Political Bestiary:

A Political Bestiary Eugene J. McCarthy, James Jackson Kilpatrick, 1979-01-01 **A Political Bestiary** Eugene J. McCarthy, James Jackson Kilpatrick, 1978 **Creatures of Politics** Michael Lempert, Michael Silverstein, 2012-09-12 This book explores political communication in American presidential politics focusing on what political insiders call message The authors argue that message is not just the individual's positions on the issues but the craft used to fashion the creature the public sees as the candidate They examine some of the revelatory moments in debates political ads interviews speeches and talk shows to explain how these political creations come to have a life of their own **America's Three Regimes** Morton Keller, 2009-03-11 Hailed in The New York Times Book Review as the single best book written in recent years on the sweep of American political history this groundbreaking work divides our nation's history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American politics government and law The three regimes which mark longer periods of continuity than traditional eras reflect are Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present Praised by The Economist as a feast to enjoy and by Foreign Affairs as a masterful and fresh account of U S politics here is a major contribution to the history of the United States an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life **Science and the Founding Fathers: Science in the Political Thought of Thomas Jefferson, Benjamin Franklin, John Adams, and James Madison** I. Bernard Cohen, 1997-01-17 General readers students of American history and professional historians alike will profit from reading this engaging presentation of an aspect of American history conspicuously absent from the usual textbooks and popular presentations of the political thought of early America Thomas Jefferson was the only president who could read and understand Newton's Principia Benjamin Franklin is credited with establishing the science of electricity John Adams had the finest education in science that the new country could provide including Pneumatics Hydrostatics Mechanics Statics Opticks James Madison chief architect of the Constitution peppered his Federalist Papers with references to physics chemistry and the life sciences For these men science was an integral part of life including political life This is the story of their scientific education and of how they employed that knowledge in shaping the political issues of the day incorporating scientific reasoning into the Constitution *Art and Political Thought in Medieval England, C. 1150-1350* Laura Slater (Lecturer in history of art), 2018 An exploration of how power and political society were imagined represented and reflected on in medieval English art Images and imagery played a major role in medieval political thought and culture but their influence has rarely been explored This book provides a full assessment of the subject Starting with an examination of the writings of late twelfth century courtier clerics and their new vision of English political life as a heightened religious drama it argues that visual images were key to the development and expression of medieval English political ideas

and arguments. It discusses the vivid pictorial metaphors used in contemporary political treatises and highlights their interaction with public decorative schemas in English great churches, private devotional imagery, seal iconography, illustrations of English history and a range of other visual sources. Meanwhile, through an exploration of events such as the Thomas Becket conflict, the making of Magna Carta, the Barons War and the deposition of Edward II, it provides new perspectives on the political role of art, especially in reshaping basic assumptions and expectations about government and political society in medieval England.

LAURA SLATER is a Fulford Junior Research Fellow at Somerville College, University of Oxford.

The Philosophical Animal Eduardo Mendieta, 2024-06-01 Humans are animals who fictionalize other animals to asse their humanness. We are philosophical animals who philosophize about our humanity by projecting images onto a mirror about other animals. Spanning literature, philosophy and ethics, the thread uniting *The Philosophical Animal* is the bestiary and how it continues to inform our imaginings. Beginning with an exploration of animals and women in the literary work of Coetzee, famous for his book on the Lives of Animals, Eduardo Mendieta then dives into the genre of bestiaries in order to investigate the relation between humanity and animality. From there, he approaches the works of Derrida and Habermas from the standpoint of genetic engineering and animal studies. While we have intensely modified many species genetically, we have not done this to ourselves. Why? Finally, Mendieta deals with the political and ethical implications suggested by this question, before ending on an autobiographical note about growing up around so-called animals and, in particular, horses.

Brecht's Poetry of Political Exile Ronald Speirs, 2000-11-02 Bertolt Brecht, one of the most influential European playwrights of the twentieth century, was also a poet of distinction. This volume is the first comprehensive study devoted to his most important collection of political poetry, the *Svendborg Poems*. The contributors analyse Brecht's work critically and historically, discussing it in relation to questions of poetics, political commitment, exile, propaganda, rhetoric and the scope and limitations of political poetry. Links are also drawn with the work of German, Soviet and English poets of the period and with later Germany poets.

