Political Learning Among the Migrant Poor Wayne A. Cornelius, 1973 **Political Learning Among the Migrant Poor** Wayne A. Cornelius, 1973 Social Change and Political Participation in Turkey Ergun Ozbudun, 2015-03-08 Scholars have long argued that political participation tends to increase with economic and social modernization. In this study of Turkey, however, the author shows that rapid socio-economic growth has coincided with a substantial decline in turnout at the polls. His ecological analysis of subnational aggregate voting data for the sixties and the explanation of his startling findings form the core of this up-to-date and comprehensive survey of Turkey's political development. Turkey is one of very few countries to combine rapid socio-economic change with a democratic system. The author demonstrates that in this context, modernization tends to increase autonomous, instrumental, and class-based political participation and to decrease mobilized, deferential, and communal-based political participation. The topics he examines include social cleavages and the party system, distribution of land and income, geographical and social mobility, access to education, regional variations in voting turnout, urban-rural differences in voting behavior, socio-economic correlates of voting activity and party votes, and patterns of participation among peasants and the urban poor. Originally published in 1977, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **Political Violence, Crises and Revolutions (Routledge Revivals)** Ekkart Zimmermann, 2013-04-15 First published in 1983, this extraordinary study provides a comprehensive systematic evaluation of cross-national theorizing and quantitative empirical evidence on four interrelated phenomena: Political violence, Crises, Military Coups, and Revolutions. Findings from social psychological research on aggression are integrated in this outstanding study, as well as results reported in social historical studies of revolution. The focus of the book is always on analytical perspectives and corresponding empirical evidence. The author continually highlights the sociostructural and political conditions of political violence, crises, and revolutions. This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science—political violence, crises, and revolutions—also includes a remarkable bibliography encompassing over 3000 items. Poverty and Democracy Dirk Berg-Schlosser, Norbert Kersting, 2003-06-28 Publisher Description African Politics and Society in the 21st Century Tyodzua Atim, 2013-07-30 After more than one hundred years of statehood, most African countries are still facing serious challenges of political instability, low growth, underdevelopment, and stagnation. These challenges have created a dysfunctional African society and destroyed the heroic and proud myth of resilience and hard work associated with a typical African. The book has analyzed the trends and dynamics of the breakdown of family and institutional values which have

necessitated the classification of most African states as failed While the book is of the opinion that in as much as the relationship between Africa and the West has contributed to the continents current predicaments Africas problems are predominantly self induced and are traced from the stereotypical culture of lack of idealism The book has empirically demonstrated that this culture has hindered initiative and promoted mediocrity deceit and tyranny on the part of African leadership while the politics of exclusion has promoted the culture of self resignation and fratricidal conflicts on the continent The book has also proved that the current wave of democratization in Africa particularly the electoral process as dramatized rituals that seek to legitimate the authority of the ruling class **1974 Annual Supplement** Joan Schmitz Bergholt,2013-12-21 *The Gecekond* Kemal H. Capital, Power, And Inequality In Latin America Sandor Halebsky,2018-10-08 Over the last two decades economic political and social life in Latin America has been transformed by the region s accelerated integration into the global economy Although this transformation has tended to exacerbate various inequities new forms of popular expression and action challenging the contemporary structures of capital and power have also developed This volume is a comprehensive genuinely comparative text on contemporary Latin America In it an international group of contributors offer multidimensional analyses of the historical context contemporary character and future direction of rural transformation urbanization economic restructuring and the transition to political democracy In addition individual essays address the changing role of women the influence of religion the growth of new social movements the struggles of indigenous peoples and ecological issues Finally the book examines the influence of U S policy and of regionalization and globalization on the Latin American states Sandor Halebsky is professor of sociology at Saint Mary s University in Halifax Nova Scotia He coedited *Cuba in Transition Crisis and Transformation* Westview 1992 Richard L Harris is chair of the faculty at Golden Gate University in Monterey California He is one of the coordinating editors of the journal *Latin American Perspectives* and the author of *Marxism Socialism and Democracy in Latin America* Westview 1992 **Democracy in Ghana** Jeffrey W. Paller,2019-03-07 Rapid urbanization and political liberalization is changing the nature of African politics and societies This book develops a framework for the study of democracy and development that emphasizes informal institutions and the politics of belonging in the context of daily life in contrast to the formal and electoral paradigms that dominate the social

sciences Based on fifteen months of field research including ethnographic observation focus group interviews and original quantitative survey analysis in Ghana this book intervenes in major debates about public goods provision civic participation ethnic politics and democratization and the future of urban sustainability in a rapidly changing world By developing new understandings of democracy as well as providing novel explanations for good governance and development in poor urban neighborhoods the book transcends the narrative of a failing and corrupt Africa and charts a new way forward for the study of democracy and development

