Political Leaders And Peacemakers:

Political Leadership and the Northern Ireland Peace Process C. Gormley-Heenan, 2006-11-14 By providing a critical interpretation of political leadership during the Northern Ireland peace process Gormley Heenan shows the leadership lens offers insights not offered by conventional analyses of peacemaking processes The book discusses the confusions contradictions and chameleonic nature of leadership and its role capacity and effect

The Political Economy of Peacemaking Achim Wennmann, 2010-12-14 This book focuses on the economic dimensions of peace processes and examines the opportunities and constraints for assisting negotiated exits out of conflict Various works have addressed the economic characteristics and consequences of armed conflicts over the past two decades including issues such as blood diamonds natural resource wars economically motivated armed violence self financing conflict or the complicity of companies and state elites in conflict economies However rather than treating these issues as obstacles for peace this book explores whether they can be opportunities for peacemaking by adopting a political economy perspective The book looks at income sharing from natural resources as an opportunity for forward looking peacemaking strategies and the implications of deal making in situations in which war economies and insecurity provide strongmen with disproportionate political and economic power The book also highlights that peace processes are not necessarily about the rectification of a conflict's root causes but rather about what matters most to the main stakeholders at the moment when a peace process starts taking shape Finally efforts to establish a lasting peace need to go beyond the traditional set of actors associated with peace processes The strategic involvement of donor agencies companies and diaspora communities can strengthen forward looking peace processes The book will help both student and practitioner audiences to better understand armed conflicts and their belligerents optimize the planning and management of peace initiatives and shape expectations in peace agreements It will be of much interest to students of peacebuilding conflict studies development studies International Political Economy and International Relations in general

Peacemakers James W. Pardew, 2018-01-05 The wars that accompanied the breakup of Yugoslavia in the 1990s were the deadliest European conflicts since World War II The violence escalated to the point of genocide when over the course of ten days in July 1995 Serbian troops under the command of General Ratko Mladic murdered 8 000 unarmed men and boys who had sought refuge at a UN safe haven in Srebrenica Shocked the United States quickly launched a diplomatic intervention supported by military force that ultimately brought peace to the new nations created when Yugoslavia disintegrated Peacemakers is the first inclusive history of the successful multilateral intervention in the Balkans from 1995 2008 by an official directly involved in the diplomatic and military responses to the crises A deadly accident near Sarajevo in 1995 thrust James Pardew into the center of efforts to stop the fighting in Bosnia In a detailed narrative he shows how Richard Holbrooke and the US envoys who followed him helped to stop or prevent vicious wars in Bosnia Croatia Kosovo and Macedonia Pardew describes the human drama of diplomacy and war illuminating the motives

character talents and weaknesses of the national leaders involved Pardew demonstrates that the use of US power to relieve human suffering is a natural fit with American values Peacemakers serves as a potent reminder that American leadership and multilateral cooperation are often critical to resolving international crises *Navajo Nation Peacemaking* Marianne O. Nielsen, James W. Zion, 2005-09-01 Navajo peacemaking is one of the most renowned restorative justice programs in the world Neither mediation nor alternative dispute resolution it has been called a horizontal system of justice because all participants are treated as equals with the purpose of preserving ongoing relationships and restoring harmony among involved parties In peacemaking there is no coercion and there are no sides No one is labeled the offender or the victim the plaintiff or the defendant This is a book about peacemaking as it exists in the Navajo Nation today describing its origins history context and contributions with an eye toward sharing knowledge between Navajo and European based criminal justice systems It provides practitioners with information about important aspects of peacemaking such as structure procedures and outcomes that will be useful for them as they work with the Navajo courts and the peacemakers It also offers outsiders the first one volume overview of this traditional form of justice The collection comprises insights of individuals who have served within the Navajo Judicial Branch voices that authoritatively reflect peacemaking from an insider's point of view It also features an article by Justice Sandra Day O'Connor and includes contributions from other scholars who with the cooperation of the Navajo Nation have worked to bring a comparative perspective to peacemaking research In addition some chapters describe the personal journey through which peacemaking takes the parties in a dispute demonstrating that its purpose is not to fulfill some abstract notion of Justice but to restore harmony so that the participants are returned to good relations Navajo Nation Peacemaking seeks to promote both peacemaking and Navajo common law development By establishing the foundations of the Navajo way of natural justice and offering a vision for its future it shows that there are many lessons offered by Navajo peacemaking for those who want to approach old problems in sensible new ways

Ripsman,2016-05-05 In *Peacemaking from Above Peace from Below* Norrin M Ripsman explains how regional rivals make peace and how outside actors can encourage regional peacemaking Through a qualitative empirical analysis of all the regional rivalries that terminated in peace treaties in the twentieth century including detailed case studies of the Franco German Egyptian Israeli and Israeli Jordanian peace settlements Ripsman concludes that efforts to encourage peacemaking that focus on changing the attitudes of the rival societies or democratizing the rival polities to enable societal input into security policy are unlikely to achieve peace Prior to a peace treaty he finds peacemaking is driven by states often against intense societal opposition for geostrategic reasons or to preserve domestic power After a formal treaty has been concluded the stability of peace depends on societal buy in through mechanisms such as bilateral economic interdependence democratization of former rivals cooperative regional institutions and transfers of population or territory Society is largely

irrelevant to the first stage but is critical to the second He draws from this analysis a lesson for contemporary policy Western governments and international organizations have invested heavily in efforts to promote Israeli Palestinian and Indo Pakistani peace by promoting democratic values economic exchanges and cultural contacts between the opponents Such attempts to foster peace are likely to waste resources until such time as formal peace treaties are concluded between longtime adversaries
