Political Financing:

Financing Politics Herbert E. Alexander, 1984 **Plutocrats United** Richard L. Hasen, 2016 From a leading expert on election law a compelling answer to the dilemmas of campaign finance reform Campaign financing is one of today's most divisive political issues The left asserts that the electoral process is rife with corruption The right protests that the real aim of campaign limits is to suppress political activity and protect incumbents Meanwhile money flows freely on both sides In **Plutocrats United** Richard Hasen argues that both left and right avoid the key issue of the new Citizens United era balancing political inequality with free speech The Supreme Court has long held that corruption and its appearance are the only reasons to constitutionally restrict campaign funds Progressives often agree but have a much broader view of corruption Hasen argues for a new focus and way forward if the government is to ensure robust political debate the Supreme Court should allow limits on money in politics to prevent those with great economic power from distorting the political process

Party Funding and Campaign Financing in International Perspective K D Ewing, Samuel Issacharoff, 2006-01-19 This volume deals with questions of political party funding and campaign financing issues which arouse controversy in many parts of the world How are the central actors in the political arena supposed to gather the funds necessary to operate effectively on behalf of their chosen political ends And how may they spend money in furtherance of their political objectives The aim of this volume the first in a new series of Columbia University London University collaborative projects is to explore these issues in the specific context of a number of national settings The studies presented here show that financing questions cannot be addressed independent of the constitutional conventions of the country the nature of the political parties in the country and the means of access to publication and the media in any given nation The national studies in this volume reveal a rich diversity in the approach to regulation in Australia Canada the European Union Japan New Zealand Quebec the United Kingdom and the United States The topicality of the issues considered is reflected in the fact that since the book was first mooted there have been major decisions of the US Supreme Court and the Supreme Court of Canada as well as an investigation and report by the Electoral Commission in the United Kingdom all of which have a direct bearing on the legal and policy issues discussed in this book Political Campaign Financing Proposals United States. Paying for Democracy Kevin Casas-Zamora, 2024-10-31 If the funding of parties and campaigns is a crucial issue for democratic theory and practice then the spread of State subsidies for parties is arguably the most important trend in contemporary political finance Using a large data set on political financing in more than 40 democracies the book offers an unprecedented comparative study of the features of party subsidies and their effects on campaign finance practices party systems and party organisations The book also provides a detailed empirical account of campaign finance in two of Latin America's most consolidated democracies Drawing upon extensive archival work and interviews this work sheds light on largely hidden aspects of politics in the developing world and questions widespread

part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance laws and regulations are often undermined by a lack of political will or capacity as well as poorly designed and enforced measures This Handbook addresses the problems of money in politics by analysing political finance regulations around the world and providing guidance for reform The chapters are divided by region each assesses the current state of regulations in relation to its challenges and offers a series of recommendations to tackle the identified shortcomings This contextual approach has the benefit of revealing regional trends and patterns An additional chapter focuses on gender reflecting the reality that women remain grossly under represented in politics and how the increasing influence of money in politics perpetuates this inequality
