# Political Structural Technological Change

**Govindan Parayil**

## **Political Structural Technological Change:**

**Conceptualizing Technological Change** Govindan Parayil, 2002 Technological change has been rightfully identified as the single most important factor for improving material well being Yet despite its centrality in our lives we seem to know very little about technology and how it develops and changes both spatially and temporally In this original and thoughtful book Govindan Parayil draws together current scholarship from disciplines ranging from history to economics to sociology as he develops a cohesive theory of technological change Drawing on a detailed case study of the Green Revolution in Indian agriculture Parayil convincingly argues that technological change is contingent upon the social historical process of knowledge change Thus he explores the policy implications of analyzing technological change as a problem solving activity An innovative contribution to the literature on technological change this ambitious book will also be valuable for those interested in such practical applications as understanding the process of technology transfer

**Management of Technological Change** E.G. Frankel, 2012-12-06 Technological change has been recognized as the major contributor to economic growth and has become one of the most important challenges to policy makers and managers Many excellent books and papers have been written on the subject Most of these deal with the macro or micro economic impact of technological change or the technological change process from invention and discovery to innovation development and final maturity as well as ultimate obsolescence of technology This book is designed to present technological change as a decision process and explain the use of recently developed methods for the effective management of technological change In particular techniques for the effective choice among technological alternatives timing of the introduction of new technology both in terms of its own status and that of the technology to be replaced if any and the rate and method of introduction of new technology are presented Management of technology is a complex decision process which is affected by both internal and external factors The purpose of this book is to instruct the reader in effective technology decision making which involves the evaluation of the status of technology in use if any the problem to be solved or output to be obtained determination of environmental and internal constraints and the competitive environment or market conditions which affect the technology decisions

**Market Structure and Technological Change** W. Baldwin, J. Scott, 2013-06-17 This book provides a survey of the theory and of the empirical knowledge about the links between market structure and technological change

*A New Structure for National Security Policy Planning* Stephen A. Cambone, 1998-10-30

*Technology in American Water Development* Edward A. Ackerman, George O.G. Loff, 2013-11-26 Technology in American Water Development is an exploratory study This book addresses the proven technology which has influenced water development in the past those still effective in shaping its course and the emerging technology of today The heart of this study is in the thirty one case descriptions selected from both the emerging and proven technology Each case description has been treated as briefly as is consistent with clarity and nontechnical language has been used wherever possible This title will help to introduce engineers and physical scientists to

the administrative problems and opportunities which stem from their works

**Inequality, Economic Growth, and Technological Change** Volker Grossmann, 2012-12-06 The book examines the relationship between inequality growth and technological progress It provides a broad overview of the existing literature and introduces specific innovative aspects about the impact of inequality and redistribution on growth when growth is driven by human or physical capital investments as well as the impact of technological progress and accumulation on the distribution of earnings There is a special focus on the role of social comparison redistributive taxation and new information technologies for the relationship between inequality and growth The analytical part of the book mainly consists of endogenous growth models

*Creative Technological Change* Ian Mccloughlin, 2002-03-11 Creative Technological Change draws upon a wide range of thinking from organisational theory innovation studies and the sociology of technology It explores the different ways in which these questions have been framed and answered especially in relation to new virtual technologies The idea of metaphor is used to capture the differences between and strengths and weaknesses of various ways of conceptualising the technology organisation relationship This approach offers the possibility of developing new ways of thinking about viewing and ultimately responding creatively to the organisational challenges posed by technological change

Domestic Political Structures and Regional Economic Co-operation Harold A. Crouch, 1984 The first issue of six in the ASEAN Political Studies series the purpose of this study is to examine how the contrasting domestic political structures of the ASEAN countries might affect the prospects of regional economic cooperation and integration It is often said that certain governments lack the political will needed to implement policies designed to enhance regional cooperation and integration In this study an attempt is made to understand why some governments have more political will power than others

