Borras, 2007-09-06 Using empirical case materials from the Philippines and referring to rich experiences from different countries historically this book offers conceptual and practical conclusions that have far reaching implications for land reform throughout the world Examining land reform theory and practice this book argues that conventional practices have excluded a significant portion of land based production and distribution relationships while they have inadvertently included land transfers that do not constitute real redistributive reform By direct implication this book is a critique of both mainstream market led agrarian reform and conventional state led land reform It offers an alternative perspective on how to move forward in theory and practice and opens new paths in land policy research *Land, Poverty and Livelihoods in an Era of Globalization* A. Haroon Akram-Lodhi, Saturnino M. Poverty and Neoliberalism Ray Bush, 2007-04-20 Why do so many people worldwide suffer hunger and poverty when there is enough food and other resources globally to prevent it This book shows how famine and food insecurity are an essential part of modern capitalism Although trade debt relief and development initiatives are important they do not alter the structure of the global economy and poverty continues to be created by processes like privatisation trade liberalisation and

market reform Despite the end poverty rhetoric of the World Bank and the G8 these high levels of poverty sustain Western wealth and power Is there any hope for change Using case studies from Egypt and North Africa Nigeria Sudan and elsewhere in sub Saharan Africa Ray Bush illustrates that there is resistance to neoliberal policies and that struggles over land mining and resources can shape real alternatives to existing globalisation **From Independence to Revolution** Gillian

Kennedy,2017-10-01 From Independence to Revolution tells the story of the complicated relationship between the Egyptian population and the nation s most prominent political opposition the Islamist movement Most commentators focus on the Muslim Brotherhood and radical jihadists constantly vying for power under successive authoritarian rulers from Gamal Abdul Nasser to General Abdel Fattah el Sisi Yet the relationship between the Islamists and Egyptian society has not remained fixed Instead groups like the Muslim Brotherhood radical jihadists and progressive Islamists like Tayyar al Masri have varied in their responses to Egypt s socio political transformation over the last sixty years thereby attracting different sections of the Egyptian electorate at different times From bread riots in the 1970s to the 2011 Tahrir Square uprising and the subsequent election of the Muslim Brotherhood s Mohamed Morsi in 2012 Egypt s Islamists have been countering authoritarian elites since colonial independence This book is based on the author s fieldwork interviews in Egypt and builds on comparative political approaches to the topic It offers an account of Egypt s contesting actors demonstrating how a consistently fragmented Islamist movement and an authoritarian state have cemented political instability and economic decline as a persistent trend *The Limits of Economic Reform in El Salvador* W. Pelupossy,1997-09-22 El Salvador is a small

developing country that has undergone important processes of agrarian change and suffered the consequences of a 12 year civil war which ended with a peace agreement in the 1990s Economic reforms have given insufficient weight to history institutions and politics This book will show that to improve their efficiency there is a need to consider how both economic and political variables have affected social structures and institutions To be sustainable reforms should aim at an appropriate balance between growth and distribution The outcomes of this research question some commonly accepted theses on agrarian transformation state autonomy and the role of economic policy and foreign intervention in El Salvador and Central America in general *The Invisible Line* Henri A.L. Dekker,2017-03-02 During the past two decades there has been a

resurgence of interest in issues of land reform in developing and transitional countries This has been initiated by the large scale re distributive activities in former communist countries and by the growing number of claims by displaced indigenous population groups to restore their rights to land This book provides a timely and clear overview of the historical and theoretical context of current land reform and tenure issues Illustrated with global case studies from Europe Asia Africa and Latin America key sections explore land and rights to land property land tenure and reform and land registration Beginning by discussing the need to demarcate space by creating invisible lines which give certainty to what extent authority over land can be established the book then explores legal and theoretical definitions of land and property and looks at the various

different policies and forms of land tenure One of the most recent developments in land reform policy has been to look to traditional forms of access to land and of resource conservation The book argues that while such policies on land property rights have great potential they are best being adopted in a long term incremental way It also shows how land policy reforms must be embedded in institutional and general policy reforms complemented by rural development and educational opportunities for beneficiaries The book summarises the main principles of land reform activities and practices and argues that the perception of land tenure security is the most critical factor of success to land reform Bibliography on Law and Developing Countries Brian Z. Tamanaha,1995-10-20 Law of the Sea **The New Authoritarianism in the Middle East and North Africa** Stephen J. King,2009-10-28 Ultimately King s forward thinking analysis offers a way to enhance the prospects for democracy in the Middle East and North Africa Gender, Politics and the State Vicky Randall,Georgina Waylen,1998 Over the last two decades our understanding of the relationship of gender politics and the state has been transformed almost beyond recognition by the mutual interrogation of feminism and political science This volume provides an overview of this dynamic and growing field which reflects both its expanding empirical scope and the accompanying theoretical development and debate The first three essays focus primarily on conceptual and theoretical issues the meaning of gender the state s role in the construction of gender within the public and private sphere and the political representation of gender differences within liberal democracy The remaining six provide analyses of more concrete issues of state policy and participation in differeing national political contexts abortion politics in Ireland the local politics of prostitution in Britain the impact on women s political participation of economic change in China Latin America and political change in Russia and the gender impact of state programmes of land reform **Development and Rights** Christian Lund,2013-10-23 This collection of essays hand explores a major undercurrent of the debate on rights namely the question of universalism and cultural relativism It also explores how rights are claimed and contested vindicated and politicized and in different ways transform social practice **The Political Economy of Market-based Land Reform** Mohamad Riad El Ghonemy,1999 **Power, Gender and Social Change in Africa** Raj Bardouille,Margaret Grieco,2009-03-26 Gender plays a hugely significant and too often under considered role in predicting how accessible resources such as education wage based employment physical and mental health care adequate nutrition and housing will be to an individual or community According to a 2001 World Bank report titled Engendering Development Through Gender Equality in Rights Resources and Voice enormous disparities exist between men and women in terms of basic rights and the power to determine the future both in Africa and around the globe A better understanding of the links between gender public policy and development outcomes would allow for more effective policy formulation and implementation at many levels This book through its discussion of the challenges achievements and lessons learned in efforts to attain gender equality sheds light on these important issues The book contains chapters from an interdisciplinary group of scholars including sociologists economists political scientists scholars of law anthropologists
