Dana Hollander

Rebirth Of Classical Political Rationalism An Introduction To The Thought Of Leo Strauss:

The Rebirth of Classical Political Rationalism Leo Strauss,1989-01-15 This concise and accessible introduction to Strauss s thought provides for wider audience a bridge to his more complex theoretical work Editor Pangle has gathered five of Strauss s previously unpublished lectures and five hard to find published writings and has arranged them so as to demonstrate the systematic progression of the major themes that underlay Strauss s mature work These essays display the incomparable insight and remarkable range of knowledge that set Strauss s works apart from any other twentieth century philosopher s Charles R Kesler National Review *The Rebirth of Classical Political Rationalism* Leo Strauss,1989-06-15 This concise and accessible introduction to Strauss s thought provides for wider audience a bridge to his more complex theoretical work Editor Pangle has gathered five of Strauss s previously unpublished lectures and five hard to find published writings and has arranged them so as to demonstrate the systematic progression of the major themes that underlay Strauss s mature work These essays display the incomparable insight and remarkable range of knowledge that set Strauss s works apart from any other twentieth century philosopher s Charles R Kesler National Review **Leo Strauss and the Invasion of Iraq** Aggie Hirst,2013-06-26 The political philosophy of Leo Strauss has been the subject of significant scholarly and media attention in recent years particularly in the context of the decision to invade Iraq in 2003 Allegations that a group of Strauss inspired Neo conservatives intervened in the foreign policy establishment of the US in order to realise the policy of regime change began to emerge soon after the invasion and unanswered questions remain a decade later This book addresses these claims focusing specifically on a group of Straussians active in the spheres of intelligence production think tanks and the media during the period from the 9 11 attacks to the invasion in 2003 Such an examination is intended not simply to identify and expose their activities promoting the policy of regime change in Iraq during this period but also to challenge them and the Straussian logics underpinning them Utilising the thought of Jacques Derrida the book enacts a deconstructive challenge to Strauss political philosophy which unsettles the fundamental assumptions it relies upon In doing so it exposes the securitising imperative underpinning Straussian thought and the Straussian interventions It thereby simultaneously addresses crucial issues in political theory and contemporary foreign policy studies while asserting that these dimensions of international politics can and should be dealt with in conjunction with each other This book would be of interest to students and scholars of Global Politics Political Theory Security Studies and US Foreign Policy and those outside the academy interested in Neo conservatism and the 2003 invasion of Iraq **The Legacy of Leo Strauss** Tony Burns,James Connelly,2016-12-22 Leo Strauss was a political philosopher who died in 1973 but came to came to prominent attention in the United States and also Britain around the beginning of the War in Iraq Charges began emerging that architects of the war such as Paul Wolfowitz and large numbers of staff in the US State and Defense Departments had studied with or been influenced by the academic work of Strauss and his followers A vague but powerful idea was generated

in the popular press that a group known as the Straussians had been instrumental in the long range strategic planning of American foreign policy both to advance American interests and to encourage democratic revolutions outside the West This volume of essays opens up the topic of Leo Strauss and the Straussians to those outside the relatively narrow circles who have been concerned with him and his followers up to now **Leo Strauss, Philosopher** Antonio Lastra,Josep Monserrat-Molas,2016-05-12 This volume presents for the first time in English the approaches to Leo Strauss being pursued by European scholars in Spain Italy and Germany Whereas the traditions of Strauss interpretation have until recently focused on issues of interest to political science and to a lesser extent religious studies this collection makes a powerful contribution to the recent philosophical consideration of Strauss Each essay treats a unique thread emerging from the tapestry of Straussian thought illustrating Strauss s thinking on the reading of ancient texts and on the relationship between philosophy and politics In doing so Strauss is placed squarely and uncompromisingly within the history of philosophy in conversation with a large range of philosophical figures Leo Strauss and Anglo-American Democracy Grant N. Havers,2013-10-15 Leo Strauss and Anglo American Democracy critically interprets Strauss s political philosophy from a conservative perspective Most mainstream readers of Strauss have either condemned him from the Left as an extreme right wing opponent of liberal democracy or celebrated him from the Right as a traditional defender of Western civilization Rejecting both portrayals Grant N Havers shifts the debate beyond the conventional parameters stating that Strauss was neither a man of the Far Right nor a conservative but in fact a secular Cold War liberal In Leo Strauss and Anglo American Democracy Havers contends that the most troubling implication of Straussianism is that it provides an ideological rationale for the aggressive spread of democratic values on a global basis while ignoring the preconditions that make these values possible Concepts such as the rule of law constitutional government Christian morality and the separation of church and state are not easily transplanted beyond the historic confines of Anglo American civilization as recent wars to spread democracy have demonstrated