Technological Change, Development and the Environment Clem Tisdell, Priyatosh Maitra, 2018-04-09 Originally published in 1988 this book considers some of the major social economic and environmental questions raised by the role of new technology in development Throughout the discussions of issues like the sustainability of the development effected by new technology is supported by detailed case studies from countries such as India Australia New Zealand China Bangladesh and South Africa

*Technology and International Transformation* Geoffrey L. Herrera, 2012-02-01 During an era in which the pace of technological change is unrelenting understanding how international politics both shapes and is shaped by technology is crucial Drawing on international relations theory historical sociology and the history of technology Geoffrey L Herrera offers an ambitious theoretically sophisticated and historically rich examination of the interrelation between technology and international politics He explores the development of the railroad in the nineteenth century and the atomic bomb in the twentieth century to show that technologies do not stand apart from but are intimately related to even defined by international politics

*How Computers Entered the Classroom, 1960-2000* Carmen Flury, Michael Geiss, 2023-06-19 In the history of education the question of how computers were introduced into European classrooms has so far been largely neglected This edited volume strives to address this gap The

contributions shed light on the computerization of education from a historical perspective by attending closely to the different actors involved such as politicians computer manufacturers teachers and students political rationales and ideologies as well as financial political or organizational structures and relations The case studies highlight differences in political and economic power as well as in ideological reasoning and the priorities set by different stakeholders in the process of introducing computers into education However the contributions also demonstrate that simple cold war narratives fail to capture the complex dynamics and entanglements in the history of computers as an educational technology and a subject taught in schools The edited volume thus provides a comprehensive historical understanding of the role of education in an emerging digital society

*Global Justice and the Politics of Information* Sky Croeser, 2014-09-19 The global social justice movement attempts to build a more equitable democratic and environmentally sustainable world However this book argues that actors involved need to recognise knowledge including scientific and technological systems to a greater extent than they presently do The rise of the Occupy movement the Arab Spring and the Wikileaks controversy has demonstrated that the internet can play an important role in helping people to organise against unjust systems While governments may be able to control individual activists they can no longer control the flow of information However the existence of new information and communications technologies does not in itself guarantee that peoples movements will win out against authoritarian governments or the power of economic elites Drawing on extensive interviews and fieldwork this book illustrates the importance of contributions from local movements around the world to the struggle for global justice Including detailed case studies on opposition to genetically modified crops in the south of India and the digital liberties movement this book is vital reading for anyone trying to understand the changing relationship between science technology and progressive movements around the world This book will be of interest to students and scholars of International Politics Social movements Global Justice and Internet politics

[Key Thinkers on Development](#) David Simon, 2019-04-02 Since its publication in 2006 as *Fifty Key Thinkers on Development* this invaluable reference has established itself as the leading biographical handbook in its field providing a concise and accessible introduction to the lives and key contributions of development thinkers from across the ideological and disciplinary spectrum This substantially expanded and fully updated second edition in the relaunched series without the numerical constraint includes an additional 24 essays filling in many gaps in the original selection greatly improving the gender balance and diversifying coverage to reflect the evolving landscape of development in theory policy and practice It presents a unique guide to the lives ideas and practices of leading contributors to the contested terrain of development studies and development policy and practice Its thoughtful essays reflect the diversity of development in theory policy and practice across time space disciplines and communities of practice Accordingly it challenges Western centrism Orientalism and the like while also demonstrating the enduring appeal of development in different guises David Simon has assembled a highly authoritative team of contributors from different backgrounds regional settings and disciplines to reflect

on the lives and contributions of leading authorities on development from around the world These include Modernisers like Kindleberger Perroux and Rostow Dependencistas such as Frank Furtado Cardoso and Amin Progressives and critical modernists like Hirschman Prebisch Helleiner Sen Streeten and Wang Political leaders enunciating radical alternative visions of development such as Mao Nkrumah and Nyerere Progenitors of religiously or spiritually inspired development such as Gandhi Ariyaratne and Vivekananda Development environment thinkers like Agarwal Blaikie Brookfield Ostrom and Sachs International institution builders like Singer Hammarskjöld Kaul and Ul Haq Anti and post development thinkers and activists like Escobar Ghosh Quijano and Roy Key Thinkers on Development is therefore the essential handbook on the world's most influential development thinkers and an invaluable guide for students of development and sustainability policy makers and practitioners seeking an accessible overview of this diverse field and its leading voices

