## **Political Pilgrims Western Intellectuals In Search Of The Good Society:**

**Political Pilgrims** Paul Hollander, 2017-07-05 Why did so many distinguished Western Intellectuals from G B Shaw to J P Sartre and closer to home from Edmund Wilson to Susan Sontag admire various communist systems often in their most repressive historical phases How could Stalin s Soviet Union Mao s China or Castro s Cuba appear at one time as both successful modernizing societies and the fulfillments of the boldest dreams of social justice Why at the same time had these intellectuals so mercilessly judged and rejected their own Western liberal cultures What Impulses and beliefs prompted them to seek the realization of their ideals in distant poorly known lands How do their journeys fit into long standing Western traditions of looking for new meaning In the non Western world These are some of the questions Paul Hollander sought to answer In his massive study that covers much of our century His success is attested by the fact that the phrase political pilgrim has become a part of intellectual discourse Even in the post communist era the questions raised by this book remain relevant as many Western and especially American intellectuals seek to come to terms with a world which offers few models of secular fulfillment and has tarnished the reputation of political Utopias His new and lengthy introduction updates the pilgrimages and examines current attempts to find substitutes for the emotional and political energy that used to be invested in them

**Political Pilgrims** Edward Banfield, 2017-09-14 Why did so many distinguished Western Intellectuals from G B Shaw to J P Sartre and closer to home from Edmund Wilson to Susan Sontag admire various communist systems often in their most repressive historical phases How could Stalin s Soviet Union Mao s China or Castro s Cuba appear at one time as both successful modernizing societies and the fulfillments of the boldest dreams of social justice Why at the same time had these intellectuals so mercilessly judged and rejected their own Western liberal cultures What Impulses and beliefs prompted them to seek the realization of their ideals in distant poorly known lands How do their journeys fit into long standing Western traditions of looking for new meaning In the non Western world These are some of the questions Paul Hollander sought to answer In his massive study that covers much of our century His success is attested by the fact that the phrase political pilgrim has become a part of intellectual discourse Even in the post communist era the questions raised by this book remain relevant as many Western and especially American intellectuals seek to come to terms with a world which offers few models of secular fulfillment and has tarnished the reputation of political Utopias His new and lengthy introduction updates the pilgrimages and examines current attempts to find substitutes for the emotional and political energy that used to be invested in them

**Political Pilgrims** , 1978 Hvad var det der f r kendte vestlige intellektuelle til at beundre forskellige kommunistiske systemer og forkaste deres egne landes liberale Hvorfor s ge idealer i fjerne ikke s godt kendte lande [Red Britain](#) Matthew Taunton, 2019-04-04 Red Britain sets out a provocative rethinking of the cultural politics of mid century Britain by drawing attention to the extent diversity and longevity of the cultural effects of the Russian Revolution Drawing on new archival research and historical scholarship this book explores the conceptual discursive and formal reverberations of

the Bolshevik Revolution in British literature and culture It provides new insight into canonical writers including Doris Lessing George Orwell Dorothy Richardson H G Wells and Raymond Williams as well bringing to attention a cast of less studied writers intellectuals journalists and visitors to the Soviet Union Red Britain shows that the cultural resonances of the Russian Revolution are more far reaching and various than has previously been acknowledged Each of the five chapters takes as its subject one particular problem or debate and investigates the ways in which it was politicised as a result of the Russian Revolution and the subsequent development of the Soviet state The chapters focus on the idea of the future numbers and arithmetic law and justice debates around agriculture and landowning and finally orality literacy and religion In all of these spheres Red Britain shows how the medievalist romantic oral pastoral anarchic and ethical emphases of English socialism clashed with and were sometimes overwritten by futurist utilitarian literate urban statist and economic ideas associated with the Bolshevik Revolution