What's Wrong with Democracy? Loren J. Samons,2007-04-23 This is unlike any recent work I know of It offers a challenging often refreshing and what will certainly be a controversial assessment of classical Athenian democracy and its significance to modern America Samons is willing to tread where few other classicists are willing to go in print He reminds readers that the Athenian democracy offers just as many negative lessons as positive ones and topics like the popular vote the dangers of state payments to individual citizens the naturally acquisitive foreign policy of democratic governments and the place of religion in democracy all come up for discussion and criticism Samons has written an original and very provocative book James Sickinger author of Public Records and Archives in Classical Athens Professor Samons lively and challenging account of ancient Athens raises important questions about democracy ancient and modern It will surely arouse keen interest and debate Donald Kagan author of The Peloponnesian War In this elegantly written carefully researched and perceptive book Samons presents a penetrating analysis of ancient Athenian democracy s dark sides His book is as much

about the errors and weaknesses of our own political system as it is about those of ancient Athens Whether or not we agree with his critique and conclusions this book is not merely thought provoking it is annoyingly discomforting forcing us to re examine firm beliefs and to discard easy solutions Kurt A Raaflaub author of Discovery of Freedom in Ancient Greece In this marvelously unfashionable book Samons debunks much of what passes in the current day academy as scholarship on classical Athens demonstrating that it is an ideologically driven apology for a radically defective form of government In the process he casts light on the perspicacity of America s founding fathers and on the unthinking populism that threatens in our own day to ruin their legacy Paul A Rahe author of Republics Ancient and Modern Classical Republicanism and the American Revolution We are in the greatest age of democracy since antiquity and in the most need of guidance about the wisdom of government by majority vote Precisely for that reason Professor Samons offers a bold and unbridled look at the nature and history of democracies ancient and modern He reminds us that we are capable of doing as much evil as good when constitutional protections and republican oversight are not there to moderate the instant desires of the majority This is an engaging provocative and timely study of ancient Athens and modern America that should serve as a cautionary reminder to both romantic scholars and zealous diplomats Victor Davis Hanson author of The Other Greeks Leo Strauss and the Theopolitics of Culture Philipp von Wussow,2020-04-15 2020 CHOICE Outstanding Academic Title In this book Philipp von Wussow argues that the philosophical project of Leo Strauss must be located in the intersection of culture religion and the political Based on archival research on the philosophy of Strauss von Wussow provides in depth interpretations of key texts and their larger theoretical contexts Presenting the necessary background in German Jewish philosophy of the interwar period von Wussow then offers detailed accounts and comprehensive interpretations of Strauss s early masterwork Philosophy and Law his wartime lecture German Nihilism the sources and the scope of Strauss s critique of modern relativism and a close commentary on the late text Jerusalem and Athens With its rare blend of close reading and larger perspectives this book is valuable for students of political philosophy continental thought and twentieth century Jewish philosophy alike It is indispensable as a guide to Strauss s philosophical project as well as to some of the most intricate details of his writings Democratic Vanguardism Michael Harland,2013-10-24 The terrorist attacks of September 11 2001 transformed the way in which Americans and their leaders viewed the world The tragic events of that day helped give rise to a foreign policy strategy commonly referred to as the Bush Doctrine At the heart of this doctrine lie a series of claims about the need to encourage liberal democracy as the antidote to jihadist terrorism President George W Bush proclaimed in a variety of addresses that democracy now represented the single surviving model of political life to which all people aspired In the course of making this argument President Bush linked his policies to an overarching teleology of progress This discourse suggested that the United States might use force to hasten the emergence of liberal norms and institutions in rogue states With a sense of irony some commentators soon referred to the Bush administration s position as Leninist because of its

