Enayat,2005-06-24 The revival and power of religious feelings among Muslims since the Iranian revolution presents a complicated and often perplexing picture of the politics of modern Islam What are the ideas which have influenced the direction of these trends Here Hamis Enayat provides an answer by describing and interpreting some of the major Islamic political ideas especially those expressed by Iranians and Egyptians as well as thinkers from Pakistan India Lebanon Syria and Iraq He examines the political differences between the two main schools in Islam Shi ism and Sunnism Also covered in the book is the concept of the Islamic state and the Muslim response to the challenge of alien and modern ideologies such as nationalism democracy and socialism as well as notions of Shi i modernism      Encyclopedia of Political Theory Mark Bevir,2010-03-18 Looking at the roots of contemporary political theory this three volume set examines the global landscape of all the key theories and the theorists behind them and provides concise to the point definitions of key concepts ideas schools and figures      Gramsci Contested: Interpretations, Debates, and Polemics, 1922--2012 Guido Liguori,2021-12-28 Antonio Gramsci is one of the most globally celebrated figures of twentieth century Italy renowned in the world for his contributions to philosophy political theory sociology cultural studies and historiography Yet his work has been equally discussed debated and contested within Italy itself a constant reference point whether in fervent agreement or angry polemics for parties and tendencies across the Italian le ft from the late 1910s down to our present day In this fundamental overview of Gramsci s reception in Italy and his contested legacy within a range of traditions Guido Liguori provides a balanced view of the many uses to which Gramsci s thought has been put with a particular focus on the important relationship with the Italian Communist Party leader Palmiro Togliatti This book was first published in Italian as Gramsci conteso Storia di un dibattito 1922 1996 by Editori Riuniti 1996 2nd Ed 2012      *Religion and Political Thought* Michael Hoelzl,Graham Ward,2006-06-30 This book provides an essential resource for studies in religion and politics It is divided into three parts beginning with an introduction outlining the contemporary relevance of reviewing the relationship between the two subject areas a brief history of the interactions between religion and politics that have pertained both in East and the West and the key concepts that relate these two fields The second section comprises a selection of classic readings This title is ideal for students of both religion and politics and general readers who are interested in the topics      *Politics and 'Politiques' in Sixteenth-Century France* Emma Claussen,2021-06-17 Explores conceptions of politics in early modern France and the controversies the word politique attracted during the Wars of Religion      **Polemic** Almut Suerbaum,George Southcombe,2016-03-03 If terms are associated with particular historical periods then polemic is firmly rooted within early modern print culture the apparently inevitable result of religious controversy and the rise of print media Taking a broad European approach this collection brings together specialists on medieval as well as early modern culture in order to challenge stubborn assumptions that medieval culture was homogenous and characterized by consensus and that literary discourse is by nature eirenic Instead the volume shows more clearly the continuities and discontinuities especially how

medieval discourse on the sins of the tongue continued into early modern discussion how popular and influential medieval genres such as sermons and hagiography dealt with potentially heterodox positions and the role of literary especially fictional debate in developing modes of articulating discord as well as demonstrating polemic in action in political and ecclesiastical debate Within this historical context the position of early modern debates as part of a more general culture of articulating discord becomes more clearly visible The structure of the volume moves from an internal textual focus where the nature of polemic can be debated through a middle section where these concerns are also played out in social practice to a more historical group investigating applied polemic In this way a more nuanced view is provided of the meaning role and effect of polemic both broadly across time and space and more narrowly within specific circumstances The Politics of Not Speaking Elad Lapidot, 2025-02-01 In contrast to the common understanding of politics as a domain of speaking reveals an alternative tradition where the spoken word fails collapses breaks i e a politics of not speaking According to a common conception modern politics is based on speaking on discussion and rational argumentation on logos In contrast The Politics of Not Speaking argues that politics is based not on speaking but on the suspension of conversation on the break of rational discourse on logoclassm on politics of not speaking Elad Lapidot presents the notion of politics as logoclassm through readings of five canonic thinkers of the twentieth century Carl Schmitt Martin Heidegger Frantz Fanon Gayatri Spivak and Jacques Derrida Tracing the development of the politics of not speaking from the 1930s to the 1990s he shows how the notion of logoclassm the rupture of rational discussion explains key notions in modern politics such as sovereignty law the state violence war race colonialism decolonization and boycott and sheds light on current debates concerning the Boycott Divestment Sanctions BDS movement and the Gaza war **Contemporary Korean Political Thought and Park Chung-hee** Jung In Kang, 2017-06-12 This important new book identifies the distinctive characteristics of the ideological terrain in contemporary South Korean politics and reexamines the political thought of Park Chung hee 1917 1979 the most revered albeit the most controversial former president in the history of South Korea in light of those characteristics Jung In Kang articulates simultaneity of the nonsimultaneous and the sanctification of nationalism as the most preeminent characteristics of the Korean ideological topography which are distinct from those of modern Western Europe while acknowledging the overwhelming and informing influence of modern Western civilization in shaping contemporary Korean politics and ideologies He goes on to analyze the political thought of Park Chung hee in this way investigating and confirming the academic validity and relevance of those ideological characteristics in more specific terms The book assesses how nonsimultaneity and sanctification are interwoven with Park s thought while reconstructing the political thought of President Park in terms of four modern ideologies liberalism liberal democracy conservatism nationalism and radicalism Kang concludes by tracing the changes undergone by simultaneity and sanctification in the three decades since democratization with some speculation on their future and by examining the ideological legacy and ramifications of Park Chung hee s

