Political Suicide In Latin America And Other Essays:

Political Suicide in Latin America James Dunkerley, 1992-02-17 Over recent years James Dunkerley has established a reputation as one of the most thoughtful and eloquent writers on Latin America In his latest book he investigates the high incidence of political suicide in the subcontinent A sensitive and revealing essay details a number of case studies the still disputed death of Chilean President Salvador Allende during Pinochet s storming of the Moneda Palace in 1973 the case of the Salvadorean guerrilla leader Salvador Cayetano Carpio who shot himself in the heart in April 1983 the death of Brazilian President Getulio Vargas who declared in April 1954 that he would only leave the presidential palace dead and a few days later did so Bolivian President German Busch who died at his own hand aged thirty five in 1939 and the dramatic end of Eduardo Chibas founder of the Cuban People s Party who shot himself live on Havana radio in 1951 in the pieces which follow Dunkerley employs his customary acuity to range over the implications of the Sandinista defeat in Nicaragua the plight of El Salvador the modern history of Bolivia the experience of postwar Guatemala and in a coruscating broadside the politics of the Peruvian novelist and the presidential candidate Mario Vargas Llosa

Handbook of Latin American Studies
Dolores Moyano Martin, P. Sue Mundell, 1997-12-01 Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research underway in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Dolores Moyano Martin of the Library of Congress Hispanic Division has been the editor since 1977 and P Sue Mundell has been assistant editor since 1994 The subject categories for Volume 55 are as follows
Anthropology including Archaeology and Ethnology Economics Electronic Resources for the Social Sciences Geography Government and Politics International Relations Sociology

Latin America's Cold War Hal Brands, 2012-03-05 For Latin America the Cold War was anything but cold Nor was it the so called long peace afforded the world s superpowers by their nuclear standoff In this book the first to take an international perspective on the postwar decades in the region Hal Brands sets out to explain what exactly happened in Latin America during the Cold War and why it was so traumatic Tracing the tumultuous course of regional affairs from the late 1940s through the early 1990s Latin America s Cold War delves into the myriad crises and turning points of the period the Cuban revolution and its aftermath the recurring cycles of insurgency and counter insurgency the emergence of currents like the National Security Doctrine liberation theology and dependency theory the rise and demise of a hemispheric diplomatic challenge to U S hegemony in the 1970s the conflagration that engulfed

Central America from the Nicaraguan revolution onward and the democratic and economic reforms of the 1980s Most important the book chronicles these events in a way that is both multinational and multilayered weaving the experiences of a diverse cast of characters into an understanding of how global regional and local influences interacted to shape Cold War crises in Latin America Ultimately Brands exposes Latin America's Cold War as not a single conflict but rather a series of overlapping political social geostrategic and ideological struggles whose repercussions can be felt to this day

Historical Dictionary of Marxism Elliott Johnson, David Walker, Daniel Gray, 2014-09-09 The second edition of the Historical Dictionary of Marxism covers the basics of Karl Marx's thought the philosophical contributions of later Marxist theorists and the extensive real world political organizations and structures his work inspired that is the myriad political parties organizations countries and leaders who subscribed to Marxism as a creed This text includes a chronology an introductory essay and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities both thinkers and doers political parties and movements and major communist or ex communist countries This book is an excellent access point for students researchers and anyone wanting to know more about Marxism

Eduardo Chibás Ilan Ehrlich, 2015-03-26 This comprehensive biography of Eduardo René Chibás 1907-1951 traces the life and times of Cuba's most popular and charismatic politician during the late 1940s and early 1950s Chibás whose admirers included young Fidel Castro emphasized honesty in Cuban public life and promised to sweep away corrupt politicians during his popular Sunday broadcasts His ties with supporters many of whom knew him simply as Eddy were closer and more informal than any previous Cuban politician During his 1948 presidential campaign Chibás often hurled himself into the arms of adoring supporters after speeches Such gestures were met with wonder and disgust by politicians more accustomed to buying votes than winning hearts His suicide in 1951 dashed the dreams of his followers who hoped he would deliver an honest government that provided services for the island's poor and respected Cuba's progressive 1940 constitution His death which was followed seven months hence by a military coup and eight years later by Castro's revolution represents one of the great what ifs of Cuban politics This seminal work explores Chibás's life in order to explain the nature of Cuban politics from the mid twentieth century to today

