edition in 1999 and new biographies of important figures in special education Unique in focus the Encyclopedia of Special Education Third Edition addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field *Lessons from Latin America* Felipe Arocena, Kirk Bowman, 2014-08-05 Since the early 1980s Latin American countries have been innovative in a range of policy and cultural experiences including health

care voting pensions and multiculturalism And yet their policy innovations are rarely found in textbooks This book addresses that gap providing a fascinating and wide ranging exploration of both the history of looking down at Latin America and the political economic and cultural lessons including successes failures and unintended consequences that should inform important policy discussions around the world The Legacies of Liberalism James Mahoney,2003-04-01 Winner of the Barrington Moore Jr Prize for the Best Book in Comparative and Historical Sociology from the American Sociological Association Winner of the Best Book Award in the Comparative Democratization Section from the American Political Science Association Despite their many similarities Central American countries during the twentieth century were characterized by remarkably different political regimes In a comparative analysis of Guatemala El Salvador Costa Rica Honduras and Nicaragua James Mahoney argues that these political differences were legacies of the nineteenth century liberal reform period Presenting a theory of path dependence Mahoney shows how choices made at crucial turning points in Central American history established certain directions of change and foreclosed others to shape long term development By the middle of the twentieth century three types of political regimes characterized the five nations considered in this study military authoritarian Guatemala El Salvador liberal democratic Costa Rica and traditional dictatorial Honduras Nicaragua As Mahoney shows each type is the end point of choices regarding state and agrarian development made by these countries early in the nineteenth century Applying his conclusions to present day attempts at market creation in a neoliberal era Mahoney warns that overzealous pursuit of market creation can have severely negative long term political consequences The Legacies of Liberalism presents new insight into the role of leadership in political development the place of domestic politics in the analysis of foreign intervention and the role of the state in the creation of early capitalism The book offers a general theoretical framework that will be of broad interest to scholars of comparative politics and political development and its overall argument will stir debate among historians of particular Central American countries **Transatlantic Transitions** Imtiaz Hussain,2018-02-13 With North Atlantic post World War II transatlantic dynamics as the subject this volume inquires if its theoretical tenets hold in other epochs and Atlantic arenas Both case and comparative studies of such historical cases as the silver slave and commodity trades and whether ideas such as faith and democracy have as much impact as these merchandise flows simultaneously challenge and strengthen the transatlantic paradigm They permit transatlantic relations to be stretched as far back as to the 8th Century in turn exposing transatlantic flows hugging global threads while revealing the strength and size of several unaccounted types of transatlantic transactions such as the north south varieties *Aid, Power and Privatization* Benedicte Bull,2005-01-01 This is an important and thought provoking book for the understanding of privatisation The author perceptively identifies contradictions that emerge from the process and outcome of privatisation and attempts to explain these through a comparative analysis of telecommunications reform in three Central American countries The result is a carefully researched book that provides new insights into the politics of privatisation It will be compelling

reading for the student and practitioner alike Paul Cook University of Manchester UK This book provides a comparative study of the telecommunication reform process in three Central American countries Costa Rica Guatemala and Honduras focusing on the roles of the local private sector and international financial institutions *Wealth, Health, and Democracy in East Asia and Latin America* James W. McGuire, 2010-03-15 Why do some societies fare well and others poorly at reducing the risk of early death *Wealth Health and Democracy in East Asia and Latin America* finds that the public provision of basic health care and other inexpensive social services has reduced mortality rapidly even in tough economic circumstances and that political democracy has contributed to the provision and utilization of such social services in a wider range of ways than is sometimes recognized These conclusions are based on case studies of Argentina Brazil Chile Costa Rica Indonesia South Korea Taiwan and Thailand as well as on cross national comparisons involving these cases and others *Foreign Direct Investment in Three regions of the South at 20th Century* Susan M. McMillan, 1999-03-15 Foreign direct investment is an important part of an increasingly global political economy This book explores the consequences of this investment in six countries in the Global South The country comparison chapters detail the political and economic situations of these countries and their policies and experiences with foreign direct investment One chapter examines the statistical patterns among foreign direct investment and its expected outcomes The analysis indicates that the effects of foreign direct investment are shaped by existing development patterns

Resource Abundance and Economic Development R. M. Auty, 2001-06-28 Since the 1960s the per capita incomes of the resource poor countries have grown significantly faster than those of the resource abundant countries In fact in recent years economic growth has been inversely proportional to the share of natural resource rents in GDP so that the small mineral driven economies have performed least well and the oil driven economies worst of all Yet the mineral driven resource rich economies have high growth potential because the mineral exports boost their capacity to invest and to import *Resource Abundance and Economic Development* explains the disappointing performance of resource abundant countries by extending the growth accounting framework to include natural and social capital The resulting synthesis identifies two contrasting development trajectories the competitive industrialization of the resource poor countries and the staple trap of many resource abundant countries The resource poor countries are less prone to policy failure than the resource abundant countries because social pressures force the political state to align its interests with the majority poor and follow relatively prudent policies Resource abundant countries are more likely to engender political states in which vested interests vie to capture resource surpluses rents at the expense of policy coherence A longer dependence on primary product exports also delays industrialization heightens income inequality and retards skill accumulation Fears of Dutch disease encourage efforts to force industrialization through trade policy to protect infant industry The resulting slow maturing manufacturing sector demands transfers from the primary sector that outstrip the natural resource rents and sap the competitiveness of the economy The chapters in this collection draw upon historical analysis and models to show that a

growth collapse is not the inevitable outcome of resource abundance and that policy counts Malaysia a rare example of successful resource abundant development is contrasted with Ghana Bolivia Saudi Arabia Mexico and Argentina which all experienced a growth collapse The book also explores policies for reviving collapsed economies with reference to Costa Rica South Africa Russia and Central Asia It demonstrates the importance of initial conditions to successful economic reform