The Government and Politics of France Andrew Knapp, Lecturer in French Studies. Andrew Knapp, Vincent Wright, 2003-09-02 The *Government and Politics of France* 4th Edition continues to provide students with a comprehensive and incisive introduction to the intricacies of French politics and government. Written by two leading authorities on the subject, this widely used textbook has been fully revised and updated to take into account the many changes that have occurred since the last edition was published. Coverage includes French political traditions, constitution and the Fifth Republic, the executive, the Parliament, parties and the party system, the Administration, interest groups, local politics, the impact of the EU.

Democracy and Its Others Jeffrey H. Epstein, 2016-02-25 Today's unprecedented levels of human migration present urgent challenges to traditional conceptualizations of national identity, nation, state, sovereignty and democratic citizenship. Foreigners are commonly viewed as outsiders whose inclusion within or exclusion from the people of the democratic state rests upon whether they benefit or threaten the unity of the nation. Against this instrumentalization of

the foreigner this book traces the historical development of the concepts of sovereignty and foreignness through the thought of philosophers such as Plato Locke Hobbes Rousseau Derrida and Benhabib in order to show that foreignness is a structural feature of sovereignty that cannot be purged or assimilated Understood in this light foreignness allows for new forms of democratic political unity to be imagined that reject local practices which deprive individuals of political membership solely on the basis of national citizenship This cosmopolitan model for citizenship provides a novel conceptual framework that simultaneously upholds the legal importance of democratic citizenship for political justice while ceaselessly contesting the exclusionary logic of the nation state that reserves democratic rights for members of the nation alone Prime Ministers and the Media Colin Seymour-Ure, 2008-04-15 This book looks at the ways in which prime ministers manage and fail to manage their public communication A timely examination of the ways in which prime ministers manage and fail to manage their public communication Original in scope covering political rumours political cartoons and capital cities in addition to more familiar topics Sets contemporary analysis of Downing Street press secretaries media barons and press conferences in fuller historical context than usual Draws on public records private papers and interviews by the author dating back to the 1960s **Is That a Politician in Your Pocket** Micah Sifry, Nancy Watzman, 2007-08-24 Get rich quick Read this book and learn how to invest in politicians for fun and profit Just don't leave this book where any regular voters can read it Arianna Huffington author of Pigs at the Trough Every day corporations and other wealthy special interests pump another 2 million into the coffers of our elected officials in Washington and their party committees For their money they get an estimated 160 billion a year in tax breaks subsidies and other sweet deals That's 160 billion lifted from taxpayers pockets or about 1 500 per taxpayer per year But that's not the worst of it Their money also buys them the opportunity to shape public policy to suit their bottom lines And the cost we pay for that is much dearer Blending satirical bite with mountains of eye opening research this rollicking call to arms breaks the issue into manageable kitchen table topics and makes it accessible with graphs tables sidebars quizzes and fascinating factoids Sifry and Watzman lay it all out with no bark on it in this devastatingly straight forward book the overt corruption of our country through what we politely call the campaign finance system Legalized bribery is the root of our political rot and few people know more about how to fix it and have done more to fix it than the good folks at Public Campaign Molly Ivins author of Bushwhacked Sifry and Watzman are two of the most astute observers of political influence in this country Their important new book names names and cuts through the bull about the issues that affect our daily lives in a wonderfully amusing but drop dead accurate way Charles Lewis author of The Buying of the President 2004 **Bully!** Rick Marschall, 2011-10-31 One of America's most beloved presidents comes to life in this comprehensive unique biography illustrated by more than 250 period cartoons Theodore Roosevelt adored for everything from his much caricatured teeth and glasses to his almost childlike exuberance and boundless energy as well as his astounding achievements captivated Americans of his day and the cartoonists who immortalized him in their drawings In

