Rebellion In Laos Peasant And Politics In A Colonial Backwater:

Rebellion In Laos Geoffrey C Gunn, 2019-06-04 A study in historical anthropology this work focusses on the world historical incorporation of Laos into a colonial capitalist system of surplus accumulation In so doing new light is brought to bear upon the non rebellious and especially rebellious responses of the majority Lao and minority montagnard population of that country at least as determined by a scrutiny of largely archival based sources The approach taken is to combine a general world system analysis with a concern for the non economic moral and ideological form of colonial and feudal domination

Creating Laos Søren Ivarsson, 2008 This book examines the process through which Laos came into existence under French colonial rule through to the end of World War II Here Laos's position at the intersection of two conflicting spatial layouts of Thailand and Indochina made its national form a particularly contested process Rather than analyze this process in terms of administrative and political structures the book discusses how a specific idea about a separate Lao space and its culture was formed

Politics and Society in Southeast Asia Peter A. Poole, 2014-11-18 The Asian financial crisis of 1997 1998 caused severe hardship in Southeast Asia and many countries tightened their regulation of banks and other financial institutions adopted more conservative fiscal policies and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors This book analyzes the major political and economic reforms that resulted from the Asian financial crisis looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession In each of the ten country chapters the historical background social and political system economic development and foreign relations of each country are analyzed and compared with those of neighboring countries The concluding chapter looks ahead at the prospects for Southeast Asia in a more integrated Asian region

Shifting Cultivation Policies Malcolm Cairns, 2017-11-13 Shifting cultivation supports around 200 million people in the Asia Pacific region alone It is often regarded as a primitive and inefficient form of agriculture that destroys forests causes soil erosion and robs lowland areas of water These misconceptions and their policy implications need to be challenged Swidden farming could support carbon sequestration and conservation of land biodiversity and cultural heritage This comprehensive analysis of past and present policy highlights successes and failures and emphasizes the importance of getting it right for the future This book is enhanced with supplementary resources The addendum chapters can be found at www.cabi.org/openresources 91797

The Legend of the Golden Boat Andrew Walker, 1999-09-01 The Legend of the Golden Boat provides a new approach to the study of Southeast Asia's northern borderlands Based on extensive travel in the upper Mekong hinterland it is a fascinating account of the lives of the transport operators traders entrepreneurs and government officials This ethnographic study is set against an intriguing background of war revolution and reform providing one of the most detailed histories of the upper Mekong borderlands ever written Contemporary developments in the upper Mekong region are often interpreted in

terms of the emergence of a trans border Economic Quadrangle characterized by liberalization integration and cooperation This book seeks to go beyond this promotional rhetoric and explore the ambiguities and contradictions in the Quadrangle s development **Government & Politics in Southeast Asia** John Funston,2001 In this substantial and referenced study nine leading scholars present from inside the history society geography economy and governmental institutions of each of the 10 ASEAN countries Brunei Cambodia Indonesia Laos Malaysia Myanmar Philippines Singapore Thailand and Vietnam

Globalization, Culture and Society in Laos Boike Rehbein,2007-08-13 The book explores current tendencies of globalization in Laos and offers a theoretical framework for their interpretation **Historical Dictionary of Laos** Martin Stuart-Fox,Simon Creak,2023-02-06 Laos has the smallest population the weakest military and despite rapid economic growth in recent years one of the lowest levels of per capita income in mainland Southeast Asia Yet a glance at the map reveals its strategic location between China and Cambodia and Thailand and Vietnam As Laos was formerly a crossroads for trade routes the socialist government of the Lao People s Democratic Republic seeks to transform the country into a prosperous crossroads at the heart of this rapidly developing region Historical Dictionary of Laos Fourth Edition provides an in depth examination of one of the least known countries in Southeast Asia through a detailed chronology comprehensive introduction and extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book will be an excellent resource for students researchers and anyone wanting to know more about Laos *Revolution, Reform and Regionalism in Southeast Asia* Ronald Bruce St John,2006-01-16 Based on research carried out over the three decades this book compares the post war political economies of Cambodia Laos and Vietnam in the context of their individual and collective impact on contemporary efforts at regional integration The author highlights the different paths to reform taken by the three neighbours and the effect this has had on regional plans for economic development through the ASEAN and the Greater Mekong Subregion Through its comparative analysis of the reforms implemented by Cambodia Laos and Vietnam over the last thirty years the book draws attention to parallel themes of continuity and change The author discusses how the three states have demonstrated related characteristics whilst at the same time making different modifications in order to exploit the unique strengths of their individual cultures Contributing to the contemporary debate over the role of democratic reform in promoting economic development the book provides a detailed account of the political economies of three states at the heart of Southeast Asia **Hmong Means Free** Sucheng Chan,2010-08-17 Three generations of Hmong refugees expose the trauma and the joy of their lives A History of Laos Martin Stuart-Fox,1997-09-28 This authoritative and wide ranging 1997 history traces events in this little known country from ancient monarchy through its establishment as a French colony to independence in 1953 the People s Democratic Republic and the present one party authoritarianism The book highlights Laos complex and shifting political alliances The struggle for independence from France was followed by a

struggle for unity and neutrality in the face of persistent foreign intervention as the country was drawn into the war in Vietnam Only with the end of the Cold War and the withdrawal of Vietnamese troops has Laos been able to reassert its neutral foreign policy and develop a market economy This book is an impressive political social cultural and economic history It will be essential for anyone wanting to understand Laos as it joins ASEAN faces great economic challenges and struggles to maintain its cultural identity