determination to bring about the so called end of history today Yet surprisingly these critics had little more to add This book assesses in greater depth the Bush administration s claim to comprehend the purpose of historical progress Developing a concept termed democratic vanguardism this study investigates the idea of liberal modernity the role of the United States as a force for democracy and the implications of using military intervention in the service of idealistic ends It examines disputes among political theorists public intellectuals and elected statesmen that help to enrich our understanding of the United States efforts under President Bush to bend history to its will **Proceedings of the 2024 4th International Conference on Public Art and Human Development (ICPAHD 2024)** Jiu Liu,Jinhua Zhu,Dedong Zheng,Jianfei Luo,2025-05-02 This is an open access book 2024 4th International Conference on Public Art and Human Development ICPAHD 2024 will be held from December 27 29 2024 at Chengdu China 2024 4th International Conference on Public Art and Human Development ICPAHD 2024 aims to continue the dynamic conversations initiated by its predecessors Set against the backdrop of an ever evolving global cultural landscape the conference underscores the significance of public art as a powerful tool for social and human development The confluence of art space and community offers a unique lens through which we can examine societal progress and collective well being ICPAHD 2024 seeks to bring together scholars artists policymakers and activists to explore the transformative potential of public art The conference aims to foster interdisciplinary dialogues share innovative practices and challenge existing paradigms By doing so it intends to shed light on how public art can contribute to social cohesion cultural identity and human development *Judaism, Liberalism, & Political Theology* Jerome E. Copulsky,Dana Hollander,Eric Jacobson,Gregory Kaplan,Daniel Weidner,Daniel Brandes,Sarah Hammerschlag,Zachary Braiterman,Robert Erlewine,Oona Eisenstadt,Brian Britt,Bruce Rosenstock,2020-03-04 These essays propose a new and richly detailed engagement between Judaism and the political Jewish Book World Judaism Liberalism and Political Theology provides the first broad encounter between modern Jewish thought and recent developments in political theology arguing in opposition to impetuous associations of Judaism and liberalism and charges that Judaism cannot engender a universal political order The vexed status of liberalism in Jewish thought and Judaism in political theology is interrogated with recourse to thinking from across the Continental tradition This collection of essays which examines political theology from the distinct perspective of Jewish philosophy could not be timelier or more useful for scholars and students navigating what is often viewed as very dense and difficult material Claire Elise Katz Texas A M University **Patriotic Elaborations** Charles Blattberg,2009-03-01 How might we mend the world Charles Blattberg suggests a new patriotism one that reconciles conflict through a form of dialogue that prioritizes conversation over negotiation and the common good over victory This patriotism can be global as well as local left as well as right Blattberg s is a genuinely original philosophical voice The essays collected here discuss how to re conceive the political spectrum where deliberative deomocrats go wrong why human rights language is tragically counterproductive how nationalism is not really secular how many nations should share a single state a new approach to the

Arab Israeli conflict and why Canada might have something to teach about the war on terror We also learn about the right way to deny a role to principles in ethics how to distinguish between the good and the beautiful the way humor works the rabbinic nature of modernism the difference between good bad great and evil why Plato s dialogues are not really dialogues and why most philosophers are actually artists **Conservative Moments** Mark Garnett,2018-08-23 This book is available as open access through the Bloomsbury Open Access programme and is available on www bloomsburycollections com As a complex and multifaceted world view conservatism is often pigeonholed and partially understood And while the nature of conservative ideology is warmly contested among scholars no one can deny its prominence in contemporary debates and its effects on the politics of everyday life These 16 essays written by expert scholars and specialists offer a broad survey of conservative thought that extends beyond typical historical and geographic boundaries to include past thinkers like Plato and Edmund Burke non European conservative traditions such as Japan and Russia and political practitioners including Margaret Thatcher Ronald Reagan and Charles de Gaulle Each essay grapples with short primary source extracts while offering instructive criticism and commentary Conservative Moments offers students a useful accessible and comprehensive exposition of this political ideology *Martin Heidegger* Gregory B. Smith,2007 Since the publication of Victor Farias s Heidegger and Nazism the discussion about the political significance of Martin Heidegger s thinking has been distorted Because of his association with the Third Reich some have dismissed Heidegger out of hand while others have sought to explain away certain connections What is often lost in the writing of critics and advocates alike is an honest assessment of Heidegger as a political thinker and a frank interest in understanding his work Martin Heidegger Paths Taken Paths Opened takes Heidegger s philosophy on its own terms and explores the pivotal significance of his phenomenology for political theory Heidegger opposed at the deepest level everything that informs the global technological civilization that seems to be the fate of humanity Yet even in the liberal and technologically oriented West we cannot proceed without a confrontation with his thought In this timely addition to the 20th Century Political Thinkers series Gregory Bruce Smith shows Heidegger s thought to be an inescapable challenge to our current ethical habits and contemporary political institutions In this path breaking work Smith establishes the centrality of Heidegger s thought even to those who would claim to be his most ardent critics Smith also addresses difficult interpretative questions regarding the relationship of Heidegger s early and later work and the status of political ideas with respect to Heidegger s phenomenological project A work of broad interpretative breadth and keen political insight Martin Heidegger Paths Taken Paths Opened establishes the undeniable importance of Heidegger s thought for the future of the tradition of political philosophy Plato and Modern Law Richard O. Brooks,2017-07-05 This audacious collection of modern writings on Plato and the Law argues that Plato s work offers insights for resolving modern jurisprudential problems Plato s dialogues in this modern interpretation reveal that knowledge of the functions of law based upon intelligible principles can be reformulated for relevance to our age Leading interpreters of Plato Vlastos Hall Strauss

