Bachrach,2024-10-28 In these articles Professor Bachrach starts by looking at aspects of the barbarian occupation of the land of the Roman Empire from Britain to the Alan settlements in southern Gaul His particular interest however is in the political and above all in the military structures that grew out of the Early Middle Ages He has sought to demonstrate that there was a fundamental continuity in military organisation and tactics from the Merovingian through the Carolingian period As he shows there is no reason to connect the origins of feudalism with Charles Martel s wish to create a force of cavalry and it is a fallacy that he grasped the potential of the stirrup for enabling mounted shock combat On the contrary its use in the West progressed only slowly and it had nothing to do with the origins or growth of feudalism Le professeur Bachrach d bute par l analyse de certains aspects de l occupation barbare des terres de l empire romain de la Grande Bretagne aux campements alans en Gaule m ridionale Il s attache en suite aux structures politiques et surtout militaires qui furent issues du Haut Moyen Age Selon lui et il tente d en faire ici la d monstration l organisation et les tactiques militaires ont fait preuve d une continuit fondamentale de l poque m rovingienne celle des Carolingiens Comme il le demontre il n y a pas lieu d tablir de liens entre l origine du f odalisme et le d sir qu avait Charles Martel de cr er une cavalerie il est galement tout fait erron de dire que ce dernier s tait rendu compte du potentiel de l trier en tant que facteur de mener des combats cheval de choc Bien contraire l utilisation de l trier l Ouest ne fit que progresser lentement et aucun rapport n existe entre cet instrument et l origine ou la croissance de la f odalit

Devadevan,2020-12-03 India is generally regarded as a civilization with a set of intrinsic attributes that emerged in the age of the Vedas or better still in the Harappan times In recent decades historical studies have moved away from rigid perspectives of singularity in origin and expansion the emphasis now is on pluralities and long term processes spanning centuries and millennia There is also an

influential school of thought which rejects antiquity claims such as these and holds that India is a construct of the colonial and nationalist imagination In his radical reinterpretation of India s past Manu V Devadevan moves away from these reifying assessments to examine the evolution of institutions ideas and identities that are characterized typically as Indian In lieu of endorsing their Indianness he traces their emergence to specific conditions that developed in India between 600 and 1200 CE a period which historians now call the early medieval **The Early Medieval World** Michael Frassetto,2013-03-14 This book examines a pivotal period in ancient human history the fall of the Roman Empire and the birth of a new European civilization in the early Middle Ages The Early Medieval World From the Fall of Rome to the Time of Charlemagne addresses the social and material culture of this critical period in the evolution of Western society covering the social political cultural and religious history of the Mediterranean world and northern Europe The two volume set explains how invading and migrating barbarian tribes spurred by raiding Huns from the steppes of Central Asia contributed to the fall of the Western Roman Empire and documents how the blending of Greco Roman Germanic and Christian cultures birthed a new civilization in Western Europe creating the Christian Church and the modern nation state A Z entries discuss political transformation changing religious practices in daily life sculpture and the arts material culture and social structure and provide biographies of important men and women in the transitional period of late antiquity The work will be extremely helpful to students learning about the factors that contributed to the decline of the Roman Empire an important and common topic in world history curricula *Politics, Kingship and Poetry in Medieval South India* Whitney Cox,2016-10-27 Whitney Cox presents a fundamental re imagining of the politics of pre modern India through a revisionist reading of the Chola dynasty a medieval South Asian superpower Utilizing a series of textual sources this innovative study poses comparative and conceptual questions about politics history agency and representation in the pre modern world Political Structure in India Mr. Rohit Manglik,2023-11-23 In this book we will study about the political institutions and governance systems in India including the Constitution executive legislature judiciary and federalism **Social Identity in Early Medieval Britain** William O. Berndt,Stefan Esders,Laury Sarti,2021-04-13 The societies of ancient Europe underwent a continual process of militarisation and this would come to be a defining characteristic of the early Middle Ages The process was neither linear nor mono causal but it affected society as a whole encompassing features like the lack of demarcation between the military and civil spheres of the population the significance attributed to weapons beyond their military function and the wide recognition of martial values Early medieval militarisation assembles twenty studies that use both written and archaeological evidence to explore the phenomenon of militarisation and its impact on the development of the societies of early medieval Europe The interdisciplinary investigations break new ground and will be essential reading for scholars and students of related fields as well as non specialists with an interest in early medieval history    Re-Thinking Kinship and Feudalism in Early Medieval Europe Stephen D. White,2023-07-07 This is the second collection of studies by Stephen D White to be published by Variorum the first being Feuding and Peace Making in Eleventh Century France The essays in this volume look principally at France and England from Merovingian and Anglo Saxon times up to the 12th century They analyze Latin and Old French discourses that medieval nobles used to construct their relationships with kin lords men and friends and investigate the political dimensions of such relationships with

particular reference to patronage clientage the use of land as an item of exchange and feuding In so doing the essays call into question the conventional practice of studying kinship and feudalism as independent systems of legal institutions and propose new strategies for studying them **Charlemagne's Practice of Empire** Jennifer R. Davis,2015-08-20 Revisiting one of the great puzzles of European political history Jennifer R Davis examines how the Frankish king Charlemagne and his men held together the vast new empire he created during the first decades of his reign Davis explores how Charlemagne overcame the two main problems of ruling an empire namely how to delegate authority and how to manage diversity Through a meticulous reconstruction based on primary sources she demonstrates that rather than imposing a pre existing model of empire onto conquered regions Charlemagne and his men learned from them developing a practice of empire that allowed the emperor to rule on a European scale As a result Charlemagne s realm was more flexible and diverse than has long been believed Telling the story of Charlemagne s rule using sources produced during the reign itself Davis offers a new interpretation of Charlemagne s political practice free from the distortions of later legend Irish Kingship in the Eleventh and Twelfth Centuries Ronan Mulhaire,2025-05-23 Irish Kingship in the Eleventh and Twelfth Centuries examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance **The British Isles, 1100–1500** Sir Rees Davies,2021-11-01 Academic writing in Britain and Ireland has tended to treat the histories of England Ireland Scotland and Wales as discrete subjects of study This approach is understandable but it does lead to the creation of artificial boundaries within the historical study of the British Isles and in particular overlooks the often close links between the different countries and societies within these islands Equally it inhibits the opportunity to compare and contrast the countries and societies and explain where and why their paths have diverged or merged This book is a pioneering attempt to show how the historical understanding of the period 1100 1500 may be enriched by adopting a British Isles approach Some of the chapters approach general issues such as political structures aristocracies law and literacy others focus on more particular problems both between the countries and within them **Samurai, Warfare and the State in Early Medieval Japan** Karl F. Friday,2004 This book is a broadly cast study of the purposes methods technology and mores of warfare among the early samurai and their relationship to the polity and
