Annotation This is the first edition in any language of all of Max Weber s writings on academic and political vocations The translation is new and liberally annotated including a look at Weber s personality and what it was that made him such a phenomenon Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation *Wissenschaft als Beruf* 1917 and Politics as a Vocation *Politik als Beruf* 1919 as well as in a series of newspaper articles including those written between 1908 and 1920 Since these writings are of more than historical interest there was a need to bring them all together in a single volume Newly translated and annotated this collection comprises both lectures plus 32 articles which Weber wrote on academia Most of these have not been translated before In the Introduction Prof John Dreijmanis relates the academic and political vocations to each other conceptually showing that there is considerable overlap and some convergence the need for passion an inward calling as well as career insecurity both vocations Dreijmanis then examines the person of Weber and provides a new view of him in part through the lens of Carl C Jung s theory of psychological types as further developed by the Myers Briggs Type Indicator MBTI As an extravert with a powerful thinking function and intellect he was driven to take an interest in events outside himself and to speak his mind Coming after a long line of introverted German philosophers he was a phenomenon The new translations by Gordon C Wells are more faithful to Weber s style of expression and they correct an accumulation of errors of previous translations in the oft translated essays on Politics and Science Contains Glossary Bibliography Names Index Subject Index **Instructions to political officers on**
