Then there are the stories of Alien Abductions, the first of which began in Brazil, October 1957. With many books and films recounting these events, you may recognize some of the more popular stories, but we never seem to get tired of unusual, bizarre, and unanswered questions about these events. Inside, you will find a bit of ancient history up to the present time, covering many of the bizarre stories of Alien Abductions. Inside this classified guide, you'll learn how to identify alien species, from Grays to Reptilians, understand who or what you might encounter, pre-abduction signs, what to look for and how to act fast before it's too late. Survival techniques, mental and physical strategies for escaping from alien technology and mind control, post-abduction recovery, how to protect yourself from future encounters and cope with the psychological aftermath. Drawing on decades of testimony, forgotten global cases, and suppressed evidence, Miles Donovan exposes the silence that has smothered abductees and asks the haunting question: Has the phenomenon truly faded, or has it simply learned how to hide? *They Came in the Night* is more than a history; it is a warning.