authoritarian politics in the twenty first century      **Performative Polemic** Kathrina Ann LaPorta,2021-06-21 Performative Polemic is the first literary historical study to analyze the war of words unleashed in the pamphlets denouncing Louis XIV's absolute monarchy between 1667 and 1715 As conflict erupted between the French ruler and his political enemies pamphlet writers across Europe penned scathing assaults on the Sun King's bellicose impulses and expansionist policies This book investigates how pamphlet writers challenged the monarchy's monopoly over the performance of sovereignty by contesting the very mechanisms through which the crown legitimized its authority at home and abroad Author Kathrina LaPorta offers a new conceptual framework for reading pamphlets as political interventions asserting that an analysis of the pamphlet's form is crucial to understanding how pamphleteers seduced readers by capitalizing on existing markets in literature legal writing and journalism Pamphlet writers appeal to the theater going public that would have been attending plays by Molière and Racine as well as to readers of historical novels and periodicals Pamphleteers entertained readers as they attacked the performative circuitry behind the curtain of monarchy      **The Religious Polemics of the Muslims of Late Medieval Christian Iberia** Mònica Colominas Aparicio,2018-04-17 The Religious Polemics of the Muslims of Late Medieval Christian Iberia examines the corpus of polemical literature against the Christians and the Jews of the protected Muslims Mudejars Commonly portrayed as communities in cultural and religious decay Mònica Colominas convincingly proves that the discourses against the Christians and the Jews in Mudejar treatises provided authoritative frameworks of Islamic normativity which helped to legitimize the residence of their communities in the Christian territories Colominas argues that while the primary aim of the polemics was to refute the views of their religious opponents Mudejar treatises were also a tool used to advance Islamic knowledge and to strengthen the government and social cohesion of their communities      *Towards a Polemical Ethics* Gregory Fried,2021-04-07 Martin Heidegger held Plato responsible for inaugurating the slow slide of the West into nihilism and the apocalyptic crisis of modernity In this book Gregory Fried defends Plato against Heidegger's critiques While taking seriously Heidegger's analysis of human finitude and historicity Fried argues that Heidegger neglects the transcending ideals that necessarily guide human life as situated in time and place That neglect results in Heidegger's disastrous politics unhinged from a practical reason grounded in the philosophical search from a truth that transcends historical contingency Thinking both with and against Heidegger Fried shows how Plato's skeptical idealism provides an ethics that captures both the situatedness of finite human existence and the need for transcendent ideals The result is a novel way of understanding politics and ethical life that Fried calls a polemical ethics which mediates between finitude and transcendence by engaging in constructive confrontation with both traditions and other persons The contradiction between the founding ideals of the United States and its actual history of racism and slavery provides an occasion to discuss polemical ethics in practice      *Neuronflashing the Polemic* Leonard L. Clark,Leonard L. Clark Iii M.A.Ed M.S. Psy,Leonard L Clark M a Ed M S Psy, III,2012-10 We as individuals share the world with others we fear hate or envy We inhabit the earth with

individuals we respect love and admire There are many individuals we can't quite figure out and this makes us disregard them Why is it that we spend the most physical and mental energy on those individuals who fall into the negative categories of fear hate or envy In this collection of essays Leonard Clark explores the philosophical psychological political and cultural manifestations of these negative emotional states Why are we all so paranoid irritated and agitated

**Woman: History and Critique of a Polemical Concept** Paola Rudan, 2023-08-28 The book follows the movements of the concept of woman from the Early modern to the post colonial age through the words of women who challenged its patriarchal definition The concept of woman is doubly polemical It affirms sexual difference as political difference while denying the universal character of modern political concepts which represent the unity of the political and social order exposing its fundamental division At the same time woman is a concept marked by differences of race class culture that continually redetermine its content To make the history of the concept of woman is thus to affirm a different perspective on history itself a partial perspective that lays the groundwork for the feminist critique of the present

**Polemical Encounters** Mercedes García-Arenal, Gerard Wiegers, 2018-12-03 This collection takes a new approach to understanding religious plurality in the Iberian Peninsula and its Mediterranean and northern European contexts Focusing on polemics works that attack or refute the beliefs of religious Others this volume aims to challenge the problematic characterization of Iberian Jews Muslims and Christians as homogeneous groups From the high Middle Ages to the end of the seventeenth century Christian efforts to convert groups of Jews and Muslims Muslim efforts to convert Christians and Jews and the defensive efforts of these communities to keep their members within the faiths led to the production of numerous polemics This volume brings together a wide variety of case studies that expose how the current historiographical focus on the three religious communities as allegedly homogeneous groups obscures the diversity within the Christian Jewish and Muslim communities as well as the growing ranks of skeptics and outright unbelievers Featuring contributions from a range of academic disciplines this paradigm shifting book sheds new light on the cultural and intellectual dynamics of the conflicts that marked relations among these religious communities in the Iberian Peninsula and beyond In addition to the editors the contributors are Antoni Biosca i Bas Thomas E Burman Mónica Colominas Aparicio John Dagenais scar de la Cruz Borja Franco Llopis Linda G Jones Daniel J Lasker Davide Scotto Teresa Soto Ryan Szpiech Pieter Sjoerd van Koningsveld and Carsten Wilke
