The Political Economy of Economic Growth in Africa, 1960-2000 B. J. Ndulu, 2008 Volume 2 of an analysis of the economic development of Sub Saharan Africa 1960 2000 **The Political Economy of Foreign Policy in ECOWAS**

Timothy M Shaw, Julius Emeka Okolo, 1994-05-13 Both political economy and foreign policy have been transformed in the sixteen states of West Africa at the start of the 1990s because of interrelated external factors end of the Cold War and start of a New International Division of Labour and internal factors national structural adjustment programmes Sixteen leading analysts of new regional relations of both cooperation and conflict offer original revisionist insights into ECOWAS and ECOMOG debt and democracy reform and resistance The mixture of case studies and comparative analyses constitutes a comprehensive overview of West African actors issues structures perspectives and possibilities at the end of the century with relevance for development discourses and directions in other peripheral regions Together these offer timely redefinitions and reconceptualisations of central notions like civil society diplomacy foreign policy peacekeeping security and self reliance for political economies and cultures throughout the South Distortions to Agricultural Incentives in Africa Kym

Anderson, William A. Masters, 2009-03-13 The vast majority of the world's poorest households depend on farming for their livelihoods During the 1960s and 1970s most developing countries imposed pro urban and anti agricultural policies while many high income countries restricted agricultural imports and subsidized their farmers Both sets of policies inhibited economic growth and poverty alleviation in developing countries Although progress has been made over the past two decades to reduce those policy biases many trade and welfare reducing price distortions remain between agriculture and other sectors and within the agricultural sector of both rich and poor countries Comprehensive empirical studies of the disarray in world agricultural markets appeared approximately 20 years ago Since then the Organisation for Economic Co operation and Development has provided estimates each year of market distortions in high income countries but there have been no comparable estimates for the world's developing countries This volume is the third in a series other volumes cover Asia Europe's transition economies and Latin America and the Caribbean that not only fills that void for recent years but extends the estimates in a consistent and comparable way back in time and provides analytical narratives for scores of countries that shed light on the evolving nature and extent of policy interventions over the past half century Distortions to

Agricultural Incentives in Africa provides an overview of the evolution of distortions to agricultural incentives caused by price and trade policies in the Arab Republic of Egypt plus 20 countries that account for about 90 percent of Sub Saharan Africa's population farm households agricultural output and overall GDP Sectoral trade and exchange rate policies in the region have changed greatly since the 1950s and there have been substantial reforms since the 1980s Nonetheless numerous price distortions in this region remain others have been added in recent years and there has also been some backsliding such as in Zimbabwe The new empirical indicators in these country studies provide a strong evidence based foundation for assessing the successes and failures of the past and for evaluating policy options for the years ahead

The Politics of Reform in Ghana, 1982-1991 Jeffrey Herbst, 2023-04-28 Economic reform was the most pressing question for African and other Third World countries during the 1980s In this first full length examination of the political economy of adjustment in Ghana Jeffrey Herbst describes the causes of Ghana's dramatic economic decline and reviews the politics of reform that began in 1983 Since Ghana was one of the first African countries to adopt a comprehensive reform program and the one that has sustained adjustment longest the Ghanaian experience has profound ramifications for debates regarding stabilization and structural change across the continent Herbst devotes special attention to the interaction between the type of government and the politics of adjustment the reaction of interest groups such as urban labor and the peasantry and the relationship between economic and political change His extended field research and sophisticated knowledge of the issues involved both from the economic and political science literature make this study of importance not only to Africanists political scientists economists and sociologists but also to government and financial leaders wrestling with economic reform in developing countries This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993

