Carp, 2007-08-22 While port cities connected the American colonies economically, politically, and culturally to the British empire, urban colonists Benjamin Carp argues were among the first to slough off their British identity and unite as Americans. Looking at the physical environments of cities as political catalysts, Carp contends that what began as interaction, negotiation, conflict, and compromise in churches, taverns, wharves, and city streets developed into a wider political awareness and collaborative political action. City dwellers' ability to transmit their ideas to their neighbors in rural areas was an important step on the path to Revolution. Carp focuses on a specific type of space in each of the five largest cities of the Anglo-American colonies: maritime and commercial spaces of the Boston waterfront, the taverns of New York, the houses of worship in Newport, the households of Charleston, and the streets outside the halls of power in Philadelphia. While each of the chapter takes a single city as a case study, each also illuminates the conditions and changes taking place elsewhere from the 1740s to the 1780s. In the epilogue, Carp discusses how these cities became untenable and ineffective as sites of political mobilization during wartime and how patriots moved administrative, military, and economic management to the hinterlands. In discussing the diverse backgrounds, interests, and classes of the people mobilized for the Revolutionary cause, Carp includes artisans, free blacks, slaves, and women. This groundbreaking work will contribute to scholarship on the American Revolution as well as those who study material culture, geography, urban studies, and the local history. ***A Rebel's Trust*** Sara Blackard, 2022-09-06 A solo adventurer determined to do things on her own. An ex-special force member evading his nightmares. When they collide while escaping dangerous forces in the Alaska wilderness, will they trust each other to find safety? After Sunny Rebel's business partner left her with a damaged faith in others and an empty bank account, she hopes tackling adventures alone will protect her from repeat heartache. When she started her social media video channel, it was a desperate means to end the embarrassment of being duped by her boyfriend and business partner. She couldn't bring herself to go back to the mountaineering community she loved on Mount Denali, not when she'd be greeted with whispered rumors and truths behind her back. Sure, she may be a people person, but showing viewers the wilds of Alaska is just as satisfying as guiding climbers up America's tallest peak. A trek through the remote gold mining district where her parents grew up will give her at least two weeks to get her head on straight and figure out her life's next step. Something broke in Davis Fields that last month; he was enlisted, and even his job at Stryker Security Force can't fix it. He could always be relied on, was always quick to help, which was probably why he'd been targeted. Used. Now he's only left with anger. It boils in him, always at the surface. That's why he's spending the summer sleeping in a tent, helping a military buddy mine flecks of gold from the Alaskan earth. Hopefully, the isolation will help him get a handle on himself. When Sunny witnesses a heinous crime, her jaunt through the wilderness becomes deadly, and her only help is a gruff man she hardly knows. Will Sunny and Davis escape the

Alaskan wilderness alive or will the lurking dangers claim them both If you like heart pounding action toe curling romance that keeps it clean and a family of captivating characters you ll love Sara Blackard s riveting romantic Alaskan adventure series
