T&T Clark Handbook of Neo-Calvinism Nathaniel Gray Sutanto, Cory Brock, 2024-01-25 Neo Calvinism critically advances Reformed orthodoxy for the sake of modern life Birthed in the Netherlands at the turn to the twentieth century initiated by Abraham Kuyper 1837 1920 and Herman Bavinck 1854 1921 it argued that a life before God entailed the leavening of faith over all human existence While the movement originated in the Netherlands the tradition now has a global reach with practitioners and thinkers applying its insights in diverse ways and in their own contexts This handbook is a genealogical introduction to this lively and modern branch of the Reformed tradition with contributors that reflect its global reach Its four sections chart the theological roots important original figures historical contours and the contemporary influence of neo Calvinism across a diversity of fields *The Constitution of a Federal Commonwealth* Nicholas Aroney, 2009-02-19 This book describes how ideas about federalism influenced those who drafted the Australian Constitution *Covenant Lord and Cultic Boundary* Michael Beck, 2023-02-02 The Reformed Two Kingdom project has generated a great deal of literature However this literature is often characterized by inflamed rhetoric Further though it is standard fare to assume that Kline was the architect of the project in reality there has been very little scholarly examination of this point In response Kline s system is analyzed through the means of a dialectical discourse with three differing models within the Reformed tradition the Theonomist Perspectivist and Dooyeweerdian schools Through this means the study keeps away from surface level polemics and instead directs readers to the critically important substructural level of current discussions While clarifying some of the key differences between Kline and his interlocutors often overlooked points of nuance are also highlighted These points are shown to be important in that they present the potential to lessen frustration and impasse in the ongoing dialogue

Herman Dooyeweerd Jonathan Chaplin, 2011 The twentieth century Dutch philosopher Herman Dooyeweerd 1894 1977 left behind an impressive canon of philosophical works and has continued to influence a scholarly community in Europe and North America which has extended critiqued and applied his thought in many academic fields Jonathan Chaplin introduces Dooyeweerd for the first time to many English readers by critically expounding Dooyeweerd s social and political thought and by exhibiting its pertinence to contemporary civil society debates Chaplin begins by contextualizing Dooyeweerd s thought first in relation to present day debates and then in relation to the work of the Dutch philosopher Abraham Kuyper 1837 1920 Chaplin outlines the distinctive theory of historical and cultural development that serves as an essential backdrop to Dooyeweerd s substantive social philosophy examines Dooyeweerd s notion of societal structural principles and sets forth his complex classification of particular types of social structure and their various interrelationships Chaplin provides a detailed examination of Dooyeweerd s theory of the state its definitive nature and its proper role vis a vis other elements of society Dooyeweerd s contributions Chaplin concludes assist us in mapping the ways in which state and civil society should be related to achieve justice and the public good This superb study simultaneously introduces and critically engages the work of

one of the most important and neglected Christian thinkers of the twentieth century while showing its connection to the pluralist tradition and bringing it to bear on the contemporary debate about civil society More than just providing an overview of Dooyeweerd's thought it seeks to advance his intellectual project and show its contemporary relevance It is essential reading not only for those interested in the neo Calvinist tradition but for anyone interested in Christian social thought structural pluralism or the nature and fate of civil society Kenneth L Grasso Texas State University The subtlety scope and insightfulness of Dooyeweerd's social philosophy were unparalleled among Protestant thinkers in the past century Yet his contributions are not well known Jonathan Chaplin promises to remedy this neglect His lucid and masterful study brings a new and transformative voice to contemporary debates about the future of a democratic society Lambert Zuidervart Institute for Christian Studies and University of Toronto Finally an authoritative book that brings to brilliant light and life Herman Dooyeweerd's Christian philosophy of law politics and society For the past half century the profound and original teachings of this prolific Dutch sage have been lost on most readers Jonathan Chaplin has rescued Dooyeweerd from his own obscure prose poor translations and cultic mystique to reveal his astonishing and engaging insights into our lives as persons and peoples rulers and citizens preachers and parishioners parents and children This will be the go to book on Dooyeweerd for many years to come John Witte Jr Emory University Herman Dooyeweerd was both deep and original Much of his writing is an articulation of rather undeveloped lines of thought in his Dutch predecessor Abraham Kuyper In the course of his exposition Chaplin effectively highlights Dooyeweerd's significance for a theory of civil society and for present day social theory in general Nicholas Wolterstorff Yale University and the Institute for Advanced Studies University of Virginia