The Oxford Handbook of the African Sahel Leonardo A. Villalón, 2021-10-15 Long on the margins of both scholarly and policy concerns the countries of the West African Sahel have recently attracted world attention primarily as a key battleground in the global war on terror This book moves beyond this narrow focus providing a multidimensional and interdisciplinary assessment of the region in all of its complexity The focus is on the six countries at the heart of the Sahelian geographic space Senegal Mauritania Mali Burkina Faso Niger and Chad Collectively the chapters explore the commonalities and interconnections that link these countries and their fates while also underscoring their diversity and the variations in their current realities The Sahel today is at an important crossroads under multiple pressures of diverse kinds environmental political demographic and economic as well as rapidly changing social and religious dynamics It is also marked by striking dynamism and experimentation drawing on a long history of innovation and cultural transfer In many ways the Sahel is today on the cutting edge of grand natural experiments exploring how humans will adapt to climate

change to technological innovation to the global movement of populations and the restructuring of world politics to urbanization social change and rapid demographic growth and to inter religious contact The region is a weathervane on the front lines of the forces of global change In nine thematic sections the chapters in this book offer holistic analyses of the key forces shaping the region Including scholars based in Africa Europe and the United States the authors represent an exceptional breadth and depth of expertise on the Sahel

Finance, Development, and the IMF James M.

Boughton,Domenico Lombardi,2009-06-25 This book provides an assessment of the role of the International Monetary Fund in poor countries In recent years a large portion of the work of the IMF has focused on the economies of low income countries by aiming to create conditions conducive to poverty reduction and stable economic growth More than two fifths of the IMF s 185 members are low income countries and many others have substantial pockets of poverty in their populations Since economic development and the reduction of poverty are the most important economic challenges that these countries face how can the IMF best help them How can the imperative of macroeconomic and financial stability be reconciled with the requirements for sustained economic growth This volume brings together the research of leading economists political scientists and historians to suggest ways for the IMF to address these issues effectively

Authoritarian Origins of Democratic Party Systems in Africa Rachel Beatty

Riedl,2014-02-13 Why have seemingly similar African countries developed very different forms of democratic party systems Despite virtually ubiquitous conditions that are assumed to be challenging to democracy low levels of economic development high ethnic heterogeneity and weak state capacity nearly two dozen African countries have maintained democratic competition since the early 1990s Yet the forms of party system competition vary greatly from highly stable nationally organized well institutionalized party systems to incredibly volatile particularistic parties in systems with low institutionalization To explain their divergent development Rachel Beatty Riedl points to earlier authoritarian strategies to consolidate support and maintain power The initial stages of democratic opening provide an opportunity for authoritarian incumbents to attempt to shape the rules of the new multiparty system in their own interests but their power to do so depends on the extent of local support built up over time

The Dilemmas of Social

Democracies Howard Richards,Joanna Swanger,2008-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is because of the philosophical and institutional underpinnings_the constitutive rules_of capitalism the book therefore explores

the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved

The Globalizers Ngaire Woods, 2014-11-15 The IMF and the World Bank have integrated a large number of countries into the world economy by requiring governments to open up to global trade investment and capital They have not done this out of pure economic zeal Politics and their own rules and habits explain much of why they have presented globalization as a solution to challenges they have faced in the world economy from the Introduction The greatest success of the International Monetary Fund and the World Bank has been as globalizers But at whose cost Would borrowing countries be better off without the IMF and World Bank This book takes readers inside these institutions and the governments they work with Ngaire Woods brilliantly decodes what they do and why they do it using original research extensive interviews carried out across many countries and institutions and scholarship from the fields of economics law and politics The Globalizers focuses on both the political context of IMF and World Bank actions and their impact on the countries in which they intervene After describing the important debates between U S planners and the Allies in the 1944 foundation at Bretton Woods she analyzes understandings of their missions over the last quarter century She traces the impact of the Bank and the Fund in the recent economic history of Mexico of post Soviet Russia and in the independent states of Africa Woods concludes by proposing a range of reforms that would make the World Bank and the IMF more effective equitable and just

