Radical Identity Politics Torben Bech Dyrberg, 2020-07-31 This book outlines significant traits of radical leftist identity politics In this type of discourse arguments are organized around global friend enemy schemes in ways that are at odds with the right left matrix of democracy This is shown by combining discourse analysis of how leftist critics argue in public debates centred on their reactions to the Charlie Hebdo massacre in 2015 and theoretical discussions on leftist identity politics orbiting around Schmitt Marcuse and Mouffe It is argued that the friend enemy approach sacrifices the egalitarian and libertarian core values of the Left leading it to adopt positions used to brand the reactionary Right It also holds that leftist identity politics undermines democracy by moralizing enmity and stigmatizing dissent and by promoting an elitist and relativist agenda Against this background the book looks at the nature of the right left distinction and its political functions in modern democracy This is further elaborated in relation to the works of Foucault and Rawls s analyses of parrhesia free speech and public reason which provide a more fruitful approach to right left and democracy than those based on enmity For Foucault and Rawls a vibrant pluralist democracy relies on the autonomy of politics which secures a space in which citizens are free and equal which is crucial for free speech and assembly They focus on issues related to the autonomy of politics and the freestanding nature of public reason right left as lateral political orientation coupled with fairness as political justification and the links between regime form and political community as decisive for democracy

infrastructure payment and technical procedures become sites where citizenship is mediated and contested She follows engineers utility officials and local bureaucrats as they consider ways to prompt Sowetans to pay for water and she shows how local residents and activists wrestle with the constraints imposed by meters This investigation of democracy from the perspective of infrastructure reframes the conventional story of South Africa s transition foregrounding the less visible remainders of apartheid and challenging readers to think in more material terms about citizenship and activism in the postcolonial world Democracy s Infrastructure examines how seemingly mundane technological domains become charged territory for struggles over South Africa s political transformation

Television, Democracy, and the Mediatization of Chilean Politics Harry L. Simón Salazar,2017-12-26 After seventeen years as dictator of Chile in 1990 Augusto Pinochet ceremoniously handed the presidential sash to the leader of his legal opposition to formalize the peaceful transition to civilian rule in that country Among the many idiosyncrasies of this extraordinary transfer of political power the most memorable is the month long nationally televised campaign of uncensored political advertising known as the Franja de Propaganda Electoral the Official Space for Electoral Propaganda Produced by Pinochet s supporters and the legal opposition the 1988 Franja campaign set out to encourage voters to participate in a plebiscite that would define the democratic future of Chile Harry L Sim n Salazar presents a valuable historical account new empirical research and a unique theoretical analysis of the televised Franja campaign to examine how it helped the Chilean people reconcile the irreconcilable and stabilize a contradictory relationship between what was politically implausible and what was represented as true and viable in a space of mediated political culture This contribution to the field of political communication research will be useful for scholars students and a general public interested in Latin American history and democracy as well as researchers of media communication theory and cultural studies Television Democracy and the Mediatization of Chilean Politics also helps inform a more critical understanding of contemporary hyper mediated political movements such as the Arab Spring Occupy Wall Street Black Lives Matter and the particularly germane phenomenon of Trumpism

production as a means to reduce carbon emissions with both the risks and potential of this nuclear option carefully weighed. Although many tout renewable energy sources for their environmental benefits, Section Three calls attention to several potential problems with large scale renewable energy development and the dilemmas that they have caused for would be supporters of such efforts. Finally, Section Four weighs the prospects for developing sustainable energy systems on the ground, including conservation measures that reduce energy demand and system wide energy policy efforts. This book was originally published as a special issue of *Environmental Politics*. **Nigerian Politics** Rotimi Ajayi, Joseph Yinka Fashagba, 2020-12-03. This volume engages in an in depth discussion of Nigerian politics. Written by an expert group of Nigerian researchers, the chapters provide an overarching Afrocentric view of politics in Nigeria from pre colonial history to the current federal system. The book begins with a series of historical chapters analyzing the development of Nigeria from its traditional political institutions through the First Republic. After establishing the necessary historical context, the next few chapters shift the focus to specific political institutions and phenomena, including the National Assembly, local government and governance, party politics and federalism. The remaining chapters discuss issues that continue to affect Nigerian politics: the debt crisis, oil politics in the Niger Delta, military intervention and civil military relations, as well as nationalism and inter group relations. Providing an overview of Nigerian politics that encompasses history, economics and public administration, this volume will be useful to students and researchers interested in African politics, African studies, democracy, development, history and legislative studies. **Migrant Politics and Mobilisation** Davide Pero, John Solomos, 2013-09-13. In recent years, immigration and the integration of migrants and minorities have become politicised in public and policy debates in Britain, the rest of Europe and the United States. In such debates, migrants are commonly treated as objects of politics and spoken in terms of management, national interest, control and contention. This treatment has characterised not only policy makers and politicians but also many academics. Existing scholarly research on migrants as subjects of politics is limited and largely carried out through detached and structural approaches. These approaches have focused on the institutional environments in which mobilisations develop. They have, however, overlooked migrants' conditions, experiences, subjectivities and practices, as well as the focus of their engagement. This volume contributes to the study of migrants' mobilisation through theoretically informed, original empirical papers focusing on current forms and aspects of migrants and minorities' practices of citizenship in an engaged and people centred manner. In particular, the book addresses issues of change both in the forms assumed by migrants and minorities' political engagements and in the transformations these engagements produce, as well as exclusion/inclusion dynamics that migrants experience with regard to the political process and more generally. This book was previously published as a special issue of *Ethnic and Racial Studies*. **Water Governance: Retheorizing Politics** Nicole J. Wilson, Joanne Nelson, Sameer H. Shah, Leila M. Messner, 1997-09-06 The profound changes wrought by the feminist movement were by no means restricted to women In the years since feminism has taken root the role of men and masculinity has begun to undergo its own redefinition Michael A Messner provides a sociological framework to understand the responses of men to the changes challenges and crises in the social organization of gender By examining not only what certain groups of men say about gender but what they do Messner helps to illuminate the various social movements engaged with the politics of masculinity *Politics of Masculinities* is one of the first books in the new Gender Lens series which will look at the social world through the lens of gender The mission of the series is to unpack the assumptions about gender that pervade social life and to examine the centrality of these assumptions to the way we perceive and interpret our world *Politics of Masculinities* is an ideal introduction to the discussion of gender roles and masculinity This book will be of interest to students and professionals involved in gender studies sociology and mens studies
