Telling Political Lives Brenda DeVore Marshall, Molly A. Mayhead, 2008-06-24 This book investigates the autobiographical writings of Barbara Jordan Patricia Schroeder Geraldine Ferraro Elizabeth Dole Wilma Mankiller Hillary Rodham Clinton Madeleine Albright and Christine Todd Whitman These eight women represent the diversity that permeates the cultural backgrounds life adventures and ideologies women bring to the political table From differences in race class and geographic location to variations in personal and family experiences religious beliefs and political ideology these women illustrate many of the divergent standpoints from which women craft their lives in the United States Each essay focuses on the autobiographical text as political discourse and therefore as an appropriate site for the rhetorical construction of a personal and civic self situated within local and national political communities The collection examines issues such as the intersection between the politicization of the private and the personalization of the public evident in the women s narratives the description of U S politics the women provide in their writings the ways in which the women s personal stories craft arguments about their political ideologies the strategies these women leaders employ in navigating the gendered double binds of politics and the manner in which the women s discourse serves to encourage instruct and empower future women leaders The analyses embody and explicate the political and rhetorical strategies these leaders employ in their efforts to act on their convictions highlight the need for and reality of women s involvement in all levels of politics and serve as an impetus and inspiration for scholars and activists alike

*The Political Lives of Postwar British MPs* Emma Peplow, Priscila Pivatto, 2020-08-06 Parliament is Britain s most important political institution yet its workings remain obscure to academics and the wider public alike MPs are often seen as out of touch or all the same and their individual motivations achievements and regrets remain in the background of party politics In this book Emma Peplow and Priscila Pivatto draw on the History of Parliament Trust s collection of oral history interviews with postwar British MPs to highlight their diverse political experiences in Parliament Featuring extracts from a collection of interviews with over 160 former MPs who sat from the 1950s until the 2000s *The Political Lives of Postwar British MPs* gives a voice to those MPs stories It explores why they became interested in politics how they found their seat and fought election campaigns what it felt like to speak in the chamber and how their class or gender dictated their experiences at Westminster In the process readers will be given rare glimpse into the spaces inhabited by MPs the political rivalries and friendships and the rising and falling of their careers With accounts from MPs of all political stripes from the well known like David Owen and Ann Taylor to those who sat for just a few years such as Denis Coe from old political families like Douglas Hurd to those like Maria Fyfe who felt themselves outsiders this book provides deep insight into the political lives of MPs in our age

The Political Lives of Dead Bodies Katherine Verdery, 1999-04-07 Since 1989 scores of bodies across Eastern Europe have been exhumed and brought to rest in new gravesites Katherine Verdery investigates why certain corpses the bodies of revolutionary leaders heroes artists and other

luminaries as well as more humble folk have taken on a political life in the turbulent times following the end of Communist Party rule and what roles they play in revising the past and reorienting the present Enlivening and invigorating the dialogue on postsocialist politics this imaginative study helps us understand the dynamic and deeply symbolic nature of politics and how it can breathe new life into old bones *Norms Under Siege: The Parallel Political Lives of Donald Trump and Silvio Berlusconi* Edoardo M Fracanzani,2021-06-25 A look at the striking similarities between Donald Trump and Silvio Berlusconi from their business and TV backgrounds to the unprecedented way in which they broke into politics Both leaders introduced new language patterns deepened the political wedge between parties and managed to recruit a significant base of followers should they be considered a cult rather than political affiliation In *Norms Under Siege* Edoardo M Fracanzani goes beyond comparisons between Trump and Berlusconi and asks what is revealed about the kind of society that would allow their rise to power **Life in the Political Machine** Jonathan T. Hiskey,Mason W. Moseley,2020-06-26 Whether in the northern provinces of Argentina the central states of Mexico or the southern states of the United States less than democratic subnational regimes are often found within democratic national political systems However little is known about how or if these subnational pockets foster political attitudes and behavior that threaten the democratic norms that exist at the national level *Life in the Political Machine* offers one of the first systematic explorations of the ways in which subnational dominant party enclaves influence citizens political attitudes and behaviors through a focus on the provinces and states of Argentina and Mexico Specifically the authors find starkly divergent patterns of political attitudes and behaviors among citizens in dominant party enclaves as opposed to those living in competitive multiparty systems In the latter the authors find a political culture that approximates what scholars have long documented in established democracies In the former they uncover three factors the politicization of the rule of law an uneven electoral playing field and the partisan cooptation of state resources that strongly shape citizens understanding of democratic principles accountability and political participation The authors argue that this environment erodes public support for democracy at the national level and that these local strongholds of illiberalism thus provide added fuel to the recent drift from democracy globally Ultimately this book calls for greater attention to subnational variations in citizens political attitudes and behaviors in order to more fully understand the process through which a national democratic political culture can emerge *Annals of the American Academy of Political and Social Science* ,1922 **Comedy of Human Life: The Chouans.
