Political Government:

Political Government Robert Klassen,2002-11 Social philosopher Spencer Heath maintained that we can't recognize atrocity for what it is until we can entertain an alternative. The example he gave was chattel slavery in the ancient world few questioned it and fewer still raised their voice against it. Having already outlined the natural alternative to political i.e. tax based government in his companion book *Economic Government* Klassen now articulates with rare clarity why political government is atrocity. He calls this book the end of my foray into criticism of political government. I welcome this implied emphasis on the health of society rather than its pathology. But if articulation of the pathology is called for Klassen has done it with skill and clarity dispassionately and with forbearance. Connoisseurs of political behavior will deepen their understanding and strengthen their analytical skill when they recognize that the subject of their study is social pathology and they themselves are pathologists for a pathologist can only understand his subject matter in the light of social health. That is the contribution of this book and its companion book *Economic Government*. Spencer H MacCallum social anthropologist and author of *The Art of Community*.

The Political System of Germany Florian Grotz,Wolfgang Schroeder,2023-08-11 This book offers a systematic theory based and empirically grounded introduction to the political system of Germany. Compared to other textbooks on government and politics in Germany it has two particular benefits. First it analyzes the individual dimensions of the German political system from a uniform theoretical perspective based on the well known distinction between majoritarian and consensus democracy. Second it particularly explains how political decision making in the multi level system takes place including the local state federal as well as EU levels. This way the book provides a comprehensive detailed and clear picture of how German democracy is organized and how it works.

Money and Banks in the American Political System Kathryn C. Lavelle,2013-01-14 Lavelle argues that the political sources of instability in finance derive from the intersection of market innovation and regulatory arbitrage.

The Spanish Political System E. Ramon Arango,E Ramon Arango,2019-06-13 In few places do illusions obscure reality as they do in Spain. The Spaniard as well as the foreigner has believed and sustained the myths the scholar as well as the poet. For the Spaniard myth became the substitute for action in a world in which Spain was increasingly a nonparticipant. It replaced the reality of Spain.
