Religion In Modern Taiwan Tradition And Innovation In A Changing Society:

Religion in Modern Taiwan Philip Clart, Charles B. Jones, 2003-09-30 Religion in Modern Taiwan takes a new look at Taiwan's current religious traditions and their fortunes during the twentieth century. Beginning with the cession of Taiwan to Japan in 1895 and the currents of modernization that accompanied it, the essays move on to explore the developments that have taken place as Buddhists, Daoists, Christians, non-Han aborigines, and others have confronted, resisted, and adapted to, even thrived in, the many upheavals of the modern period. An overview of Taiwan's current religious scene is followed by a comprehensive look at the state of religion in the country prior to the end of World War II and the return of Taiwan to Chinese sovereignty. The remaining essays probe aspects of change within individual religious traditions. The final chapter analyzes changes that took place in the scholarly study and interpretation of religion in Taiwan during the course of the twentieth century. Religion in Modern Taiwan will be read with interest by students and scholars of Chinese religion, religion in Taiwan, the modern history of Taiwan, and by those concerned with issues of religion and modernization. Rubinstein. *Religious Experience in Contemporary Taiwan and China*     , 2013-12-01 Religious Experience in Contemporary Taiwan and China helps social scientists and all religion scholars to rediscover the importance of religious experiences for multiple world religions. Combining a diverse array of survey items with thousands of candid narratives conducted in Taiwan, the authors provide a depth and breadth that can't be matched by previous work. The nationally representative surveys for Taiwan and China offer a broad overview of how religion is experienced in the culture, how these experiences vary for each of the many religious and even non-religious groups, and how they vary between China and Taiwan. From the Preface by Roger Finke. **Routledge Handbook of Contemporary Taiwan** Gunter Schubert, 2024-12-31 This fully revised 2nd edition of the Routledge Handbook of Contemporary Taiwan provides a comprehensive overview of both contemporary Taiwan and the Taiwan studies field. Written by an international team of Taiwan experts, the Handbook includes major topics in Taiwanese history, domestic politics, political economy, society, culture, and international relations. Each chapter summarises the major findings in the field and highlights long-term trends, recent observations, and potential future developments in Taiwan, revealing its long journey from a frontier island to a highly industrialised country struggling for international recognition. Up-to-date, interdisciplinary, and academically rigorous, the Handbook offers the reader an accessible and fascinating insight into contemporary Taiwan and will be of interest to students, academics, and policymakers with an interest in all things Taiwan. *New Religious Movements in Modern Asian History* David W. Kim, 2020-09-30 This book provides evidence that the emergence of Asian new religious movements (NRMs) was predominantly the result of anti-colonial ideology from local religious groups or individuals. The contributors argue that when traditional religions were powerless to maintain their cultural heritage, the leadership of NRMs adduced alternative

principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs. The contributors argue that as a whole the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies. The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions.

Modern Chinese Religion II: 1850 - 2015 (2 vols.), 2015-10-20. The last of four two volume sets on the key periods of paradigm shift in Chinese religious and cultural history. This book examines the transformation of values in China since 1850 in the secular realms of economics, science, medicine, aesthetics, media, and gender, and in each of the major religions: Confucianism, Buddhism, Daoism, Christianity, as well as in Marxist discourse. The nation and science are the values invoked most frequently with the market and democracy; a distant second. As in previous periods of fundamental change in Chinese history, rationalization and secularization have played central roles, but interiorization nearly disappears as a driving force. Also in continuity with the past, the state insists on an exclusive right to define and adjudicate orthodoxy. Contributors include Daniel H. Bays, S. Bastien, Billioud, Adam Yuet Chau, Na Chen, Philip Clart, Walter B. Davis, Arif Dirlik, Thomas David DuBois, Lizhu Fan, David Faure, Melissa Wei Tsing Inouye, Ji Zhe, Xiaofei Kang, Eric I. Religious Publishing and Print Culture in Modern China, Philip Clart, Gregory Adam Scott, 2014-12-16. Scholarly interest in print culture and in the study of religion in modern China has increased in recent years, propelled by maturing approaches to the study of cultural history and by a growing recognition that both were important elements of China's recent past. The influence of China in the contemporary world continues to expand, and with it has come an urgent need to understand the processes by which its modern history was made. Issues of religious freedom and of religion's influence on the public sphere continue to be contentious but important subjects of scholarly work, and the role of print and textual media has not dimmed with the advent of electronic communication. This book, *Religious Publishing and Print Culture in Modern China 1800-2012*, speaks to these contemporary and historical issues by bringing to light the important and abiding connections between religious development and modern print culture in China. Bringing together these two subjects has a great deal of potential for producing insights that will appeal to scholars working in a range of fields, from media studies to social historians. Each chapter demonstrates how focusing on the role of publishing among religious groups in modern China generates new insights and raises new questions. They examine how religious actors understood the role of printed texts in religion, dealt with issues of translation and exegesis, produced print media that heralded social and ideological changes, and expressed new self-understandings in their published works. They also address the impact of new technologies such as mechanized movable type and lithographic presses in the production and meaning of religious texts. Finally, the chapters identify where religious print culture crossed confessional lines, connecting religious traditions through links of shared textual genres, commercial

publishing companies and the contributions of individual editors and authors This book thus demonstrates how in embracing modern print media and building upon their longstanding traditional print cultures Christian Buddhist Daoist and popular religious groups were developed and defined in modern China While the chapter authors are specialists in religious traditions they have made use of recent studies into publishing and print culture and like many of the subjects of their research are able to make connections across religious boundaries and link together seemingly discrete traditions *The Sage and the People* Sebastien Billioud, Joel Thoraval, 2015-08-03 After a century during which Confucianism was viewed by academics as a relic of the imperial past or at best a philosophical resource its striking comeback in Chinese society today raises a number of questions about the role that this ancient tradition re appropriated reinvented and sometimes instrumentalized might play in a contemporary context The Sage and the People is the first comprehensive enquiry into the Confucian revival that began in China during the 2000s *Religious Diversity in Chinese Thought* P. Schmidt-Leukel, J. Gentz, 2013-09-04 This collection of essays by major scholars analyze the religious diversity in Chinese religion bringing together topics from traditional and contemporary contexts and Chinese religions encounters with Western religion