**Stalin's Library** Geoffrey Roberts, 2022-02-08 A compelling intellectual biography of Stalin told through his personal library In this engaging life of the twentieth century's most self consciously learned dictator Geoffrey Roberts explores the books Stalin read how he read them and what they taught him Stalin firmly believed in the transformative potential of words and his voracious appetite for reading guided him throughout his years A biography as well as an intellectual portrait this book explores all aspects of Stalin's tumultuous life and politics Stalin an avid reader from an early age amassed a surprisingly diverse personal collection of thousands of books many of which he marked and annotated revealing his intimate thoughts feelings and beliefs Based on his wide ranging research in Russian archives Roberts tells the story of the creation fragmentation and resurrection of Stalin's personal library As a true believer in communist ideology Stalin was a fanatical idealist who hated his enemies the bourgeoisie kulaks capitalists imperialists reactionaries counter revolutionaries traitors but detested their ideas even more

*Including a Symposium on 50 Years of the Union for Radical Political Economics* Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2019-05-07 Volume 37A of Research in the History of Economic Thought and Methodology features a symposium celebrating 50 years of the Union of Radical Political Economics and includes an archival contribution from the papers of Alvin Hansen reflecting on the influence and contributions of John R Commons

**Mobility in the Russian, Central and East European Past** Róisín Healy, 2019-03-07 The new mobilities paradigm which emerged at the beginning of the twenty first century has identified mobility as a process intrinsic to the human experience and fundamental to the formation of social and political structures This volume breaks new ground by demonstrating the role of the journey as a key motor of human development in Russia central and east Europe in the modern period It does so by means of twelve case studies that examine different types of movement both voluntary and involuntary temporary and permanent short and long distance into out of and around the region

*Censorship* Derek Jones, 2001-12-01 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

**Fighting the Last War** Jeffrey M. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been

consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing deplatforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations

*From Warm Center to Ragged Edge* Jon Lauck, 2017-06 During the half century after the Civil War intellectuals and politicians assumed the Midwest to be the font and heart of American culture Despite the persistence of strong currents of midwestern regionalism during the 1920s and 1930s the region went into eclipse during the post World War II era In the apt language of Minnesota s F Scott Fitzgerald the Midwest slid from being the warm center of the republic to its ragged edge This book explains the factors that triggered the demise of the Midwest s regionalist energies from anti midwestern machinations in the literary world and the inability of midwestern writers to break through the cultural politics of the era to the growing dominance of a coastal urban culture These developments paved the way for the proliferation of images of the Midwest as flyover country the Rust Belt a staid and decaying region Yet Lauck urges readers to recognize persisting and evolving forms of midwestern identity and to resist the forces that squelch the nation s interior voices

**China as context** Di Wu, Andrea E. Pia, Ed Pulford, 2025-09-02 Decades old calls to recognise China s significance for anthropological theory and the social sciences are more urgent than ever Yet Chinese grounded ideas remain marginal with China often seen as an Other rather than a source of widely applicable theory Drawing on East Asian postcolonial scholarship this volume argues that without taking China seriously as a knowledge producer and a key agent in a post global world social scientists risk misinterpreting the global present As Western globalisation wanes and anthropology reassesses the relationship between ethnography and theory we show how China must be understood as an ordinary integral context for research worldwide

**China's Cold War Science Diplomacy** Gordon Barrett, 2022-08-25 During the early decades of the Cold War the People s Republic of China remained outside much of mainstream international science Nevertheless Chinese scientists found alternative channels through which to communicate and interact with counterparts across the world beyond simple East West divides By examining the international activities of elite Chinese scientists Gordon Barrett demonstrates that these activities were deeply embedded in the Chinese Communist Party s wider efforts to win hearts and minds from the 1940s to the 1970s Using a wide range of archival material including declassified documents from China s Ministry of Foreign Affairs Archive Barrett provides fresh insights into the relationship between

science and foreign relations in the People's Republic of China      The Cross and Reaganomics Eric R. Crouse, 2013-05-16