The Covenant of Redemption John V. Fesko, 2015-12-09 The covenant of redemption *pactum salutis* the eternal intra trinitarian covenant was a common staple within Early Modern Reformed theology yet there are very few historical works that examine this doctrine J V Fesko's study *The Covenant of Redemption Origins Development and Reception* seeks to address this lacuna In the contemporary period the covenant of redemption has been derided as speculative mythological a declension from trinitarianism or erroneously derived from one or two biblical proof texts Yet seldom have critics carefully engaged the primary sources to examine the different formulations supporting exegesis and ways in which the doctrine was employed Far from speculation sub trinitarian or a cold business transaction proponents of the covenant of redemption constructed this doctrine based upon a web of interconnected biblical texts and were very sensitive to maintaining a robust doctrine of the trinity as they employed this doctrine as a bulwark against the anti trinitarian claims of Socinian theologians Proponents of the doctrine also saw this pre temporal covenant as the embodiment of intra trinitarian love that overflows unto those chosen in Christ for their salvation and ultimate fellowship with the triune God John V Fesko explores the historical origins of the doctrine and then surveys its development in the seventeenth through nineteenth centuries examining key advocates of the doctrine including David Dickson Herman Witsius Johannes Cocceius Francis Turretin Patrick

Gillespie John Gill Jonathan Edwards Charles Hodge and A A Hodge He then examines the contemporary reception of the doctrine in the twentieth century with a survey of the doctrine's critics including Karl Barth Herman Hoeksema Klaas Schilder and John Murray After exploring the claims of the critics the study moves to examine the views of twentieth century proponents including Geerhardus Vos Herman Bavinck Abraham Kuyper Louis Berkhof and G C Berkouwer

Image and Imagination in the Phenomenology of Religious Experience Martin Nitsche, Olga Louchakova-Schwartz, 2023 While human beings have probably always been fascinated by images we live in an image obsessed age in which images powerfully shape our lives The writers in this volume are keenly attentive to the ways in which we all are both image bearers and image makers Although their reflections often arise from and relate explicitly to religious imagery their explorations have much wider implications They delve deeply into such issues as the ways in which images both reveal and conceal the ways in which images are interpreted and the ways in which we use images to define ourselves and tell our stories This is a powerful volume full of thought provoking analyses of the phenomenon of the image and its role in human being in the world Topics such as embodiment mysticism ritual touch creation and suffering are explored with sensitivity nuance and insight In short the authors show us a great deal about how images embody whatever it is we take to be sacred Bruce Ellis Benson University of Nottingham This volume presents new findings on religious images in their relationship to appearance and phenomenality to being transcendence liminality reduction original self giving evidence and other topics of regressive and constitutive phenomenology Drawing on Christian Islamic and cross cultural folk testimony the volume creates an incisive reference that opens new avenues for phenomenological research

Science, Medicine and Culture Martin J. Jandl, Kurt Greiner, 2005 Constructive Realism an increasingly discussed philosophy of science founded by the Viennese philosopher of science Fritz G Wallner is the core issue of the texts gathered in this volume The authors either discuss the constructive realistic view philosophically or present their research interpreted by the constructive realistic doctrine Constructive Realism inspires philosophy as well as natural science and humanities This volume proves this inspiring feature of Constructive Realism All texts are written by colleagues friends and scholars of Fritz G Wallner to honour his 60th birthday

Who's Afraid of the Unmoved Mover? Andrew I. Shepardson, 2019-02-12 Are postmodern philosophy and Christian theology compatible A surprising number of Christian philosophers and theologians think so However these same thinkers argue that postmodern insights entail the rejection of natural theology the ability to discover knowledge about the existence and nature of God in the natural world Postmodernism they claim shows that appealing to nature to demonstrate or infer the existence of God is foolish because these appeals rely on modernity's outmoded grounds for knowledge Moreover natural theology and apologetics are often hindrances to authentic Christian faith Notions like objectivity and rationality are forms of idolatry from which Christians should repent This book carefully examines the nature of truth rationality general revelation

and evangelism to show that the postmodern objections fail and that Christians ought to lovingly and faithfully use natural theology and apologetics to defend and commend the Christian faith to a world in need of the knowledge of God
