Reasonable Faith The Scientific Case For Christianity:

Reasonable Faith: The Scientific Case for Christianity Audio CD, 2006-08-09 In this CD Dr Wile lays out a complete argument for the validity of the Christian faith He begins with the scientific evidence that demonstrates the existence of God Based on his arguments the listener will quickly realize that science unerringly points to the existence of a supernatural creator He then uses medical science and historical science to demonstrate quite clearly that the Creator is the God of the Bible after listening to this tape you will understand that the Christian faith can be backed up with scientific evidence This is a recorded presentation based on the book *Reasonable Faith* it is NOT the book on CD *Reasonable Faith* Jay L. Wile, 1997

Reasonable Faith William Lane Craig, 2008 This updated edition by one of the world's leading apologists presents a systematic positive case for Christianity that reflects the latest work in the contemporary hard sciences and humanities Brilliant and accessible *The Study of Science and Religion* Carl Reinhold Brakenhielm, 2018-06-06 The main aim of this book is to contribute to the relationship between science and religion This book aims to do constructive theological work out of a particular cultural context The point of departure is contemporary Swedish religion and worldviews One focus is the process of biologization i.e. how the worldviews of the general public in Sweden are shaped by biological science Is there a gap between Swedes in general and the perceptions of Swedish clergy The answer is based on sociological studies on science and religion in Sweden and the United States Furthermore the book contains a study of Swedish theologians from Nathan Soderblom to the present Archbishop Antje Jackelen and their shifting understanding of the relation between science and religion The philosophical aspects of this relation are given special consideration What models of the relation inform the contemporary scholarly discussion Are science and religion in conflict separate or in mutual creative interaction

Unreasonable Faith James Fodor, 2022-06-29 He has written or edited more than 30 books his arguments for God and Jesus are frequently cited by Christian apologists around the world and he has severely overstated his case through a series of blatant mischaracterizations and philosophical blunders You may have heard of William Lane Craig a professor of philosophy at Talbot School of Theology who is known for debating atheists but even if you haven't you have probably heard his arguments through followers and fans He is known for painting faith as the reasonable road and falsely claiming that he can prove the validity of his religion From his work attempting to show evidence for Jesus' resurrection to his development of the Kalam cosmological argument for the existence of God Craig is respected among his peers on the Christian side of the religious spectrum But is that deserved What's at the core of these arguments Are they philosophically sound More importantly is this *Unreasonable Faith* an excellent destruction of W. L. Craig's entire apologetics Cogently argued and factually accurate this is required reading for anyone keen to question the soundness of anything W. L. Craig has argued over the decades Which makes it an invaluable resource for refuting Christian apologetics generally Richard Carrier author on the historicity of Jesus This book should be required reading for anyone who is proposing to debate William Lane Craig on the

existence of God It should also be something that those who debate Craig on that topic advertise this book gives an accurate idea of the amount of material that needs to be provided to begin to address the usual panoply of arguments that Craig puts forward in a debate Professor Graham Oppy Monash James Fodor has a graduate degree in physics at the University of Melbourne and is a research assistant in structural biology at Monash University With a keen interest in philosophy he writes for the Rationalist magazine on various subjects in religion and epistemology As president of the University of Melbourne Secular Society he has engaged in numerous discussions and public debates concerning religion with a focus on secular morality and the evidence for the resurrection of Jesus He also has a keen interest in effective altruism and computational neuroscience

A Reasonable Faith Anthony Campolo, 1985-11

Behold the Man Peter S. Williams, 2024-06-18 After a substantial new essay examining the nature of a properly skeptical historical inquiry into Jesus of Nazareth in the context of contemporary worldviews from pre modernism to meta modernism Behold the Man presents revised essays on an eclectic range of issues from how the Epistle of James treats Jesus as Divine within decades of the crucifixion and an evaluation of recent arguments about the dating of the Fourth Gospel to debunking claims about Jesus and ancient aliens and furthering debate about the resurrection With a foreword by eminent New Testament scholar Craig L Blomberg and extensive recommended resources Behold the Man Essays on the Historical Jesus represents a wide ranging interdisciplinary engagement with historical Jesus studies

WHY I CAN'T BE: Atheist Bryce Neuberger, 2025-03-31 This short book explores the compelling reasons to believe in the existence of God and the truth of Christianity through a series of philosophical and historical arguments In this concise 25 page book Bryce Neuberger examines the improbability of atheistic naturalism the reliability of the Bible the evidence for Jesus life death and resurrection and why belief in God is rational Whether you re new to apologetics or looking to strengthen your faith this book offers clear logical arguments for the Christian worldview in a short digestible format