The Implementation Game Carolyn Deere, 2011-06-16 With the launch of the World Trade Organization WTO in 1995 its Agreement on Trade Related Aspects of Intellectual Property Rights TRIPS emerged as a symbol of coercion in international economic relations In the decade that followed intellectual property became one of the most contentious topics of global policy debate This book is the first full length study of the politics surrounding what developing countries did to implement TRIPS and why Based on a review of the evidence from 1995 to 2007 this book emphasises that developing countries exhibited considerable variation in their approach to TRIPS implementation In particular developing countries took varying degrees of advantage of the legal safeguards and options commonly known as TRIPS flexibilities that the Agreement provides To explain this variation this book argues that TRIPS implementation must be understood as a complex political game played out among developing country governments and a range of stakeholders developed countries non governmental organisations NGOs intergovernmental organisations IGOs and industry groups The contested nature of the TRIPS bargain spurred competing efforts to revise the terms of TRIPS and to influence global IP regulation more broadly The intensity of the implementation game was amplified by an awareness among the various stakeholders that the IP reforms developing countries pursued would influence these ongoing international negotiations The book attributes the variation in TRIPS implementation to the interplay between these global IP debates international power pressures and political dynamics within developing countries The book includes historical analysis compilations of evidence and analysis supported by examples from across the developing world The Implementation Game will be of interest both to scholars of international relations law and

international political economy as well as to policymakers commentators and activists engaged in debates on the global governance of intellectual property

Historical Dictionary of The Gambia David Perfect, 2016-05-27 When The Gambia achieved its independence from Great Britain on 18 February 1965 as mainland Africa's smallest state its future seemed uncertain It retained this status for nearly 30 years An attempted coup d'état in July 1981 was put down but ironically when other African states were returning to democratic government Gambian democracy finally succumbed to a military coup on 22 July 1994 While civilian rule was restored in 1996 full democracy was not and a number of subsequent presidential and parliamentary elections have been far from free and fair while The Gambia's human rights record has been very poor since 1994 This fifth edition of Historical Dictionary of The Gambia contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about The Gambia

Contesting Historical Divides in Francophone Africa Claire Griffiths, 2013-06-30 From Senegal in the west to the Comoros islands in the east this collection of essays casts a critical eye over fifty years of independence in former French colonial possessions of Africa and the Indian Ocean With methods and perspectives that cross traditional disciplinary barriers *Contesting Historical Divides in Francophone Africa* proposes fresh insights into the process of decolonisation in this part of the world

How Enemies Become Friends Charles A. Kupchan, 2012-03-25 How nations move from war to peace Is the world destined to suffer endless cycles of conflict and war Can rival nations become partners and establish a lasting and stable peace *How Enemies Become Friends* provides a bold and innovative account of how nations escape geopolitical competition and replace hostility with friendship Through compelling analysis and rich historical examples that span the globe and range from the thirteenth century through the present foreign policy expert Charles Kupchan explores how adversaries can transform enmity into amity and he exposes prevalent myths about the causes of peace Kupchan contends that diplomatic engagement with rivals far from being appeasement is critical to rapprochement between adversaries Diplomacy not economic interdependence is the currency of peace concessions and strategic accommodation promote the mutual trust needed to build an international society The nature of regimes matters much less than commonly thought countries including the United States should deal with other states based on their foreign policy behavior rather than on whether they are democracies Kupchan demonstrates that similar social orders and similar ethnicities races or religions help nations achieve stable peace He considers many historical successes and failures including the onset of friendship between the United States and Great Britain in the early twentieth century the Concert of Europe which preserved peace after 1815 but collapsed following revolutions in 1848 and the remarkably close partnership of the Soviet Union and China in the 1950s which descended into open rivalry by the 1960s In a world where conflict among nations seems inescapable *How Enemies Become Friends* offers critical insights for building lasting peace

Africa's Informal

Workers Ilda Lindell, 2013-04-04 Africa's Informal Workers is a vigorous examination of the informalization and casualization of work which is changing livelihoods in Africa and beyond. Gathering cases from nine countries and cities across sub-Saharan Africa and from a range of sectors, this volume goes beyond the usual focus on household coping strategies and individual agency, addressing the growing number of collective organizations through which informal workers make themselves visible and articulate their demands and interests. The emerging picture is that of a highly diverse landscape of organized actors providing grounds for tension but also opportunities for alliance. The collection examines attempts at organizing across the formal/informal work spheres and explores the novel trend of transnational organizing by informal workers. Part of the ground-breaking Africa Now series, Africa's Informal Workers is a timely exploration of deep ongoing economic, political and social transformations.
