Dreams & Reality Simon S. Godfrey, 2003 Dreaming is a universal phenomenon Nearly everybody dreams and is anxious to know what it means Perhaps no other human experience has aroused so much interest and curiosity as this alien visitation that forces itself upon us without warning during the dead of sleep Since antiquity thousands of books and articles have been written to shed some light on this mysterious and often unwelcome nightly visitor Despite tremendous work in this field the riddle remains unsolved Still no satisfactory answers have been provided to these basic questions Why do we dream What are dreams about Where do they come from How can we understand them This book is significantly different from those of others in this area as the answers presented are not the author's own views they are largely his dreams answers to the questions just posed Instead of speculation this author a psychologist by profession has put forward what his own dreams have consistently and persistently revealed to him over the past thirty years Since 1973 he has recorded over 100 000 dreams filling some 230 journals of 200 pages each The length of the dreams varies greatly some consist of a single word or phrase others fill a page or more This book is written to share with others what the author has gained from his journey into the dreamworld and from his long and patient analysis of this vast number of dreams Three conclusions have been drawn from this investigation 1 Dreams are not caused by repressed sexual wishes somatic sources impressions of the preceding days or other mundane instigators as claimed by Freud and his followers 2 Dreams do have a supernatural source as pronounced by many writers through the ages and 3 Through dreams this supernatural source reveals to us who we really are brings to light who He is and invites us to lead our own lives sensibly and purposefully Using his own dreams as illustrations the author addresses a wide variety of topics relating to the domain of dreams including Are dreams a source of creativity Why do some of us have frequent nightmares Can we control the content of our dreams Why are dreams so cryptic How can we decipher our dream symbols to understand their meanings Do characters in our dreams refer to persons we know of or do they stand for components of our own identity How should we understand the verbal contents of our dreams Can dreams guide us as to how we should conduct our lives Is the reality we experience during our dreams more dependable or the one we experience in waking life The main purpose of the book is to elucidate that dreams are trustworthy teachers In the realm of growth and self discovery we must regard as suspect whatever we learn from others

however wise and well meaning But whatever is conveyed to us directly through dreams is credible since it emanates from within us and is free from inconsistencies and adulterations Our major challenge is to understand the symbolic language used by the wise guide we have within **Dream vs Reality** AiR - Atman in Ravi, We think that a Dream is just a Dream but Life is reality But if we contemplate we will realize that Life is an illusion too In fact Life is nothing more than a dream a very long dream This book will take you to that state of Realization where you will discover the Truth of who you are and what your purpose on earth is Dream turns into reality Sandeep Ravidutt Sharma,2018-02-25 Welcome to a collection of 100 profound quotes and thoughts about LIFE inspired by the consciousness grace and energy of Shiva Shakti This book is designed to offer you a wellspring of inspiration and wisdom helping you navigate the complexities of life with a positive mindset By consistently reading reflecting on and sharing these quotes you can gain a deeper understanding of various perspectives and truths about life Remember those who dream are more likely to achieve success but only with the power of effort and discipline Positive thoughts and actions have the remarkable ability to transform your dreams into reality Dreams mirror your aspiration Wake up in time and achieve them with a Smile I sincerely hope you will find this book amazing interesting rejuvenating unique and a constant source of inspiration Thank you and happy reading **Destiny ,**