The Cross and Reaganomics Conservative Christians Defending Ronald Reagan by Eric R Crouse offers important insights on why Reaganomics was a major reason conservative Christians supported Reagan at the polls On election night in November 1980 Americans witnessed the victory of a conservative to the presidency With the United States experiencing economic stagnation and high inflation many were hopeful of Ronald Reagan's deeds matching his optimistic rhetoric of America's potential What followed was a decade of economic transformation military buildup and a political awakening of conservatism One story that has not received much attention is the relationship between conservative Christians and Ronald Reagan's economic policies Crouse argues that conservative Christians were among the strongest champions of limited government free enterprise particularly small business and anticommunism A surprising number of conservative Christian leaders discussed the works of major free market economists Conservative Christians embraced and tapped into the traditional American values of individual opportunity personal responsibility and human freedom all themes they believed were front and center in Reaganomics Although American pluralism prevented any plan to Christianize the nation by politics in the sphere of economics conservative Christians did witness political and cultural gains      *Knowledge, Desire and Power in Global Politics* Chengxin Pan, 2012-01-01 China threat or China opportunity like beauty is in the eyes of the beholder Western imaginations of China come under close scrutiny in this book in a new philosophical depth seldom attempted before Dr Pan displays in full force his analytical skills and his mastery of knowledge both East and West Contrary to conventional approaches he takes a step back to exercise a powerful reflective process to watch the China watchers with illuminating results Dr Pan's book deserves wide and careful reading Professor Gerald Chan University of Auckland New Zealand The rise of China is largely seen as either a threat or an opportunity Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time Professor Roland Bleiker University of Queensland Australia This is a brilliant and insightful treatment of Western representations of China with a theoretical framework suggesting they come not only from China itself but also the West Although it is not the first treatment of this topic it is innovative in considering the China threat and China opportunity both aspects of the rise of China are of crucial importance for our times With provocative conclusions it is a truly path breaking contribution to the literature I recommend it highly Emeritus Professor Colin Mackerras Griffith University Australia Pan has produced a book which not only challenges some basic assumptions about the nature of China's rise but more importantly forces us to rethink the very basic starting points of how we know what we know about China Professor Shaun Breslin University of Warwick UK How is the rise of China perceived in the West Why is it often labelled as threat and or opportunity What are the implications of these China imageries for global politics Taking up these important questions this groundbreaking book argues that the

dominant Western perceptions of China's rise tell us less about China and more about Western self imagination and its desire for certainty Chengxin Pan expertly illustrates how this desire masked as China knowledge is bound up with the political economy of fears and fantasies thereby both informing and complicating foreign policy practice in Sino Western relations Insofar as this vital relationship is shaped not only by China's rise but also by the way we conceptualise its rise this book makes a compelling case for critical reflection on China watching Knowledge Desire and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China's rise Setting itself apart from the mainstream empiricist literature its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics students and the broader reading public but also likely spark debate in the field of Chinese international relations

**Cultural Mobilities Between China and Italy** Valentina Pedone, Gaoheng Zhang, 2023-10-11

This book offers a critical analysis of global mobilities across China and Italy in history In three periods in the twentieth century new patterns of physical mobilities and cultural contact were established between the two countries which were either novel at the time of their emergence or impactful on subsequent periods The first two chapters provide overviews of writings by Italians in China and by Chinese in Italy in the twentieth century The remaining chapters cover Republican China's relationships with Italy and Italian Fascist colonialism in China during the 1920s 1930s Italian travelers to China during the Cold War from the 1950s to the 1970s migrations between China and Italy during the 2000s 2010s In analyzing these cultural mobilities this book opens a new line of inquiry in Chinese Italian Cultural Studies which has been dominated by historical study and contributes a significant case study to the scholarship on global cultural mobilities

**The**

**Globalization of Environmental Crisis** Jan Oosthoek, Barry K. Gills, 2013-10-31 Previously published as a special issue of Globalizations this collection of essays addresses what is arguably the most pressing and urgent issue of our day the continuing development of global environmental crises and the need for new and urgent responses to them by the world community The contributors include social scientists environmental historians anthropologists and science policy researchers and together they give an overview of the history of the globalization of environmental crisis over the past several decades both in terms of the science of measurement and the types of policy and public responses that have emerged to date The specific issue areas addressed in the book cover a wide range of topics including international environmental governance North South inequalities climate change global warming tropical forests air pollution economic and paradigm shifts sustainability indigenous peoples and eco conservation EU environmental policy the United States and politicized climate science and more The Globalization of Environmental Crisis will be of particular interest to all those concerned with the ongoing debate over the state of the global environment and what to do about it