Bully The Life and Times of Theodore Roosevelt author and cartoonist Rick Marschall tells Roosevelt s story using words and colorful images alike Incorporating hundreds of vintage illustrations Bully captures Roosevelt s remarkable life and incredible accomplishments as no other biography has **Liquid Assets, Dangerous Gifts** Valentin Groebner,2002-05-13 A fascinating study of the movements and ambivalent meanings of gifts in the political culture of the fifteenth and early sixteenth century Valentin Groebner s book provides us with a new way of understanding the meanings and uses of corruption Natalie Zemon Davis Sixteenth Century Journal Plutocratic Insurgency Reader Robert J. Bunker,2019-07-23 Plutocratic insurgency represents an emerging form of insurgency not seen since the late 19th century Gilded Age It is being conducted by high net worth globalized elites allowing them to remove themselves from public spaces and obligations including taxation and to maximize their ability to generate profits transnationally It utilizes lawyers lobbyists and corruption rather than armed struggle though mercenaries may be employed to create shadow governance in pursuit of plutocratic policy objectives Ultimately this form of insurgency is representative of the challenge of 21st century predatory and sovereign free capitalism to 20th century state moderated capitalism and its ensuing public welfare programs and middle class social structures It can be viewed as a component of Dark Globalization that along with the emergence of criminal insurgency is now actively threatening the public institutions and citizenry of the Westphalian state form This important and groundbreaking Small Wars Journal book is composed of over thirty readings by fifteen contributors **The Writer's Art** James J. Kilpatrick,2010-09-14 A witty entertaining and enlightening antidote to sloppy inflated vague or dull prose Publishers Weekly Writing comes in grades of quality in the fashion of beer and baseball games good better and best With the experience of a lifetime spent writing James J Kilpatrick wants to make a few judgment calls Here in the great tradition of Theodore Bernstein Edwin Newman and William Safire a master of the art gives us a finely crafted witty guide to writing well Intended for laymen and professionals alike The Writer s Art highlights techniques and examples of good writing and a section of the book called My Crotchets and Your Crotchets comprises more than two hundred personal judgment calls often controversial often funny on word usage Put it on your shelf between Strunk White s Elements of Style and William Zinsser s On Writing Well Cleveland Plain Dealer An honest forthright and at times charming look into American usage The New York Times Book Review The Writer s Art is itself a work of art Dallas Morning News *Just Exchange* Francis H. Buckley,2004-11-30 Now for the first time there is a comprehensive eminently readable book designed to focus thinking in the area of contract law This book bridges the gap between law and economics by confronting normative values that economists too often deem the preserve of moral philosophers Contract theorists on the other hand are seldom in sympathy with economic efficiency norms While free bargaining continues to be regarded with suspicion by legal scholars who are hostile to private ordering the proper scope of free bargaining remains in dispute Combined with a recent renewed interest in this field these academic tensions mean that the time is right for a reconsideration of contract law Drawing on scholarship

from diverse fields and using illuminating and erudite examples *Just Exchange* is entertaining as well as informative Of interest to economists lawyers public policy makers and those intersted in contract theory this volume is a valuable overview of a vital intersection between legal studies and economics [Comic empires](#) Richard Scully,Andrekos Varnava,2019-11-04 *Comic empires* is an innovative collection of new scholarly research exploring the relationship between imperialism and cartoons caricature and comic art *Derrida and Other Animals* Judith Still,2015-07-13 Judith Still analyses Derrida s late writings on animals especially his seminars *The Beast and the Sovereign* to explore ethical questions of how humans treat animals and how we treat outsiders from slaves to terrorists [The Once and Future King](#) F. H. Buckley,2015-06-23 This remarkable book shatters just about every myth surrounding American government the Constitution and the Founding Fathers and offers the clearest warning about the alarming rise of one man rule in the age of Obama Most Americans believe that this country uniquely protects liberty that it does so because of its Constitution and that for this our thanks must go to the Founders at their Convention in Philadelphia in 1787 F H Buckley s book debunks all these myths America isn t the freest country around according to the think tanks that study these things And it s not the Constitution that made it free since parliamentary regimes are generally freer than presidential ones Finally what we think of as the Constitution with its separation of powers was not what the Founders had in mind What they expected was a country in which Congress would dominate the government and in which the president would play a much smaller role Sadly that s not the government we have today What we have instead is what Buckley calls Crown government the rule of an all powerful president The country began in a revolt against one king and today we see the dawn of a new kind of monarchy What we have is what Founder George Mason called an elective monarchy which he thought would be worse than the real thing Much of this is irreversible Constitutional amendments to redress the balance of power are extremely unlikely and most Americans seem to have accepted and even welcomed Crown government The way back lies through Congress and Buckley suggests feasible reforms that it might adopt to regain the authority and respect it has squandered

Unveiling the Magic of Words: A Review of "**Political Bestiary**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring.
