*Shock to the System* Michael K. Miller,2021-07-20 How violent events and autocratic parties trigger democratic change How do democracies emerge *Shock to the System* presents a novel theory of democratization that focuses on how events like coups wars and elections disrupt autocratic regimes and trigger democratic change Employing the broadest qualitative and quantitative analyses of democratization to date Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power events typically viewed as antithetical to democracy are in fact central to its foundation Through in depth examinations of 139 democratic transitions Miller shows how democratization frequently follows both domestic shocks coups civil wars and assassinations and international shocks defeat in war and withdrawal of an autocratic hegemon due to autocratic insecurity and openings for opposition actors He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy Both contexts limit the power autocrats sacrifice by accepting democratization smoothing along the transition Miller provides

new insights into democratization's predictors the limited gains from events like the Arab Spring the best routes to democratization for long term stability and the future of global democracy Disputing commonly held ideas about violent events and their effects on democracy Shock to the System offers new perspectives on how regimes are transformed

**Soldiers of Democracy?** Sharan Grewal, 2023-07-04 Why do some militaries support and others thwart transitions to democracy After the Arab Spring revolutions why did Egypt's military stage a coup to end the transition Conversely why did Tunisia's military initially support the transition only to later facilitate the elected president's dismantling of democracy In Soldiers of Democracy Military Legacies and the Arab Spring Sharan Grewal argues that a military's behavior under democracy is shaped by how it had been treated under autocracy Autocrats who had empowered their militaries produce soldiers who will repress protests and stage coups to preserve their privileges Meanwhile autocrats who had marginalized their militaries produce soldiers who support democratization but who are also more susceptible to incumbent takeovers and civil wars The dictator's choice to either empower or marginalize the military thus creates legacies that shape both the likelihood of democratization and the forms by which it breaks down Drawing on over 140 interviews with civilian and military leaders and three surveys of military personnel this scholarly volume illustrates this theory through detailed case studies of Egypt and Tunisia Grewal also probes the generalizability of the theory through a cross national analysis of all countries between 1946 2010 Overall he brings the military front and center to the study of democratic transition and consolidation

**Regime Type and Beyond** Weitseng Chen, Hualing Fu, 2023-06-08 Analyses the politics of policing in a range of regime types across East and Southeast Asia

**Comparative Politics** Daniele Caramani, 2008 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes

**Worldly Politics and Divine Institutions** Nahshon Perez, 2023 Worldly Politics and Divine Institutions explores four instances of democratic governments becoming intertwined with religious matters when the U K Supreme Court forced a government funded faith school the British JFS School to change its admission policies when The European Court of Human Rights ruled that the Catholic Church could dismiss religion teachers in Spanish public schools when the Italian government upheld mandatory crucifixes in all public school classrooms and the Bladensburg World War I Memorial the Peace Cross case in Maryland where the U S Supreme Court ruled that the cross's public placement did not violate the U S Constitution's First Amendment