Decentralization, Democratization, and Informal Power in Mexico Andrew Selee, 2015-10-20 In the last two decades of the twentieth century many countries in Latin America freed themselves from the burden of their authoritarian pasts and developed democratic political systems At the same time they began a process of shifting many governmental responsibilities from the national to the state and local levels Much has been written about how decentralization has fostered democratization but informal power relationships inherited from the past have complicated the ways in which citizens voice their concerns and have undermined the accountability of elected officials In this book Andrew Selee seeks to illuminate the complex linkages between informal and formal power by comparing how they worked in three Mexican cities The process of decentralization is shown to have been intermediated by existing spheres of political influence which in turn helped determine how much the institution of multiparty democracy in the country could succeed in bringing democracy closer to home

Parties, Elections, and Political Participation in Latin America Jorge I Dominguez, 2014-02-04 First Published in 1994 This is Volume five of seven of a collection of essays that gathers together scholarly debates from the 1950s to the 1990s on Mexico Central and South America This text looks at topics such as government parties in Latin America the Mexican elections of 1958 political campaigning the scope of the Chilean Party systems the case of Peronism and electoral change amongst others

Informal Citizen Action and Crime Prevention at the Neighborhood Level Stephanie W. Greenberg, 1985

Megacity Seoul Yu-Min Joo, 2018-12-14 In Asia there are a growing number of gigantic megacities accompanied by a series of speculative and extravagant megaprojects Amid the fast paced urban and development challenges many Asian governments have been searching for replicable and inspirational cases in Asia South Korea and its capital city Seoul are among frequently referenced models However South Korea's economic miracle in the late twentieth century has been mostly studied through an economic policy lens This book revisits the development of South Korea by looking at its urban dimension and exploring the city of Seoul as a developmental megaproject Offering an alternative to the focus on economic policies when it comes to explaining South Korea's development successes Joo looks at the urbanization that took place under the guidance of the strong developmental state She provides empirical evidence of the property state at work both complementing and supporting the developmental state She also analyzes why and how Seoul was able to emerge as an important Asian global city and a global front runner in terms of ambitious and pioneering urban investments despite its relatively recent history marked by massive slums and urban poverty This book provides an analytical framework for

studying South Korea's modern development under capitalism as a precursor to East Asian urbanism and development. It paints a comprehensive story of how cities have been politically and economically important to Korea's development experience and are increasingly becoming a new mode of development. **Access to Power** Joan M. Nelson, 2017-03-14

Joan Nelson elucidates the implications of this rapid growth and concomitant poverty for politics. Unlike many scholars who have sought an all-encompassing theory to explain the political behavior of the urban poor, Professor Nelson emphasizes the complex variety in the economic, social, and political circumstances that influence this behavior. Originally published in 1979, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **Saudi Arabia** Fouad Al-Farsy, 2023-10-12 Saudi Arabia 1986 is a major study of the political and administrative development of Saudi Arabia following its establishment as a leading world exporter of oil. It looks at the status of oil in the development of the state as well as the political systems of government in the Kingdom.

Urban China in Transition John Logan, 2011-07-22 Using an innovative approach, this book interprets the unprecedented transformation of contemporary China's major cities. It deals with a diversity of trends and analyzes their sources. Offers a multi-dimensional analysis of urban life in China. Highlights a diversity of trends in the areas of migration, criminal victimization, gated communities, and the status of women, suburbanization, and neighbourhood associations. Each chapter includes input from both an expert on urban life in China and an outside expert from the fields of sociology, geography, economics, planning, political science, history, demography, architecture, or anthropology. An alternative theoretical perspective comparing the Chinese experience with other urban settings in the United States, Poland, Russia, Vietnam, East and South East Asia, and South America.