The British Study of Politics in the Twentieth Century Jack Hayward, Brian Barry, Archie Brown, 2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations

Vargas Llosa and Latin American Politics Juan E. De Castro, N. Birns, 2010-10-11 Mario Vargas Llosa is a heterogeneous writer whose positions have often not been consistent from novel to novel between his fictional and nonfictional work between his literary and political commentary and as his political commentary has proceeded over the decades This analysis of his work reveals his insights into socio political matters

The Companion to Latin American Studies Philip Swanson, 2014-04-04 What is Latin American Studies This companion gives a

concise and accessible overview of the discipline Covering a wide range of topics from colonial cultures and identity to US Latino culture and issues of race gender and sexuality this book goes beyond conventional literary companions and situates Latin America in its historical social political literary and cultural context This essential book provides the key introductory information on the subject and will be especially useful for students taking or considering taking courses in Hispanic or Latin American Studies Written by an international team of experts each chapter supplies the necessary basic information and a sound introduction to central ideas issues and debates In addition to 12 chapters on the main topics in Latin American Studies the companion includes an introduction time chart glossary and suggestions for further reading

Modern Latin American Revolutions Eric Selbin, 2018-02-07 In contrast to previous studies that have centered on the institutionalization of revolution in Latin America and the Caribbean *Modern Latin American Revolutions* Second Edition introduces the concept of consolidation of the revolutionary process the efforts of revolutionary leaders to transform society and the acceptance by a significant majority of the population of the core of the social revolutionary project As a result the spotlight is on people not structures and transformation not simply revolutionary transition The second edition of this acclaimed book has been revised to include new information on the cases of Bolivia Cuba Nicaragua and Grenada assessing the extent to which each revolution was both institutionalized and consolidated This edition also boasts expanded coverage on Che Guevara's visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean Dr Selbin argues that there is a strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru

Latin America's Democratic Crusade Allen Wells, 2023-01-01 By emphasizing Latin American reformers' decades long struggle to defeat authoritarianism this transnational history challenges the timeworn Cold War paradigm and recasts the region's political evolution Scholars persist in framing the Cold War as a battle between left and right one in which the Global South is cast as either witting or unwitting proxies of Washington and Moscow What if the era is told from the perspective of the many who preferred reform to revolution Scholars have routinely neglected dismissed or caricatured moderate politicians In this book Allen Wells argues that until the Cuban Revolution the struggle was not between capitalism and communism that was Washington's abiding preoccupation but between democracy and dictatorship Beginning in the 1920s the fight against authoritarianism was contested on multiple fronts political ideological and cultural taking on the dimensions of a political crusade Convinced that despots represented an existential threat reformers declared that no civilian government was safe until the cancer of dictatorship was excised from the hemisphere Dictators retaliated often with deadly results exporting strategies that had been honed at home to guarantee their political survival Grafted onto this war without borders was a belated Cold War with

all its political convulsions the aftershocks of which are still felt today **A Companion to Mario Vargas Llosa** Sabine Köllmann, 2014 This Companion offers an overview and assessment of Mario Vargas Llosa's large body of work tracing his development as a writer and intellectual in his essays critical studies journalism and theatrical works but above all in his novels **A Revolution for Our Rights** Laura Gotkowitz, 2008-02-20 Analyzes struggles over citizenship and nationhood in Bolivia following the fate of subaltern projects for political inclusion and asking why ethnic racial claims were more effectively incorporated into the revolutionary agenda than were gender demands **Latin American Detectives against Power** Fabricio Tocco, 2022-04-06 This book examines how Latin American detective stories portray individualism and the state through the figures of the private eye and the police Fabricio Tocco argues that these portrayals constitute a far more radical critique than the one developed by the Anglo American canon culminating in a transnational poetics of failure rooted in dissatisfaction with the neoliberal state Openings and Closures: Socialist Strategy at a Crossroads Greg Albo, Stephen Maher, 2025-03-12T00:00:00Z Socialists are at a crossroads facing the return of Donald Trump to the presidency of the American empire concerned by planetary warming if previous commitments to phase out fossil fuels are dashed and seeing neoliberalism's inability to provide a humane framework for macroeconomic stability ideological legitimacy or global political order What can the left carry forward from recent strategies tactics and organizations that not so long ago seemed so promising Is the left starting over or moving on The South America Handbook Patrick Heenan, Monique Lamontagne, 2014-01-27 First Published in 2002 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index *Market Justice* Brent Z. Kaup, 2012-12-24 Market Justice explores the challenges for the new global left as it seeks to construct alternative means of societal organization Focusing on Bolivia Brent Z Kaup examines a testing ground of neoliberal and counter neoliberal policies and an exemplar of bottom up globalization Kaup argues that radical shifts towards and away from free market economic trajectories are not merely shaped by battles between transnational actors and local populations but also by conflicts between competing domestic elites and the ability of the oppressed to overcome traditional class divides Further the author