Capital, Power, And Inequality In Latin America Sandor Halebsky, Richard L Harris, Elizabeth W Dore, John Kirk, Michael Kearney, 2018-10-08 Over the last two decades economic political and social life in Latin America has been transformed by the region's accelerated integration into the global economy Although this transformation has tended to exacerbate various inequities new forms of popular expression and action challenging the contemporary structures of capital and power have also developed This volume is a comprehensive genuinely comparative text on contemporary Latin America In it an international group of contributors offer multidimensional analyses of the historical context contemporary character and future direction of rural transformation urbanization economic restructuring and the transition to political democracy In addition individual essays address the changing role of women the influence of religion the growth of new social movements the struggles of indigenous peoples and ecological issues Finally the book examines the influence of U S policy and of regionalization and globalization on the Latin American states Sandor Halebsky is professor of sociology at Saint Mary's University in Halifax Nova Scotia He coedited *Cuba in Transition Crisis and Transformation* Westview 1992 Richard L Harris is chair of the faculty at Golden Gate University in Monterey California He is one of the coordinating editors of the journal *Latin American Perspectives* and the author of *Marxism Socialism and Democracy in Latin America* Westview 1992

Property Without Rights Michael Albertus, 2021-01-07 A new understanding of the causes and consequences of incomplete property rights in countries across the world **Practice Of Change** Barbara J. Balliet, Kerrissa Heffernan, 2023-07-03 This volume seventh in the *Service Learning in the Disciplines* Series explores the important lessons women's history and women's studies hold for the broader service learning community and the critical opportunity for women's studies to reconnect with its activist past The book includes essays with real examples of service learning projects in women's studies and lists an extensive bibliography of service learning and women's studies sources **The New**

Economic Model in Latin America and Its Impact on Income Distribution and Poverty Victor Bulmer-Thomas, 1996-03-25 The economies of Latin America have undergone a deep process of change in the last decade as a result of the application of major reforms The outcome can be fairly described as a New Economic Model This New Economic Model is distinguished from its predecessor in force before the 1980s debt crisis by an emphasis on market forces and export led growth This book explores the main features of the New Economic Model in Latin America and through analysis of the reform process and case studies examines its impact on income distribution and poverty **Radical Inequalities** Nara Dillon, 2020-05-11 The Chinese Communist welfare state was established with the goal of eradicating income inequality But

paradoxically it actually widened the income gap undermining one of the most important objectives of Mao Zedong's revolution Nara Dillon traces the origins of the Chinese welfare state from the 1940s through the 1960s when such inequalities emerged and were institutionalized to uncover the reasons why the state failed to achieve this goal Using newly available archival sources Dillon focuses on the contradictory role played by labor in the development of the Chinese welfare state At first the mobilization of labor helped found a welfare state but soon labor's privileges turned into obstacles to the expansion of welfare to cover more of the poor Under the tight economic constraints of the time small temporary differences evolved into large entrenched inequalities Placing these developments in the context of the globalization of the welfare state Dillon focuses on the mismatch between welfare policies originally designed for European economies and the very different conditions found in revolutionary China Because most developing countries faced similar constraints the Chinese case provides insight into the development of narrow unequal welfare states across much of the developing world in the postwar period

Economic Sanctions R. Eyler, 2007-12-09 This book looks at economic sanctions using a political economy foundation The author investigates the effectiveness of sanctions and the human suffering caused by them from a political and economic vantage addressing political decisions case studies and game theory explanations as well as discussing the future of sanctions as statecraft

The Predator Culture Fred Harrison, 2010-06-01 Drawing on case studies of organized violence ranging from territorial wars and colonial conquests to non state variants such as organized crime this record offers a general theory to account for the use of force in both the state and civil sectors of society Challenging the popular views that the dominant forms of violence are due to failings of human nature this volume suggests that the laws and institutions favoring an approach to property rights that encourage rent seeking are responsible Addressing issues such as genocide and the gap between the rich and poor this record proposes policies to dismantle the incentives that nurture the resort to violence by redistributing power to the individual

The Ethical Foundations of the Market Economy Horst Siebert, 1994

Inequality in Latin America David M. De Ferranti, 2004-01-01 Latin America and the Caribbean has been one of the regions of the world with the greatest inequality This book explores why the region suffers from such persistent inequality identifies how it hampers development and suggests ways to achieve greater equity in the distribution of wealth incomes and opportunities The study draws on data from 20 countries based on household surveys covering 36 million people and reviews extensive economic sociological and political science studies on inequality in Latin America Four broad areas for action by governments and civil society groups to break the destructive pattern are outlined 1 build more open political and social institutions that allow the poor and historically subordinate groups to gain a greater share of agency voice and power in society 2 ensure that economic institutions and policies seek greater equity through sound macroeconomic management and equitable efficient crisis resolution institutions that avoid the large regressive redistributions that occur during crises and that allow for saving in good times to enhance access by the poor to social safety nets in bad times 3 increase access by the

poor to high quality public services especially education health water and electricity as well as access to farmland and the rural services and protect and enforce the property rights of the urban poor 4 reform income transfer programmes so that they reach the poorest families