How to Defend the Christian Faith John W. Loftus, Peter Boghossian, 2015-11-01 The first book on Christian apologetics written by a leading atheist figure that teaches Christians the best and worst arguments for defending their faith against attack The Christian faith has been vigorously defended with a variety of philosophical historical and theological arguments but many of the arguments that worked in an earlier age no longer resonate in today s educated West Where has apologetics gone wrong What is the best response to the growing challenge presented by scientific discovery and naturalistic thought Unlike every work on Christian apologetics that has come before How to Defend the Christian Faith is the first one written by an atheist for Christians As a former Christian defender who is now a leading atheist thinker John Loftus answers these questions and more He shows readers why Christian apologists have failed to reach the intelligent nonbeliever and offers practical advice for Christians whether they want to better defend their faith against atheist arguments or actively convert more individuals to Christianity

A Reasonable Faith Rubens Ruba, 2011-03-18 Christians are often accused of having blind faith Looking at various questions relating to apologetics the author attempts to make the

case that Christianity is unique and stands the test of rational and reasonable arguments There is no conflict between faith and reason He answers objections relating from Science the reliability of the Bible to the arrogant accusation that Christ is the only way Whether you are investigating Christianity for the first time or whether youre a Christian whos wondering how to respond to objections skeptical friends raise this book gives helpful guidance

Coming to Faith Through Dawkins
 Alister McGrath, Denis Alexander, 2023-08-29 Richard Dawkins Christian evangelist Editors Denis Alexander and Alister McGrath gather other intelligent minds from around the world to share their startling commonality Richard Dawkins and his fellow New Atheists were instrumental in their conversions to Christianity Despite a wide range of backgrounds and cultures all are united in the fact that they were first enthusiasts for the claims and writings of the New Atheists But each became disillusioned by the arguments and conclusions of Dawkins causing them to look deeper and with more objectivity at religious faith The fallacies of Christianity Dawkins warns of simply don't exist Spending time in this fascinating and powerful book is like being invited to the most interesting dinner party you've ever attended Listen as twelve men and women from five different countries across a variety of professions philosophers artists historians engineers scientists and more explain their journeys from atheism to faith In the end you may come away having reached the same conclusion authentic Christian faith is in fact more intellectually convincing and rational than New Atheism Lucid as well as exhilarating and wide ranging Rupert Shortt Von Hgel Institute University of Cambridge and author of *God Is No Thing* Many people including nonbelievers like me have found Dawkins's strident atheism upsetting to the point of offensive I would never have thought that as *Coming to Faith Through Dawkins* shows in wonderful detail for some Dawkins's rantings were the spur to Christian faith Michael Ruse Professor of Philosophy Emeritus University of Guelph Ontario This is a novel book real life stories of people who have actually come to faith not in spite of but through Richard Dawkins It must be his own worst nightmare William Lane Craig Houston Christian University

 Peter S. Williams, 2025-10-17 *Stepping Stones to Christianity* introduces a rational case for Christianity in three steps starting with scientific arguments for design in cosmology and biology moving on to philosophical arguments for the existence of God and closing with an overview of the evidence for a Christian understanding of the historical Jesus in the context of competing contemporary worldviews By bringing together revised and expanded versions of materials written to

introduce three of the author's Essays on books with Wipf Stock Stepping Stones to Christianity equips readers to consider the case for design in nature to investigate philosophical arguments for God and to wrestle with the identity of Jesus *The Electronic Church in the Digital Age* Mark Ward Sr., 2015-11-10 This two volume set investigates the evangelical presence in America as experienced through digital media examining current evangelical ideologies regarding education politics family and government Evangelical broadcasting has greatly expanded its footprint in the digital age This informative text acquaints readers with how the electronic church of today spreads its message through Internet podcasts social networking religious radio programs and televised sermons how mass media forms the institution's modern identity and what the future of the industry holds as mobile church apps Christian based video games and online worship become the norm The work split into two volumes reveals the ways that the Christian broadcast community affects evangelical traditions and influences American society in general Volume 1 explores how electronic media shapes today's Christian subculture while the second volume describes how the electronic church impacts the wider American culture analyzing what key figures in evangelical mass media are saying about today's religious political economic and social issues The set concludes by addressing criticism about religious media and the prospects of American public discourse to accommodate both secular and religious voices