asserts that struggles against free markets are not evidence of opposition to globalization or transnational corporations They should instead be understood as struggles over the forms of global integration and who benefits from them **Teetering on the Rim** Lesley Gill,2000 Focusing on an impoverished city on the periphery of La Paz the Bolivian capital Gill examines the ways in which neoliberal policies reorder social relations among poor men and women and between them and the state

Death by a Thousand Cuts Matt Qvortrup,2021-06-21 Putting the current crisis of democracy into historical perspective Death by a Thousand Cuts chronicles how would be despots dictators and outright tyrants have finessed the techniques of killing democracies earlier in history in the 20th Century and how today s autocrats increasingly continue to do so in the 21st It shows how autocratic government becomes a kleptocracy sustained only to enrich the ruler and his immediate family But the book also addresses the problems of being a dictator and considers if dictatorships are successful in delivering public policies and finally how autocracies break down We tend to think of democratic breakdowns as dramatic events such as General Pinochet s violent coup in Chile or Generalissimo Franco s overthrow of the Spanish Republic But this is not how democracies tend to die only five percent of democracies end like this Most often popular government is brought down gradually almost imperceptibly Based in part on Professor Qvortrup s BBC Programme Death by a Thousand Cuts Radio 4 2019 the book shows how complacency is the greatest danger for the survival of government by the people Recently democratically elected politicians have used crises as a pretext for dismantling democracy They follow a pattern we have seen in all democracies since the dawn of civilisation The methods used by Octavian in the dying days of the Roman Republic were almost identical to those used by Hungarian strongman Viktor Orb n in 2020 And sadly there are no signs that the current malaise will go away Death by a Thousand Cuts adds substance to a much discussed topic the threat to democracy It provides evidence and historical context like no other book on the market Written in an accessible style with vignettes as well as new empirical data the books promises to be the defining book on the topic This book will help readers who are concerned about the longevity of democracy understand when and why democracy is in danger of collapsing and alert them to the warning signs of its demise Neither Peace nor Freedom Patrick Iber,2015-10-13 Patrick Iber tells the story of left wing Latin American artists writers and scholars who worked as diplomats advised rulers opposed dictators and even led nations during the Cold War Ultimately they could not break free from the era s rigid binaries and found little room to promote their social democratic ideals without compromising them **To Die in Cuba** Louis A. Pérez Jr.,2012-12-01 For much of the nineteenth century and all of the twentieth the per capita rate of suicide in Cuba was the highest in Latin America and among the highest in the world a condition made all the more extraordinary in light of Cuba s historic ties to the Catholic church In this richly illustrated social and cultural history of suicide in Cuba Louis A Perez Jr explores the way suicide passed from the unthinkable to the unremarkable in Cuban society In a study that spans the experiences of enslaved Africans and indentured Chinese in the colony nationalists of the twentieth century republic and emigrants from Cuba to Florida following the 1959

revolution Perez finds that the act of suicide was loaded with meanings that changed over time Analyzing the social context of suicide he argues that in addition to confirming despair suicide sometimes served as a way to consecrate patriotism affirm personal agency or protest injustice The act was often seen by suicidal persons and their contemporaries as an entirely reasonable response to circumstances of affliction whether economic political or social Bringing an important historical perspective to the study of suicide Perez offers a valuable new understanding of the strategies with which vast numbers of people made their way through life if only to choose to end it To Die in Cuba ultimately tells as much about Cubans lives culture and society as it does about their self inflicted deaths

Fuel your quest for knowledge with is thought-provoking masterpiece, **Political Suicide In Latin America And Other Essays** .
