Politics and Change in Singapore and Hong Kong Stephan

Ortmann,2009-12-04 In democratization theory Singapore continues to be a remarkable country for its extremely low level of contentious politics despite rapid economic development In contrast many different groups in Hong Kong have taken their demands to the streets since the 1970s Even though there is an obvious difference in the willingness of the population to actively challenge the regime the political developments of the two city states show a similar pattern of political mobilization and government reaction This book examines the changing pattern of contentious politics in the democratization process of these Asian city states It explores the causal connections between popular contention and democratization using a multi disciplinary approach with theoretical insights from the political sciences sociology and psychology The political process model is applied to provide further understanding of the patterns of interaction between contenders opposition groups or social movements and the ruling elite The book argues that differences in the strategies applied by the ruling elite explain why members of the opposition were empowered or obstructed in challenging the government

Hong Kong's Tortuous Democratization Ming Sing,2004-08-02 This book raises interesting questions about the process of democratization in Hong Kong It asks why democracy has been so long delayed when Hong Kong's level of socio economic development has become so high It relates democratization in Hong Kong to wider studies of the democratization process elsewhere and it supplements the received wisdom that democracy was delayed because of colonial rule and by the opposition of China with new thinking for example that its quasi bureaucratic authoritarian political structure vested power in bureaucrats who refused to have top down democratization a politically weak civil society and a non participant political culture that crippled bottom up democratization plus the division between pro democratic civil society and political society

China's Policies on Its Borderlands and the International Implications Yufan Hao,Bill K. P. Chou,2011 This book examines the interplay of two sets of policies the Chinese government s policies to its borderlands and international relations It proposes a conceptual framework and argues that China s policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen

China's relations with other countries neighboring ones in particular. As a result, these foreign policies reflect the political elites' inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration. Therefore, these policies center on the pursuit of central control through exercising administrative military coercion, making the borderlands economically dependent, standardizing the cultural identity, and indoctrinating CCP-defined ideology. The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime. China's international image and the relations with its neighbouring countries.

Out of the Shadow of 1997? Hsin-chi Kuan, 2002

Hong Kong's Legislative Council Elections have been riddled with difficulties. The first partial elections introduced in 1991 were tainted by the traumatic memories of the events of June 4, 1989. The elections of 1995 bore the marks of the bitter Sino-British controversies over Hong Kong's political reforms. As a result of the derailed through train, the first general election after the change of sovereignty to China in 1997 produced a two-year successor to the Provisional Legislative Council, which in turn was troubled by the Asian Financial Crisis. In light of this, the elections held in September 2000 offered Hong Kong a new lease on life. A full four-year term legislature was thus elected under conditions that were relatively free from the issues that characterized 1997 uncertainties over the political future of Hong Kong, the attendant anxieties of the Hong Kong people, and the tortuous struggle over reform initiatives among the political powers. This book draws on a wide range of local and overseas expertise to provide an in-depth study of the various aspects of the 2000 Legislative Council elections in Hong Kong. These aspects include the basic conditions under which the elections took place, the role of labor, the District Councilors, and media reporting the decisive effect of the proportional representation system, factionalism in the Democratic Party, voting propensity, and the issues of identity, campaign finance, democratization, and the degree of political participation.

Health Insurance Reforms in Asia Sabrina Luk, 2014-03-26

This book empirically examines health care financing reforms and popular responses in three major cities in East Asia: Shanghai, Singapore, and Hong Kong. It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades. It also examines forces that propel institutional change. The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them. It shows that health care systems in Shanghai, Singapore, and Hong Kong were the products of Western presence in the nineteenth century. It illustrates how greater attention is paid to the roles played by ideas, actors, and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms. It shows that health care financing reform is shaped by a complex interplay of forces over time. It also provides the most updated material about health care financing reforms in Shanghai, Singapore, and Hong Kong. The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process.

revealing an intricate interplay of power relationships and diverse interests It shows that institutional changes in health care financing system can be incremental but transformative in nature It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change Taiwanese Identity in the 21st Century Gunter Schubert,Jens Damm,2012-01-30 As we look to enter the second decade of the 21st century Taiwan s quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics From here it spills over into the cross Strait relationship and impacts on regional and global security Whether Taiwan is a nation state or whether Taiwan has any claim to be a nation state and how Taiwan should relate to China are issues which have long been hotly debated on the island although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan s claim to sovereignty as the Republic of China The collection of chapters in this book shed light on very different aspects of Taiwan s current state of identity formation from historical political social and economic perspectives both domestically and globally As such it will be invaluable reading for students and scholars of Taiwan studies politics history and society as well as those interested in cross Strait relations Chinese politics and Chinese international relations