**Apocalypse, Revolution and Terrorism** Jeffrey Kaplan, 2018-09-21 This book focuses on religiously driven oppositional violence through the ages Beginning with the 1st century Sicari it examines the commonalities that link apocalypticism revolution and terrorism occurring in Judaism

Christianity and Islam past and present It is divided into two sections This was Then and This is Now which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election The historical focus centers on how the movements leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture The radical right is the primary but not exclusive focus of the second part of the book At the same time the work is intensely personal in that it incorporates the author s experiences in the worlds of communist Eastern Europe in the Iranian Revolution and in the uprisings and wars in the Middle East and East Africa This book will be of much interest to students of religious and political violence religious studies history and security studies

*The Legacy of 9/11* Ryan Shaffer, Jeffrey Kaplan, 2024-06-14 The Legacy of 9 11 is a retrospective about how policing intelligence and counter terrorism have changed in the more than twenty years since the September 11 2001 terrorist attacks Bringing together scholars and practitioners the book takes an interdisciplinary approach with fields including history international relations intelligence studies law and political science It highlights how some challenges in policing intelligence and counter terrorism brought about by the attacks have been resolved how some persist and how others have been transformed The chapters explore state and non state actors actions reactions and overreactions that shape contemporary aspects of policing intelligence and terrorism In all three worlds intelligence policing and counter terrorism the 9 11 attacks changed how the threat of terrorism is perceived approached and effectively countered by learning from the mistakes that led to the success of the attacks and initiating a process on the national and international levels of integrating security structures and implementing changes that have made 9 11 the last large scale terrorist strike on U S soil To illustrate these accomplishments and to highlight future challenges the volume examines the inextricably connected elements of policing and intelligence in counter terrorism as well as how counter terrorism practitioners and jihadists were transformed by one day of attacks more than twenty years ago The chapters in this book were originally published as a special issue of Journal of Policing Intelligence and Counter Terrorism

Euro-orientalism Ezequiel Adamovsky, 2006 Drawing from a range of critical perspectives in particular postcolonial this book examines the relationship between perceptions of Russia and of Eastern Europe and the making of a Western identity It explores the ways in which the perception of certain characteristics of Russia and Eastern Europe whether real or attributed was shaped by and used for the construction of a liberal narrative of the West which eventually became dominant The focus of this inquiry is French culture from the beginning of the debate about Russia among the philosophes c 1740 to the consolidation of a professional field of Slavic studies c 1880 A wide range of writing literature travel accounts histories political tracts scientific journals and parliamentary debates is examined through the work of major authors from Montesquieu Diderot and Rousseau to Tocqueville de Maistre and Guizot from Mme de Sta l Hugo and Balzac to Dumas Michelet and Comte as well as that of many less well known figures The book also explores possible continuities between those first academic accounts of Russia and

Eastern Europe and present day scholarship in Europe and the USA to show that the liberal ideological accounts constructed in the nineteenth century still to a great extent inform contemporary academic studies      *The 21st Century Cold War* Jeffrey Kaplan, 2020-06-04 The 21st Century Cold War is a multidisciplinary approach to understanding the pattern of Russian interference in the internal affairs of other nations suggesting that what in the Cold War was a simple conflict of East vs West has expanded into a conflict between Russia and two increasingly separate Wests The book begins with an examination of the structure of the Cold War and post Cold War world and subsequently explores Russian interference by overt grey and covert means including but not limited to cyberespionage fake news and the use of what in the Cold War would have been called front groups and agents of influence The approach encompasses both historic and contemporary themes with the question of whether the Cold War between East and West capitalism and communism is a thing of the past or does it continue today in new ideological guises as a central theme Expert contributors explore what the motivations and implications for the pattern of Russian interference in the political processes of other states would be and what new coalitions of actors are taking shape both for and against Russian activities With a series of historical and contemporary case studies focusing on the origins and contemporary dimensions of Russian information warfare and exploring the issues involved from every perspective The 21st Century Cold War will be of great interest to scholars of Security and Strategic Studies International Relations and Cold War History as well as policy makers and security professionals The chapters were originally published as a special issue of Terrorism and Political Violence

If you ally need such a referred **Political Pilgrims Western Intellectuals In Search Of The Good Society** books that will provide you worth, acquire the totally best seller from us currently from several preferred authors.