Post-war Laos Vatthana Pholsena, 2006 More than a quarter of a century after the end of the war in 1975 the Lao leadership is still in search for a compelling nationalist narration Its politics of culture and representation appear to be caught between the rhetoric of preservation and the desire for modernity Meanwhile originating from the periphery where ethnic minorities had hitherto been symbolically politically and administratively confined the participation of some of their members in the Indochina Wars 1945-75 exposed these individuals to socialization and politicization processes This rigorously researched and cogently argued book is a fine grained analysis of substantial ethnographic material showing the politics of identity the geographies of memory and the power of narratives of some members of ethnic minority groups who fought during the Vietnam War in the Lao People's Liberation Army and/or were educated within the revolutionary administration No study has ever been conducted on the latter's views on the nationalist project of the late socialist era Their own perceptions of their membership of the nation have been overlooked Post War Laos is a set to be a landmark study and an original contribution which refines established theories of nationalism such as Anderson's imagined community by addressing a common weakness namely their tendency to deny agency to individuals who in fact interpret their relationship to and place within the nation in a variety of ways that may change according to time and circumstance

Society in Contemporary Laos Boike Rehbein, 2017-04-21 Over the past decade Laos exposure to global capitalism has resulted in extensive economic and social transformations Precapitalist social structures both persist and are transformed into a particular configuration of classes This entails increasing social inequality a widening range of habitus and new forms of ethos This book pursues the theoretical aim of shedding light on the old question raised by Max Weber about the relation between capitalism ethos and society The empirical study consists of a description of the social structures their embodiment in the habitus and world views in Laos against the background of a critical revision of Pierre Bourdieu's sociology To achieve these aims the author develops a qualitative methodology as neither Weber nor Bourdieu explained how to empirically study habitus and ethos The empirical material for the book was gathered over a period of more than five years and comprises several hundred life course interviews in all sections of Lao society as well as a representative quantitative survey The author argues that precapitalist social structures persist and continue to shape the social fabric of contemporary Laos At the same time they are transformed by global and local capitalism The book shows how the hierarchies contained in each structure shape the habitus of the Lao population and how these in turn influence the development of a capitalist and a religious ethos The argument makes use of Pierre Bourdieu's sociology and adapts it to the setting of Laos by introducing

new as well as indigenous concepts While social structure habitus and beliefs are subject to a capitalist transformation and unification the newly emerging classes and milieus are not copies of Western forms but retain their local history Filling a gap in the literature on Laos and offering new perspectives on core concepts such as habitus class lifestyle work ethic and its religious underpinnings this book will be of interest to academics in the fields of Sociology Religious Studies and Southeast Asian Studies *Buddhism, Modernity, and the State in Asia* P. Kitiarsa, J. Whalen-Bridge, 2013-07-31 Leading scholars working on Buddhism and politics in South and Southeast Asia add to current discussions regarding Engaged Buddhism and the recent work on protests The writers have mostly established themselves in their fields offering a diverse approach and country by country coverage *Changing Lives in Laos* Vanina Bouté, Vattana Pholsena, 2017-04-21 Changes in the character of the political regime in Laos after 2000 a massive influx of foreign investment and disruptions to rural life arising from improved communications and new forms of mobility within and across the borders have produced a major transformation Alongside these changes a group of young scholars carried out studies that document the rise of a new social cultural and economic order The contributions to this volume draw on original fieldwork materials and unpublished sources and provide fresh analyses of topics ranging from the structures of power to the politics of territoriality and new forms of sociability in emerging urban spaces *The Ethnography of Vietnam's Central Highlanders* Oscar Salemink, 2019-10-18 This book looks at ethnographic discourses concerning the indigenous population of Vietnam's Central Highlands during periods of christianization colonization war and socialist transformation and analyses these in their relation to tribal ethnic territorial governmental and gendered discourses Salemink's book is a timely contribution to anthropological knowledge as the ethnic minorities in Vietnam have again been the object of fierce academic debate This is a historically grounded post colonial critique relevant to theories of ethnicity and the history of anthropology and will be of interest to graduate students of anthropology and cultural studies as well as Vietnam studies *Globalization and Inequality in Emerging Societies* B. Rehbein, 2011-10-27 This volume studies the relation between globalization and inequalities in emerging societies by linking Area and Global Studies aiming at a new theory of inequality beyond the nation state and beyond Eurocentrism *Civility and Savagery* Andrew Turton, 2000 The text examines the changing historical discourses of social differentiation and distinction in one of the most ethnically and politically complex regions of the world issues covered include cultural pluralism nationalism and ethnic dispersal **Spirits of the Place** John Clifford Holt, 2009-07-29 *Spirits of the Place* is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt's new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary

era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains. The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao. Despite vigorous attempts by Buddhist royalty, French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults, have not been displaced; they continue to persist and show no signs of abating. Not only have the spirits resisted eradication but they have withstood synthesis, subordination and transformation by Buddhist political and ecclesiastical powers. Rather than reduce Buddhist religious culture to a set of simple commonalities, Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism. This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia.

Food from Northern Laos Dorothy Culloty, 2010. The little known cultures and cuisine of northern Laos are reflected in the recipes of its local ethnic groups and Luang Namtha Province's premiere ecotourism lodge. Eighty-eight dishes from Lao Kmhmu, Tai Dam, Tai Yuan, Tai Lue and Akha are presented in clear, simple recipes. Back cover.
