Television and the Political Image Joseph Trenaman,Denis McQuail,2023-12-22 Was the 1959 UK General Election the first television election Could television be used to create a Party image Television and the Political Image 1961 provides answers to both these questions It surveys two constituencies interviewing the same cross section of electors before and after the election campaign and analyses and compares the campaigns as conducted by television radio the Press and through the work of the local Parties Various effects of the political barrage are measured and attributed to their sources such effects include changes in voting intention during the course of the election campaign changes in attitudes to Parties

and their leaders and changes in what the voter knows of the parties policies Economic Actors, Economic Behaviors, and Presidential Leadership C. Damien Arthur, 2014-07-22 There is considerable disagreement about whether the U S president has a direct and measurable influence over the economy The analysis presented in *Economic Actors Economic Behaviors and Presidential Leadership* The Constrained Effects of Rhetoric suggests that while presidents have increased their rhetoric regarding the economy they have not had much success in shaping it Considering this research Arthur argues that the president s decision to address the economy so often must stem from a symbolic placation or institutional necessity that is intended to comfort constituencies or somehow garner electoral advocacy from the party s base No other viable explanation exists given the lack of results presidents obtain from discussing the economy and their persistent determination to do so This discrepancy suggests that presidential rhetoric on the economy is at best a tool used to appear concerned to everyone and toe the party line to their base Arthur presents an overview of economic rhetoric from the presidential office that will be of interest to scholars of the economy and political communication *Handbook on Political Trust* Sonja Zmerli, Tom W.G. van der Meer, 2017-01-27 Political trust in government parliament or political parties has taken centre stage in political science for more than half a century reflecting ongoing concerns with the legitimacy and functioning of representative democracy To provide scholars students and policy makers with a tool to navigate through the complexity of causes and consequences of political trust this Handbook offers an excellent overview of the conceptual theoretical methodological and empirical state of the art complemented by accounts of regional particularities and authored by international experts in this field Political Advocacy and American Politics Sean Richey, J. Benjamin Taylor, 2020-12-30 *Political Advocacy and American Politics* provides a detailed explanation as to why citizens engage in interpersonal advocacy in the United States Sean Richey and J Benjamin Taylor eloquently show how the campaigns social media and personality and partisanship affect one s propensity for candidates which often leads to arguments about politics Using original qualitative survey and experimental studies Richey and Taylor demonstrate the causes of political advocacy over time in the political environment and at the individual level While some worry about the incivility in American politics Richey and Taylor argue political talk where conflict is common is caused by high activity democratic processes and normatively beneficial individual attributes Furthermore Richey and Taylor argue that advocacy when conceptualized as a democratic release valve is exactly the kind of conflict we might expect in a vibrant democracy *Political Advocacy and American Politics Why People Fight So Often About Politics* is ideal for university students and researchers yet it is also accessible to any reader looking to learn more about the role campaigns and personal attributes play in the decision to advocate *Political Communication in Direct Democratic Campaigns* H. Kriesi, 2011-12-02 Analyzes the communication processes in direct democratic campaigns and their effect on the opinion formation of the voters Based on a detailed analysis of the politicians strategies media coverage and the opinion formation of the public in three campaigns this book argues that the campaigns are more enlightening than manipulating
