Political Thought and Action Orville Brown, 1997 *Privilege and Liberty and Other Essays in Political Philosophy* Aurel Kolnai, 1999-10-27 We are currently witnessing an increasingly influential counterrevolution in political theory evident in the dialectical return to classical political science pioneered most prominently by Leo Strauss and Eric Voegelin In this context the work of the relatively unknown Aurel Kolnai is of great importance Kolnai was one of the greatest thinkers of the twentieth century to place the restoration of common sense evaluation and philosophical realism at the center of his philosophical and political itinerary In this volume Daniel J Mahoney presents Kolnai s major writings in political philosophy writings that explore in ways that are diverse but complementary Kolnai s critique of progressive or egalitarian democracy The title essay contains Kolnai s fullest account of the limits of liberty understood as emancipation from traditional natural or divine restraints The Utopian Mind a pr cis of Kolnai s critique of utopianism in a posthumous book of the same title appears here for the first time Conservative and Revolutionary Ethos Kolnai s remarkable 1972 essay comparing conservative and revolutionary approaches to political life appears for the first time in English translation The volume also includes a critically sympathetic evaluation of Michael Oakeshott s Rationalism in Politics and an incisive criticism of Jacques Maritain s efforts to synthesize Christian orthodoxy and progressive politics *Privilege and Liberty and Other Essays in Political Philosophy* is a searching critique of political utopianism as well as a pathbreaking articulation of conservative constitutionalism as the true support for human liberty properly understood It is a major contribution to Christian and conservative political reflection in our time *The Oxford Companion to Politics of the World* Joel Krieger, 2001-08-02 The world has seen dramatic changes since the publication of the first edition of *The Oxford Companion to Politics of the World* in 1993 In the post Cold War world globalization now offers wealth and opportunities on a broader scale as well as greater international harmony but threatens to reinforce the advantage gap between wealthy and poor regions and intensify environmental degradation Conflict and squalor expressed in brutal brushfire wars epidemics and chronic underdevelopment vie with equally dramatic accounts of growth and democracy associated with a liberal political order and the global diffusion of trade investment and communications Drawing on the breadth of the first edition this updated edition reflects the changing world with a reassessment of many of the core themes of the Companion and new articles on the people concepts and events that have shaped the world since 1993 The second edition includes biographies of Kofi Annan Tony Blair Bill Clinton and Gerhard Schröder articles on events such as the Rwandan Genocide and the war in Kosovo and coverage of international trade developments such as NAFTA and the World Trade Organization Eighty seven of the 672 articles in the Second Edition are completely new most others are thoroughly revised This edition also features a substantial new set of articles a dozen essays on critical issues written by influential figures Recognizing the importance of including varying viewpoints the editors have commissioned these essays to provide an informed and often passionate debate on controversial topics Discussions include
