been done to inculcate morality into Nigeria's politics. This volume focuses on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization in Latin America and in Central and Eastern Europe. The contributors emphasize the design of institutions to serve a market economy, the design of electoral laws and the design of executive-legislative relations. Within this framework, each chapter discusses the legacy of the pre-existing authoritarian regime, the range of preferences among various strategic actors with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization. Countries throughout Latin America and Central and Eastern Europe are moving from semi-closed to open economies and from authoritarian to democratic political systems. Despite important differences between the regions, these transitions involve similar tasks: the establishment of governmental institutions and electoral systems conducive to legitimation of the new and fragile democracies and expansion of the institutional infrastructure of a market economy. This volume looks at both regions, focusing on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization. In particular, the contributors emphasize the design of institutions to serve a market economy, the design of electoral laws and the design of executive-legislative relations. Each chapter discusses the legacy of the pre-existing authoritarian regime, the range of preferences among various strategic actors, the government, state bureaucracies, opposition parties and interest groups with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization. *The Military and Colonial Destruction of the Roman Landscape of North Africa, 1830-1900* Michael Greenhalgh, 2014-05-08. The French invaded Algeria in 1830 and found a landscape rich in Roman remains which they proceeded to re-use to support the constructions such as fortresses, barracks and hospitals needed to fight the natives who continued to object to their presence and to house the various colonisation projects with which they intended to solidify their hold on the country and to make it both modern and profitable. Arabs and Berbers had occasionally made use of the ruins but it was still a Roman and Early Christian landscape when the French arrived. In the space of two generations, this was destroyed just as were many ancient remains in France, in part because real architecture was Greek, not Roman. **Mugabeism?** Sabelo J. Challenges of Russian Liberalism conference proceedings providing a broad set of insights into the Russian liberal experience through a dialogue between past and present and intellectual and empirical contextualization involving historians jurists political scientists and theorists The first part focuses on the Imperial period analyzing the political philosophy and peculiarities of pre revolutionary Russian liberalism its relations with the rule of law *Pravovoe Gosudarstvo* and its institutionalization within the Constitutional Democratic Party Kadets The second part focuses on Soviet times when liberal undercurrents emerged under the surface of the official Marxist Leninist ideology After Stalin s death the thaw intelligentsia of Soviet dissidents and human rights defenders represented a new liberal dimension in late Soviet history while the reforms of Gorbachev s New Thinking became a substitute for liberalism in the final decade of the USSR The third part focuses on the time of troubles under the Yeltsin presidency and assesses the impact of liberal values and ethics the bureaucratic difficulties in adapting to change and the paradoxes of liberal reforms during the transition to post Soviet Russia Despite Russian liberals having begun to draw lessons from previous failures their project was severely challenged by the rise of Vladimir Putin Hence the fourth part focuses on the 2000s when the liberal alternative in Russian politics confronted the ascendancy of Putin surviving in parts of Russian culture and in the mindset of technocrats and system liberals Today however the Russian liberal project faces the limits of reform cycles of public administration suffers from a lack of federalist attitude in politics and is externally challenged from an illiberal world order All this asks us to consider what is the likelihood of a reboot of Russian liberalism
