controversial aspects such as the commercial strategies he used to disseminate his work The second part of the book the
catalogue raisonn proper consists of entries for each of the paintings studied including information on their provenance
condition restoration history related literature iconography visual sources and critical fortunes It features a total of 99
paintings executed on different supports and in various media which span all the stages of his production except the period
following his return to Naples in 1702 This catalogue is the result of many years of thorough research conducted by its
author Andr s beda de los Cobos Deputy Director for Conservation and Research at the Museo del Prado He is a specialist on