Weinrib Annas and Morrow are included in the collection The editor supplies an insightful introduction and extensive bibiography to the collection *The Place of Michael Oakeshott in Contemporary Western and Non-Western Thought* Noel O'Sullivan,2017-08-01 The continuing growth of worldwide interest in Michael Oakeshott s philosophy and political theory has recently 2016 been marked by the publication of two Companion to Oakeshott volumes This event provides a welcome opportunity to explore the reasons for his influence both within the West and beyond it Essays by contributors from Britain Canada Hong Kong India and the USA provide a comprehensive critical assessment of the principal aspects of Oakeshott s thought that account for his contemporary relevance The unusually multi national background of the authors aims to give the volume a wide appeal extending not only to those already familiar with Oakeshott s writings but also to those as yet unfamiliar with them regardless of their cultural background All the contributors have attempted to write in a way that makes Oakeshott as accessible as possible **Memories of Socrates** Xenophon,2023 Xenophon s Memorabilia and Apology provide a passionate defence of Socrates against the charges brought against him that lead to his execution The two texts together provide a moving account of what happened immediately before during and after his trial **Patriotism Is Not Enough** Steven F. Hayward,2018-12-18 This book is a lively intellectual history of a small circle of thinkers especially but not solely Harry Jaffa and Walter Berns who challenged the mainstream liberal consensus of political science and history about how the American Founding should be understood Along the way they changed the course of the conservative movement and had a significant impact on shaping contemporary political debates from constitutional interpretation civil rights to the corruption of government today Most importantly these thinkers explain the deep reasons for patriotism why we should love America not simply because it is our country but because it is a free and just country *Research Handbook on the History of Political Thought* Cary J. Nederman,Guillaume Bogiaris,2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought Comprehensive in scope it covers historical methodology traditions epochs and classic authors and texts spanning from ancient Greece until the nineteenth century Ethics Out of Law Dana Hollander,2021-06-29 Hermann Cohen 1842 1918 was a leading figure in the Neo Kantian philosophical movement that dominated European thought before 1918 He is also the inaugural figure for what is meant by modern Jewish philosophy in the twentieth and twenty first centuries This book explores Cohen s striking claim that ethics is rooted in law a claim developed in both his philosophical ethics and his philosophy of Judaism in particular in his writings on love of neighbor up to and including his well known Religion of Reason Dana Hollander proposes that neither Cohen s systematic philosophy nor his Jewish philosophy should be seen as the dominant framework for his oeuvre as a whole but that his understanding of key philosophical questions takes shape in the passages between both corpuses a trait that could be seen as paradigmatic for modern Jewish philosophy Ethics Out of Law taps into one of the prime topics of current interest in the field of Jewish philosophy the nature of Jewish political existence and the changing configurations of law that this entails

Getting the books **Rebirth Of Classical Political Rationalism An Introduction To The Thought Of Leo Strauss** now is not type of challenging means. You could not and no-one else going subsequently book growth or library or borrowing from your links to door them. This is an entirely simple means to specifically acquire guide by on-line.
