Hobbes Against Friendship Gabriella Slomp, 2022-03-31 This book explores why and how Thomas Hobbes the 17th century founder of political science contributed to the modern marginalisation of friendship a concept that stood in the foreground of ancient moral and political thought and that is currently undergoing a revival The study shows that Hobbes did not question the occurrence of friendship rather he rejected friendship as an explanatory and normative principle of peace and cooperation Hobbes s stance was influential because it captured the spirit of modernity its individualism nominalism practical scepticism and materialism Hobbes s legacy has a bearing on contemporary debates about civic international and global friendship

Leo Strauss in Northeast Asia Jun-Hyeok Kwak, Sungwoo Park, 2019-10-23 This book analyzes the reception of Leo Strauss and his political philosophy in Northeast Asia By juxtaposing the central idea of Strauss s political philosophy with the question of modernity the contributors explore the eclectic adaptations of Strauss in Northeast Asian countries as a philosophical appropriation across cultures Examining how Strauss s philosophy was first introduced in Northeast Asia the book sheds light on the similarities and differences in experiences challenging the dominant approach which attributes various receptions of Strauss in Northeast Asia solely to sociopolitical circumstances This book also seeks to move beyond a China centric approach to investigate the possible transcultural appeals of Strauss s political philosophy by exploring the cases of Japan and South Korea Appealing to a wide network of scholars and practitioners in East Asia engaged in rethinking cultural particularities this volume will be attractive to upper level undergraduate students graduate students and advanced researchers in political philosophy political theory and Asian politics

The Other's War Tarik Kochi, 2009-05-07 The Other s War is an intervention into a set of contemporary moral political and legal debates over the legitimacy of war and terrorism within the context of the so called global War on Terror Tarik Kochi considers how despite the variety of its approaches just war theory classical realist post Kantian poststructuralist contemporary ethical political and legal philosophy still struggles to produce a convincing account of war Focusing on the philosophical problem of the rightness of war The Other s War responds to this lack Through a discussion of a number of key Western intellectual traditions Kochi demonstrates how often conflicting and contradictory conceptions of war s rightness have developed in

modernity He shows how a process of ordering violence around different notions of right has constantly redrawn the boundaries of what constitutes legitimate violence Such a process has consequences for anyone who claims to be fighting a just war Building upon this account and drawing upon the philosophical heritage of G W F Hegel and Ernst Bloch *The Other's War* proposes a new understanding of war not just as a social condition characterised by violent conflict and struggles for power but as the attempt of individuals and groups to realise their normative claims through violence Kochi argues that both of these aspects of war are an expression of the metaphysics of human subjectivity War begins with and is the radical exaggeration of a fundamental activity of human subjectivity in which the subject constitutes its normative and material identity realising and positing itself through acts that involve negation and violence By drawing consideration of the problem of war back to the level of a philosophical examination of the metaphysics of human subjectivity *The Other's War* develops a novel theory of war that helps us to better understand the nature of contemporary conflict as a process of recognition From this perspective judgment it is concluded needs to be constantly guided by the effort to recognise the ethics of the other's war