Existence as Necessity: The Ontological Argument Through the Ages Dr. Octavian Caius Obeada, Existence as Necessity The Ontological Argument Through the Ages Why does anything exist at all and must God exist by definition Existence as Necessity offers a profound exploration of the Ontological Argument the bold claim that the very concept of God implies His existence Spanning thinkers from Anselm and Descartes to Leibniz Plantinga and G del this book traces how reason logic and faith converge in one of philosophy's most enduring questions Blending history theology and analytic philosophy it invites readers to rediscover the timeless dialogue between mind and being necessity and divinity Faith seeking understanding St Anselm fides quaerens intellectum I clearly and distinctly perceive that necessary existence is contained in the idea of God Ren Descartes If it exists in some possible world it exists in all possible worlds including the actual world Gottfried Wilhelm Leibniz The universe's existence is contingent and therefore demands explanation Richard Swinburne The Bible is alive it speaks to me it has feet it runs after me it has hands it lays hold of me Martin Luther Preface to the New Testament Scripture is not simply a repository of true statements about God but the vehicle through which God continues to speak today N T Wright Revelation does not terminate in the Bible but continues through its proper understanding and application J I Packer God Has Spoken The Bible is not a collection of disconnected moral lessons but a unified revelation of God's redemptive plan R C Sproul Knowing Scripture This most beautiful system of the sun planets and comets could only proceed from the counsel and dominion of an intelligent and powerful Being Isaac Newton Principia Mathematica The most incomprehensible thing about the universe is that it is comprehensible Albert Einstein The result of intelligent design is a purposeful arrangement of parts Michael Behe Darwin's Black Box From the first whispers of faith to the discoveries of

Human Suffering and the Evil of Religion Dennis Jensen, 2018-01-25 Dennis Jensen looks at two very important problems that have led many to reject religious belief generally and Christianity in particular Why has God allowed the extreme suffering we find in our world And Can religion be blamed for much of this suffering He looks at not only the evil so often associated with religions inquisitions holy wars pogroms witch hunts but also some of the difficulties found specifically in the Bible Did the God of the Bible command or advocate mass murder homophobia slavery Is the New Testament anti Semitic Jensen argues persuasively that a fully biblical teaching does not advocate subservience of women in today's society church or family It does not condemn all same gender sexual relations or transgender identity It does not teach an eternal hell As just one of the many fascinating topics he tackles one of the more important biblical reasons suggested for the existence of evil is that God wants to know whether we will seek to stop or alleviate the suffering we see whether we will learn to have God's heart whether we will hate evil and anguish over the hurting as God does This book is a crowbar prying loose imaginations religious and skeptical alike stuck in simplistic answers and easy slogans Jensen's wide ranging explorations don't try to convince the reader of his every proposal but they do make it reasonable to trust that God is good and has purposes for us hidden in our lives A book to be wrestled with argued over and grateful for Matt Marston Pastor Trinity Baptist Church Moultrie Georgia In addition to two other books Dennis Jensen has written for a local university oriented tabloid and for the American Scientific Affiliation's journal Perspectives He holds a master's degree in philosophy of religion has taught philosophy at a local college engages in debate and dialogue online and maintains a web page focused on issues in philosophy of religion www.encounter1.org Resource published his second book *Flirting with Universalism Resolving the Problem of an Eternal Hell* 2014

Faith Isn't Blind Patrick Ford, 2016-02-17 Popular culture constantly bombards us with the idea that modern scientific knowledge has rendered Christianity obsolete The common conception is that those who believe in God do so through blind faith a faith that is devoid of proof and in contrast with scientific knowledge However despite this perception there are multiple independent scholarly arguments that point toward the existence of a Christian God including the weakness of naturalism as an explanation for our world the congruency of God and modern science including evolution the cosmological argument and the beginning of the universe the intelligent design of our universe the existence of an objective moral law the secular sources that confirm the life and events of Jesus Christ the credibility of the New Testament and the historical evidence for the death and resurrection of Jesus Christ While belief in God is not an academic conclusion God did not leave us without any indications of his existence These independent arguments build a cumulative case that leads to the logical conclusion that God really does exist and therefore Faith Isn't Blind

The Case Against Theism Raphael Lataster, 2018-06-14 This monograph offers a critique of arguments for the existence of a specifically Christian God advanced by prominent scholar William Lane Craig The discussion incorporates philosophical

mathematical scientific historical and sociological approaches The author does not seek to criticize religion in general or Christianity specifically Rather he examines the modern and relatively sophisticated evidential case for Christian theism Scholars have been arguing for theism or naturalism for centuries and there seems little to add to the discussion especially from the theistic side However to assume that either theism or naturalism obtains is a false dichotomy There are alternatives to both that merit consideration Employing a probabilistic approach the author advances this discussion His work uniquely utilizes not only naturalistic hypotheses to argue against theism It also presents supernaturalistic hypotheses This leaves no question that theism is almost certainly false even if some form of divine reality exists This project seeks not to argue that Christianity or any other faith or religion is undesirable but only to critically examine evidentialist claims posited by Christianity's learned apologists In fact a major secondary aim is to consider alternative god conceptions such as polytheism and pantheism This work aims to highlight that Christian theism is often granted special privileges by theistic philosophers of religion which seems doubly inappropriate when certain alternative god conceptions may even prove to be more plausible