*Comprehensive Modern Political Analysis* N. Jayapalan, 2002 The Book Deals With All Aspects Of Modern Political Analysis In Detail In This Book The Nature And Scope Of Politics Is Beautifully Described In The First Chapter In The Following Chapters The Main Features Of The Study I E Behaviouralism Group Theory Game Theory Political Culture And Political Socialisation Have Been Discussed In A Clear And Lucid Way The Chapters On Political Participation And Political Evaluation Have Been Presented In A Pleasing Manner So As To Cater To The Needs Of The Students Of Politics And Public Administration In The Last Chapter Theories Of Social Change Highlight The Political Ideas Of Mahatma Gandhi And Mao Tse Tung In An Excellent Manner Greater Importance Has Been Given In This Chapter To The Methods Of Gandhiji To Achieve His Ends In All Fields For The Welfare Of The People

**Crypto-Politics** Linda Monsees, 2019-07-19 This book examines current debates about the politics of technology and the future of democratic practices in the digital era The volume centres on the debates on digital encryption in Germany and the USA during the aftermath of Edward Snowden's leaks which revolved around the value of privacy and the legitimacy of surveillance practices Using a discourse analysis of mass media and specialist debates it shows how these are closely interlinked with technological controversies and how as a result contestation emerges not within one public sphere but within multiple expert circles The book develops the notion of publicness in order to grasp the political significance of these controversies thereby making an innovative contribution to Critical Security Studies by introducing digital encryption as an important site for understanding the broader debates on cyber security and surveillance This book will be of much interest to students of critical security studies science and technology studies and International Relations

Industry and Politics in West Germany Peter J. Katzenstein, 2018-08-06 Dynamic technological developments in industrial production the rise of new social movements in national politics and great changes in the international political economy have left a deep imprint on the Federal Republic A compelling explanation of West Germany's success in maintaining economic prosperity and political stability under such challenging conditions has continued to elude observers Under the editorship of Peter J Katzenstein thirteen distinguished scholars from both sides of the Atlantic here provide an original

interpretation of the political economy of the Bonn Republic during the forty years since its founding and explore in particular its extraordinary capacity for accommodating change Whereas studies in political economy have typically focused on one level of political action either the shop floor or national politics or the international system this innovative account analyzes the interaction of change at all three levels bringing together case studies drawn from six manufacturing and service sectors

**Educational Implications of Technological Change** United States. National Commission on Technology, Automation, and Economic Progress, 1966

*Arms and the State* Keith Krause, 1995-08-10 This book analyses the structure and motive forces that shape the global arms transfer and production system

*Technology and Security* Brian Rappert, 2007-10-11 This book takes forward the existing state of academic understanding where security and technology intersect It assesses the challenges posed by emerging scientific and technological developments for security while understanding how perceptions of security threats are themselves formed in relation to conceptions of science and technology

**Global Transition** Graeme Donald Snooks, 1999-08-31 Global Transition is an innovative study that analyses the problems and prospects of the Third World by building on the theoretical contribution the dynamic strategy model made in the author's acclaimed Longrun Dynamics It formulates a general economic and political theory he calls the global strategic transition GST model The central feature of this model is the global strategic demand response mechanism involving an interaction between the world's expanding strategic core and its fringe which is facilitated through strategic inflation This model also provides the basis for a new policy approach to economic development
